

WIA State Formula Spending for PY 2006

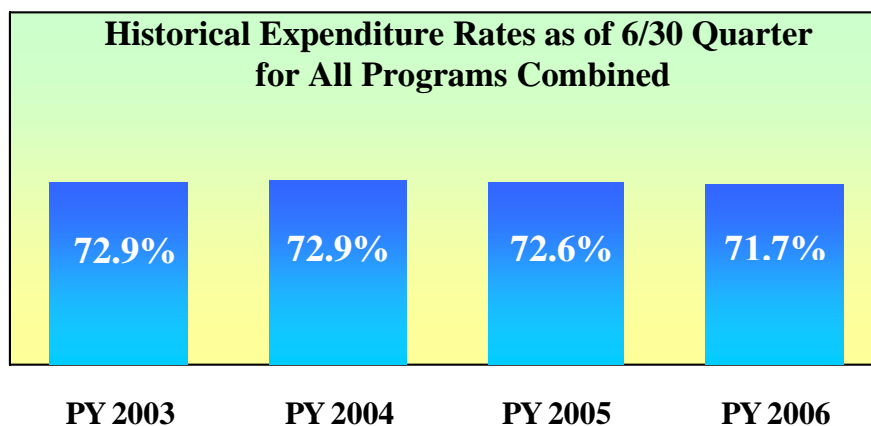

as of 6/30/07

**U. S. Department of Labor
Employment and Training Administration**

