To whom this may concern, You have to do something about the banks ripping off your average joe..hard working people trying to make it in this messed up economy. I love how the banks can take your largest check and bounce everything after...please do something to stop this practice it is so unfair. The bank fees are also very unfair BOA went from \$20.00 for an overdraft to \$35.00..they are making a killing on the backs of hardworking people. Please help us and thank you for the opprorunity to share my thoughts.
