1/ The amount reported under this column include unexpended federal grant funds the States have carried over from prior fiscal years.
 2/ Negative expenditures represent an accounting adjustment to prior year expenditures.
 3/ TANF Transfer and Available for TANF percentages are based on total amount awarded in 2003 and available as carryover (Line 1). Expenditures percentages are based on total expenditures (Line 7). Unliquidated and Unobligated balances percentages are based on the amount available for TANF (Line 4).

1/ The State reporting negative values under this column have been contacted.

GENERAL NOTES:

The MOE reports (Tables 2:5 through 2:6:2) are programmed to reflect adjustments in MOE activity that occurred in FY 2003 regardless of the year from which this activity change occurred. Table 2:8 reflects only MOE activity in the current funding year (FY 2003). Therefore, numbers from Tables 2:5 through 2:6:2 may not coincide with those in this table. This table shows total State TANF MOE expenditures through this period and the comparison of State MOE expenditures to meet the 75 and 80 percent annual MOE levels.

The MOE levels at 75 and 80 percent have been adjusted for States with Tribes operating TANF.

Table 5:1

Formulas for Computing Bonus Year Rates

Work-Related Measures

Job Entry Rate

This is a measure of the percent of the number of unduplicated unemployed adult recipients who entered employment for the first time during the performance year (i.e., Job Entries). An adult is considered to have entered employment for the first time in a calendar quarter if he/she had no earnings in any of the prior quarters of the performance year.

$$\frac{\text{Sum of Job Entries in Quarters 1 through 4}}{\text{Unduplicated number of unemployed adult recipients in performance year}} \times 100$$

Job Retention Rate

This is a measure of the percent of the sum of the unduplicated number of employed adult recipients in each quarter of the performance year who were also employed in the first and second subsequent quarters. (At some point, the adult might have become a former recipient.)

$$\frac{\text{Sum of employed adult recipients in each of Quarters 1 through 4 who continued employment in both the first and second subsequent Quarters}}{\text{Sum of unduplicated employed adult recipients in Quarters 1 through 4}} \times 100$$

Earnings Gain Rate

This is a measure of the rate of change in earnings of employed adult recipients who were employed in both an initial and the second subsequent quarter in each of the four quarters of the performance year.

$$\frac{\text{Sum of total dollars earned in second subsequent Quarter in each of Quarters 1 through 4 minus sum of total dollars earned in initial Quarter in each of Quarters 1 through 4 of adult recipients employed in both of these Quarters}}{\text{Sum of total dollars earned in initial quarter in each of Quarters 1 through 4}} \times 100$$

Table 5:1 (continued)

Success-in-the Workforce

This is a composite measurement of separate State ranking scores of the Retention and Earnings Gain rates for the performance year, as shown above. The ranks are equally weighted, combined, and then re-ranked.

Increase/Decrease in Job Entry Rate

This measure compares the percentage point change between the Job Entry Rate achieved in the performance year and the prior year.

Performance Year Job Entry Rate minus prior year Job Entry Rate

Increase/Decrease in Job Retention Rate

This measure compares the percentage point change between the Job Retention Rate achieved in the performance year and the prior year.

Performance Year Job Retention Rate minus prior year Job Retention Rate

Increase/Decrease in Earnings Gain Rate

This measure compares the percentage point change between the Earnings Gain Rate achieved in the performance year and the prior year.

Performance Year Earnings Gain Rate minus prior year Earnings Gain Rate

Increase/Decrease in Success in the Workforce

This is a composite measurement of the comparison of two separate State ranking scores—the percentage point change between the Job Retention Rate achieved in the performance year and the prior year, and the percentage point change between the Earnings Gain Rate achieved in the performance year and the prior year. Ranks are equally weighted, combined and then re-ranked.

Table 5:1 (continued)

Non-Work Measures

Medicaid/SCHIP Enrollment Rate

This is a measure of the number of recipients in the performance year who leave TANF and are enrolled in the Medicaid/SCHIP program both at the time of leaving and in the fourth month after leaving, as a percent of all recipients who leave TANF and were enrolled at time of leaving.

$$\frac{\text{Sum of recipients in each of Quarters 1 through 4 who leave TANF and are enrolled in Medicaid/SCHIP both at time of leaving and in the fourth month after leaving}}{\text{Total number of individuals who leave TANF who are enrolled in Medicaid/SCHIP at time of leaving TANF}} \times 100$$

Increase/Decrease in Medicaid Enrollment Rate

This measure compares the percentage point change between the Medicaid/SCHIP enrollment rate achieved in the performance year and in the prior year.

$$\text{Performance Year Medicaid/SCHIP Enrollment Rate} \text{ minus } \text{prior year Medicaid/Enrollment Rate}$$

Food Stamp Rate

This is a measure of the percent of low-income working households with children under 18 in the performance year (calendar year) who participate in the Food Stamp program. Basic calendar year data were provided by the Bureau of the Census. The formula for the calculation is as follows:

$$\frac{\text{Number of low-income working households with children under 18 participating in the Food Stamp program in the calendar year}}{\text{Total number of low-income working households with children under 18 in calendar year}} \times 100$$

Increase/Decrease in Food Stamp Participation Rate

This measure compares the percentage point change between the Food Stamp participation rate achieved in the performance year (calendar year) and the prior calendar year.

$$\text{Calendar year Food Stamp Rate} \text{ minus } \text{prior calendar year Food Stamp Rate}$$

Table 5:1 (continued)

Child Care Subsidy Rate

This measure consists of three components for the performance year—the percent of eligible children served, the affordability of care for the families of the children as indicated by the relationship between the State’s reported CCDF (Child Care Development Fund) co-payments and the reported family income and a quality component measuring actual paid funds compared to State market rate survey. Each State’s year rank on this measure is a composite weighted score of the two components—the component on percent of children served having a weight of 6 and the family co-payment component having a weight of 4.