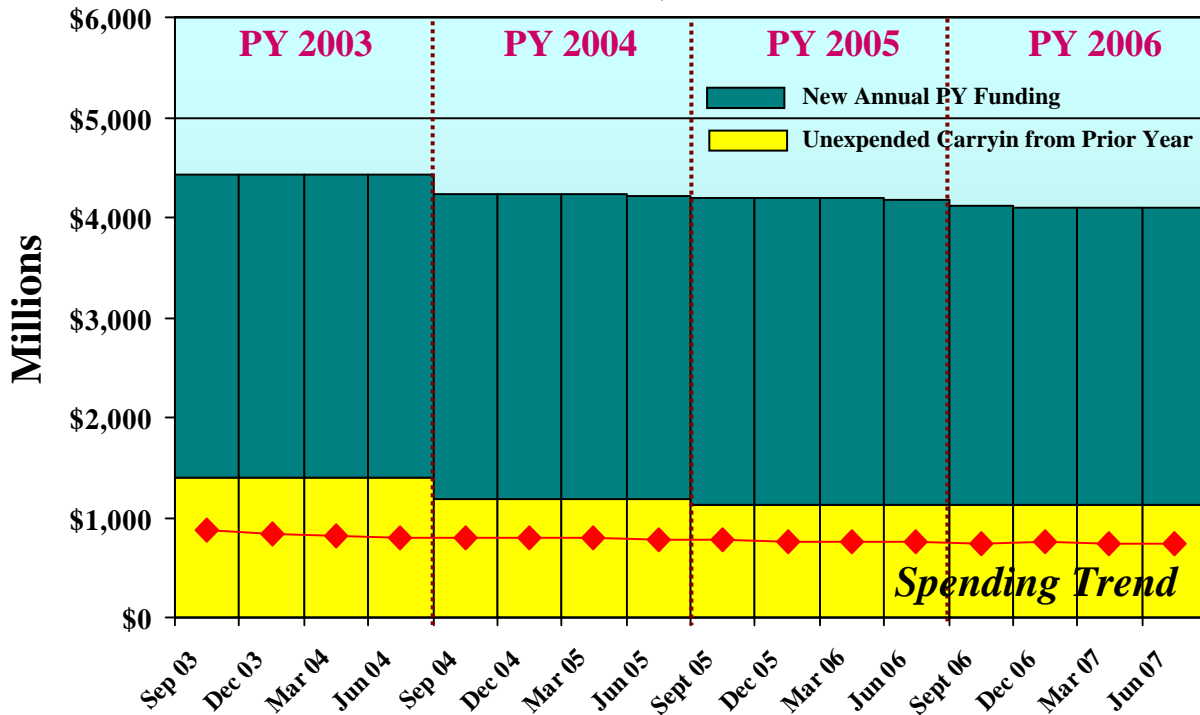

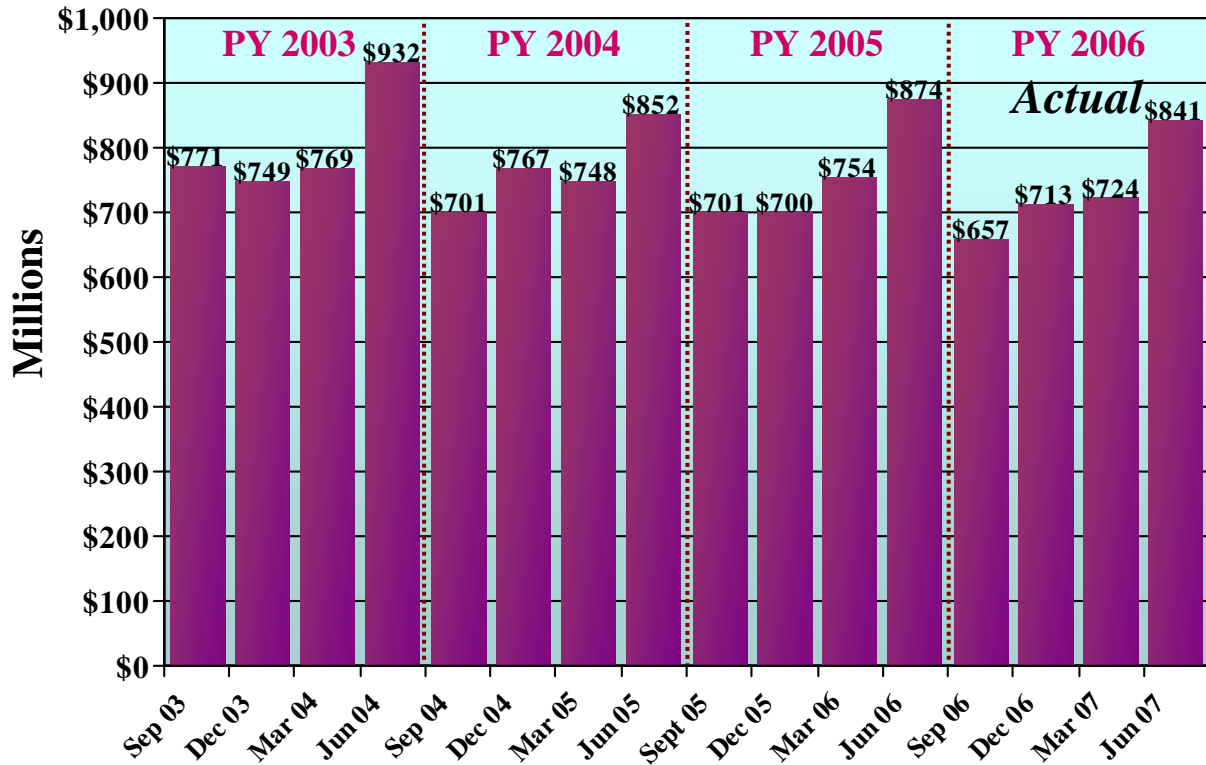

WIA Adult, Youth and Dislocated Worker Formula Programs State Spending for PY 2006, as of the Quarter Ending 6/30/07

