A special thanks to Terry Spivey for all his insight and guidance.

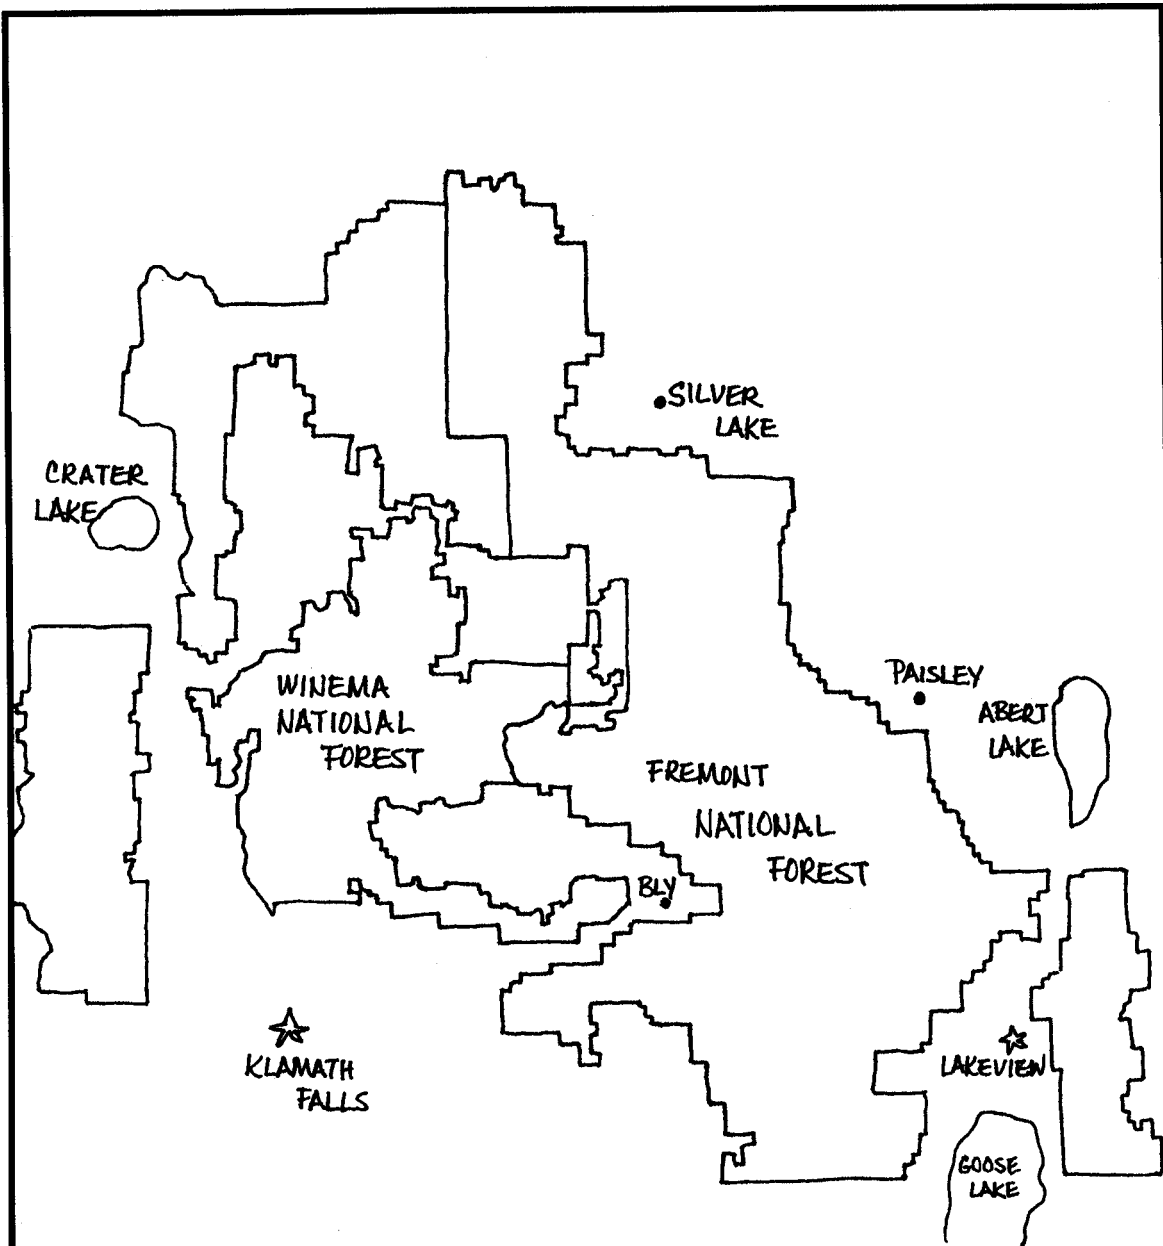

BLUE-LEAVED PENSTEMON is found in PINE FORESTS.
It is very rare, & is found only in CENTRAL OREGON.

BLUE-LEAVED PENSTEMON

Petals: Lavender Blue
Leaves: Bluish Green

MARIPOSA LILY is found in DRY MEADOWS.

