README FIRST (November 30, 2000)

PCRAMMET meteorological data preprocessor (Spanish version). Revised 10/2000.

The U.S. Environmental Protection Agency's (EPA's) U.S.-Mexico Border Information Center on Air Pollution (i.e., "Centro de Información sobre Contaminación de Aire" or "CICA") has prepared and made available a Spanish language version of EPA's PCRAMMET program. This program was revised in October, 2000. PCRAMMET is a preprocessor for meteorological data that is used with the Industrial Source Complex 3 (ISC3) regulatory model and other EPA models. If you would like to download this Spanish version of PCRAMMET and /or related materials, select the appropriate file type(s) from the PCRAMMET listing on the preceding Web page. These selections include the following:

    ZIP file for the PCRAMMET executable program;
    PDF file for the PCRAMMET user's guide; and/or
    TXT file for PCRAMMET Model Change Bulletins.

If you would like an English (standard) version of the PCRAMMET program, please go to the Support Center for Regulatory Air Models (SCRAM) site on the Technology Transfer Network (TTN) Web site http://www.epa.gov/ttn/scram/.
