TREASURY OFFERS 4-WEEK BILLS

The Treasury will auction 4-week Treasury bills totaling \$15,000 million to refund an estimated \$19,000 million of publicly held 4-week Treasury bills maturing December 13, 2001, and to pay down approximately \$4,000 million.

Tenders for 4-week Treasury bills to be held on the book-entry records of *TreasuryDirect* will not be accepted.

The Federal Reserve System holds \$10,646 million of the Treasury bills maturing on December 13, 2001, in the System Open Market Account (SOMA). This amount may be refunded at the highest discount rate of accepted competitive tenders in this auction up to the balance of the amount not awarded in today's 13-week and 26-week Treasury bill auctions. Amounts awarded to SOMA will be in addition to the offering amount.

Up to \$1,000 million in noncompetitive bids from Foreign and International Monetary Authority (FIMA) accounts bidding through the Federal Reserve Bank of New York will be included within the offering amount of the auction. These noncompetitive bids will have a limit of \$200 million per account and will be accepted in the order of smallest to largest, up to the aggregate award limit of \$1,000 million.

The allocation percentage applied to bids awarded at the highest discount rate will be rounded up to the next hundredth of a whole percentage point, e.g., 17.13%.

This offering of Treasury securities is governed by the terms and conditions set forth in the Uniform Offering Circular for the Sale and Issue of Marketable Book-Entry Treasury Bills, Notes, and Bonds (31 CFR Part 356, as amended).

Details about the new security are given in the attached offering highlights.
