[47 FR 8768, Mar. 2, 1982, as amended at 50 FR 45824, Nov. 4, 1985]

§ 907.14 Corporation decision making procedures.

To ensure that at major decision making points all relevant environmental concerns are considered by the Decision Maker, the following procedures are established.

(a) An environmental document, i.e., the EIS, Environmental Assessment, Finding of No Significant Impact, or Notice of Intent, in addition to being prepared at the earliest point in the decision making process, shall accompany the relevant proposal or action through the Corporation's decision making process to ensure adequate consideration of environmental factors.

(b) The decision maker shall consider in its decision making process only those decision alternatives discussed in the relevant environmental documents. Also, where an EIS has been prepared, the decision maker shall consider all alternatives described in the EIS. A written record of the consideration of alternatives during the decision making process shall be maintained.

(c) Any environmental document prepared for a proposal or action shall be made part of the record of any formal rulemaking by the Corporation.

§ 907.15 Approval of private development proposals.

(a) Each development proposal submitted by a private developer to the Corporation for its approval, unless categorically excluded, shall require, at a minimum, an environmental assessment.

(b) The Board of Directors may not take any approval action on a submitted development proposal of a private developer until such time as the appropriate environmental review has been prepared and submitted to the Board of Directors.

(c) At a minimum, and as part of any submission made by a private developer to the Board of Directors for its approval, a private developer shall make available data and materials concerning the development proposal sufficient to permit the Corporation to carry out its responsibilities on environmental review. When requested, the developer shall provide additional information that the Corporation believes is necessary to permit it to satisfy its environmental review functions.

(d) As part of a development proposal submission, a private developer may submit an environmental assessment on its development proposal.

(e) Where the responsible Corporation official determines that the preparation of an EIS is required, the EIS shall be prepared in accordance with part 1502 of the CEQ Regulations. The responsible Corporation official may set time limits for environmental review appropriate to each development proposal, consistent with CEQ Regulations 40 CFR 1601.8 and 1506.10.

(f) The responsible Corporation official shall at the earliest possible time ensure that the Corporation commences its environmental review on a proposed development project and shall provide to a private developer any policies or information deemed appropriate in order to permit effective and timely review by the Corporation of a development proposal once it is submitted to the Board of Directors for approval. The official shall designate, for the benefit of the developer, staff members of the Corporation to advise the developer with regard to information that may be required in order to accomplish the Corporation's environmental review.

§ 907.16 Actions where lead Agency designation is necessary.

(a) Consistent with CEQ Regulations, § 1501.5, where a proposed action by the Corporation involves one or more other

Federal agencies, or where a group of actions by the Corporation and one or more other Federal agencies are directly related to each other because of their functional interdependence or geographical proximity, the Corporation will seek designation as lead agency for those actions that directly relate to implementation of the Plan and those actions that relate solely to the Development Area.

(b) For an action that qualifies as one for which the Corporation will seek designation as lead agency, the Corporation will promptly consult with the appropriate Federal agencies such as the National Capital Planning Commission, the Department of the Interior, and the General Services Administration to establish lead agency and co-operating agency designations.
