1. INTRODUCTION

Good morning (afternoon). My name is . . .. I'm from the Census Bureau. We are currently conducting the National Home and Hospice Care Survey for the National Center for Health Statistics which is part of the Centers for Disease Control and Prevention. We are studying home health agencies, home care agencies, hospices, and their patients. You should have received a letter from Edward J. Sondik, the Director of the National Center for Health Statistics, which describes this project. Have you received this letter?

2. SURVEY EXPLANATION

If administrator wants a copy of the letter, explain that you will bring a copy when you visit the agency.

I'm sorry that you did not receive the letter. Let me briefly outline its contents.

The National Home and Hospice Care Survey is authorized under Section 306 of the Public Health Service Act to collect information about home and hospice care agencies, their services, and patients. The survey is endorsed by the National Association for Home Care and the National Hospice Organization. The statistics compiled from the data are used to support research for effective treatment of long-term health problems and to study utilization of hospice and home care agencies and the efficient use of the Nation's health care resources.

I want to emphasize that the information you and your staff supply will be used solely for statistical and reporting purposes. In accordance with Section 308(d) of the Public Health Service Act, no information collected in this survey may be used for any purpose other than the purpose for which it was collected. Such information may not be published or released in any form if the individual or establishment is identifiable unless the individual or establishment has consented to such release.

The survey includes a small sample of home and hospice care agencies. Although your participation is voluntary and there are no penalties for refusing to answer any questions, it is essential that we obtain data from all sample agencies.