Child Care Accessibility Component:

$$\frac{\text{Number of children served under the CCDF requirements}}{\text{Number of children in the State eligible to receive CCDF services}} \times 100$$

Child Care Affordability Component:

The following comparison of assessed family co-payment to family income in the performance year was computed across four income ranges. The income ranges are: 1) income below the poverty level; 2) income at least 100 percent and below 125 percent of poverty; 3) income at least 125 percent and below 150 percent of poverty; 4) income at least 150 percent and below 175 percent of poverty.

$$\frac{\text{Reported assessed family performance year co-payment}}{\text{Reported family income across all four income ranges}} \times 100$$

Also incorporated in the affordability rate is the following computation:

$$\frac{\text{Number of potentially-eligible children served with CCDF funds in performance year}}{\text{Number of eligible children under the Federal criteria in performance year}} \times 100$$

Child Care Quality Component:

$$\frac{\text{Actual amount paid with CCDF funds for children receiving subsidies}}{\text{Local market rates from the State}} \times 100$$

Table 5:1 (continued)

Increase/Decrease in Family Formation and Stability Rate

Bonuses are awarded only to the ten States with the greatest percentage point improvement on this measure. For the bonus year, this measure compares the percentage point change between the Family Formation and Stability rate achieved in the performance year (calendar year) and the prior calendar year.

The formula for computing the rate for the performance year is:

$$\frac{\text{Number of children who reside in married couple families}}{\text{Number of married couple families}} \times 100$$

The formula for computing the percentage point improvement rate is:

$$\text{Calendar year performance rate} \text{ minus the prior calendar year performance rate}$$

*Ranks for Success in the Workforce are re-rankings of the combined Job Retention and Earnings Gain submeasure ranks. For FY 2002 changes in performance over FY 2001 performance, only the ranks of States with at least one positive submeasure percentage point change are combined and re-ranked. (See 45 CFR, Part 270, Section 270.5(a)(4).)

**Data provided by the U.S. Census Bureau. Only calendar year data are available.

***Data provided by the ACF Child Care Bureau.

****State not participating.

*Data provided by the U.S. Census Bureau. Only calendar year data are available. Rate is the number of low-income working households with children under 18 (i.e., in households with income less than 130% of poverty and earnings equal to at least half-time full-year Federal minimum wage) receiving food stamps as a percentage of the number of households (as defined here) in the State.

**State not participating.

*Ranks for Success in the Workforce are re-rankings of the combined Job Retention and Earnings Gain submeasure ranks. For FY 2003 changes in performance over FY 2002 performance, only the ranks of States with at least one positive submeasure percentage point change are combined and re-ranked. (See 45 CFR, Part 270, Section 270.5(a)(4).)

**Data provided by the U.S. Census Bureau. Only calendar year data are available.

***Data provided by the ACF Child Care Bureau.

*Data provided by the U.S. Census Bureau. Only calendar year data are available. Rate is the number of low-income working households with children under 18 (i.e., in households with income less than 130% of poverty and earnings equal to at least half-time full-year Federal minimum wage) receiving food stamps as a percentage of the number of households (as defined here) in the State.

1986	878,477	34.2	23.4
1985	828,174	32.8	22.0
1980	665,747	29.4	18.4

¹Births to unmarried women per 1,000 unmarried women aged 15-44 years.

²Percent of all births to unmarried women.

NOTE: For most states, data on births to unmarried women are based on a direct question on the birth certificate or in the electronic birth registration process, asking if the mother is married. In 1999-2002, mother's marital status for two states was inferred from other information on the birth certificate. Rates for 1991-2001 have been revised and may differ from rates previously published.

Table 8:3

NOTE: In 1998-2002, for 48 States and the District of Columbia, marital status of mother is determined from a direct question in the birth registration process. In two States, Michigan and New York, mother's marital status is inferred. Marital status was inferred in 4 states and the District of Columbia in 1997, and in 5 States and the District of Columbia in 1996.

¹Comparable to Table 8:9 in TANF 6th Annual Report to Congress

²Excludes data for the territories.

³Connecticut provided adjusted birth data to account for changes in methodology and procedures for reporting the mother's marital status.

Calculations for all other states were done on the basis of data files provided by each State to the Centers for Disease Control and Prevention's National Center for Health Statistics (NCHS) which has tabulated the entire national birth file by mother's place of residence.

NOTE: A separate table is available from CDC/NCHS for the adjusted birth data for Connecticut.

Prepared in the Division of Vital Statistics, NCHS, CDC, from published birth data and special tabulations provided by Connecticut.
