Subject: Electronic Fund Transfers

Comments:

Fix the overdraft fee thing. Make it so the bank will deny the transaction when I don't have enough money. Make it so they can't process my transactions from largest to smallest, so that they are more likely to incur an overdraft, thus fee-ing me to death.

This is evil and wrong! I try to keep my account balanced but these practices make it more likely that the bank will mess me up, not that I will mess up. If I get overdraft fees, that can make it harder for me to catch up on my next paycheck deposit. They are stealing my money!

If they must do this (and they really shouldn't), make it OPT-IN, NOT opt-out. Please!]:(