Highlights

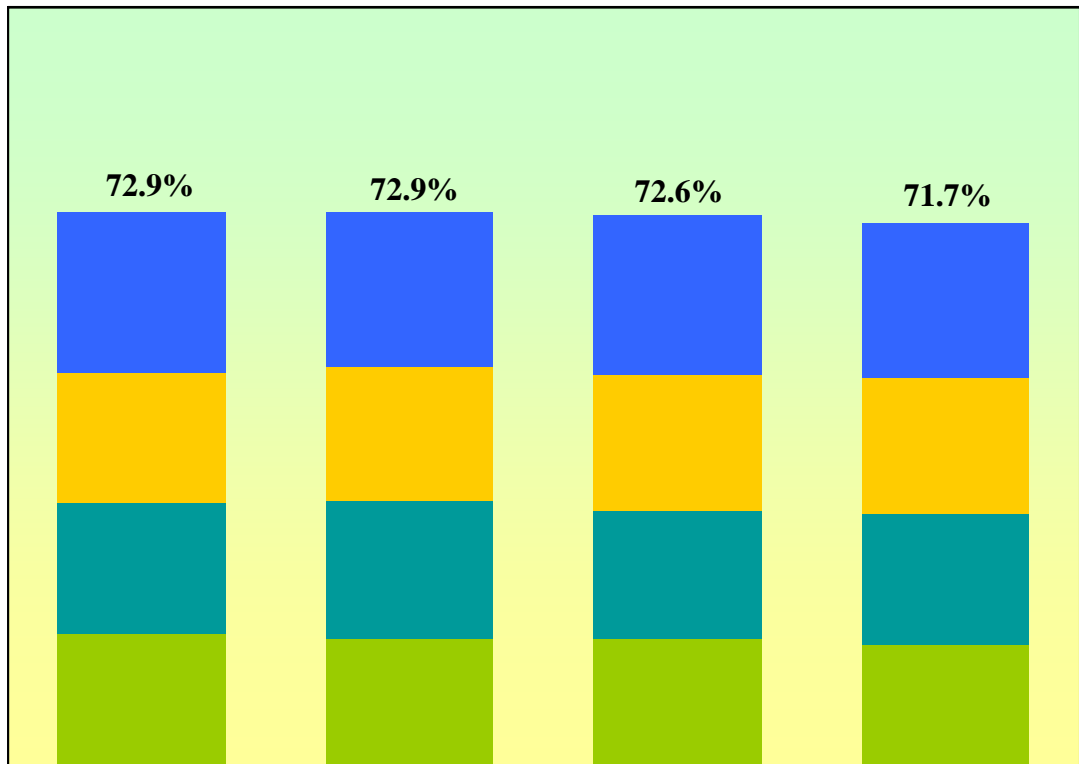

- Total available funding for States for all programs for PY 2006 is \$4,101 million and includes unexpended carry-in from prior years of \$1,130 million and new funding of \$2,971 million. The total available funding is down \$69 million (-1.7%) from the funding level available for PY 2005 due to a decrease in new funding (-\$65 million, -2.1%) and carry-in (-\$4 million, -0.34%). Carry-in represents 28% of total funds available for PY 2006, as compared to 27% of funds in PY 2005. Carry-in levels gradually declined each year from PY 2002 through PY 2006. However, the PY 2006 carry-out level to PY 2007 has increased \$24 million when compared to the PY 2006 carry-in amount, although the increases occur in a minority of states.
- As of 6/30/07, States were spending 71.7% of available funds in all three programs for PY 2006, a small decline when compared to 72.6% for PY 2005.
- Total spending as of the fourth quarter (including the prior April-June quarter for the Youth program) was \$2,941 million, down \$87 million, or -2.9%, compared to last year, and down \$129 million or -4.2 % from PY 2004. This is probably partially due to the decrease in total funds available to spend.
- The PY 2006 expenditure rates for the Adult, Youth, and Dislocated Workers programs all showed a slight decrease from PY 2005. The Dislocated Workers program continued to spend a lower proportion of available funds than the other programs.
- Spending rates for PY 2006 at state and local activity levels were, respectively, 55.3% and 78.3%, slightly higher for the state level yet slightly lower for the local level when compared to 54.4% and 79.8%, respectively, for PY 2005. Since PY 2000, State spending rates have continued to lag behind local spending rates, and local administration activity spending rates, while higher than state activity level spending, have been lower than local program rates.
- For PY 2006, 20 states showed increases in expenditure rates in all programs combined compared to PY 2005 rates.
- At the end of PY 2006, the number of states with expenditure rates below 70% is 16 for Adults, 11 for Youth, and 30 for Dislocated Workers. The total unexpended balances above 30% of total available funding for these states are as follows: Adults, \$14.6 million; Youth, \$12.0 million; Dislocated Workers, \$110.3 million.
