Comments:

I hope that the re-org of the banks also includes the fees. I am not the best at screening my bank account down to the penny. However, I have been hit with massive overdraft fees and it is my contention that the banks chose which check of yours they will pay first. For instance I sent in payments for \$50.00, 100.00 and 3 other bills which did not amount to over \$30.00. 3 days later I sent in my auto payment. I got hit with 6 overdraft payments because the bank paid the other bank first. Each overdraft was \$37.50. If the bank would have paid in the order received I would have received only 1 overdraft. I got screwed for \$187.50 and did not have a choice. I have always hoped the Government would step in and do their job so that people such as myself don't get raked over the coals.
