I would love to have the overdraft protection rules for debit card and atm changed so that I cannot spend money I don't have. Just yesterday I had to pay a 30\$ fee because I bought a 3\$ item at goodwill I knew I didn't have much money but thought that I would be denied if I didn't have enough money in my account, When I paid the bank I asked could they change it for me so that wouldn't happen again, and they said no.