One species, the Long Bearded Mariposa Lily, is a very rare lily found only on the FREMONT & WINEMA NATIONAL FORESTS in central Oregon.

MARIPOSA LILY

Petals: Pink/Purple
Leaves & Stem: Green

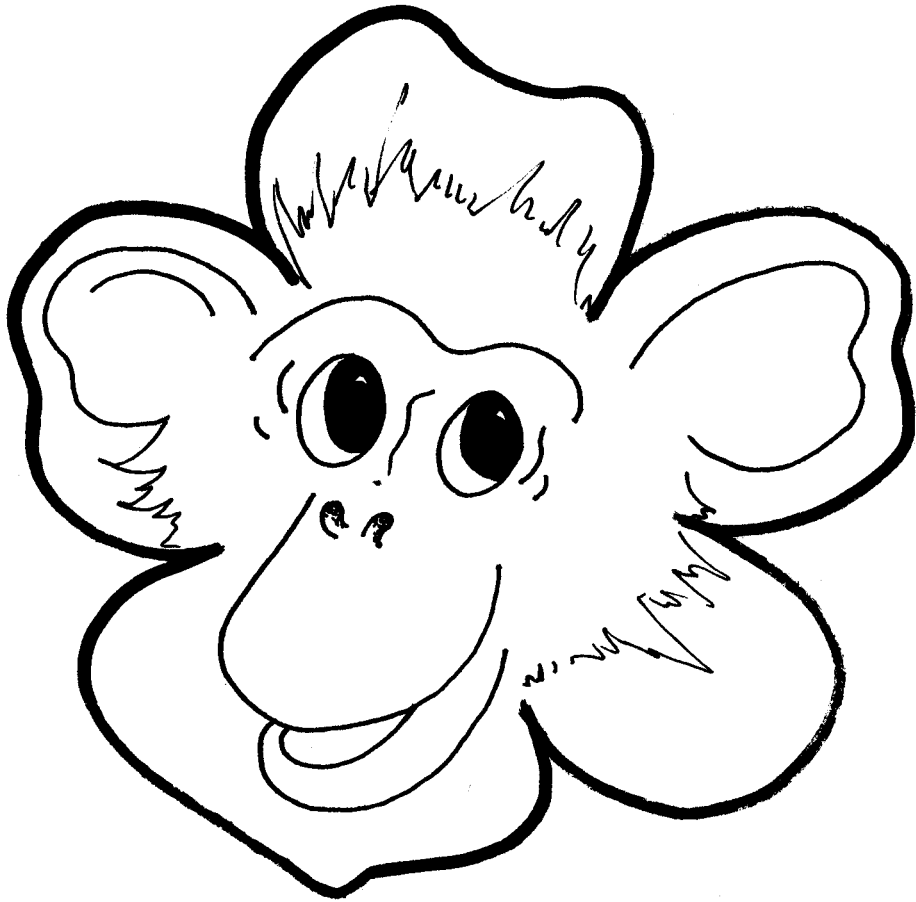

YELLOW LADY SLIPPER is found in **MOIST WOODS**.
It is a beautiful & rare plant, with a
FLOWER THAT LOOKS LIKE A SLIPPER!

MOUNTAIN LADY SLIPPER

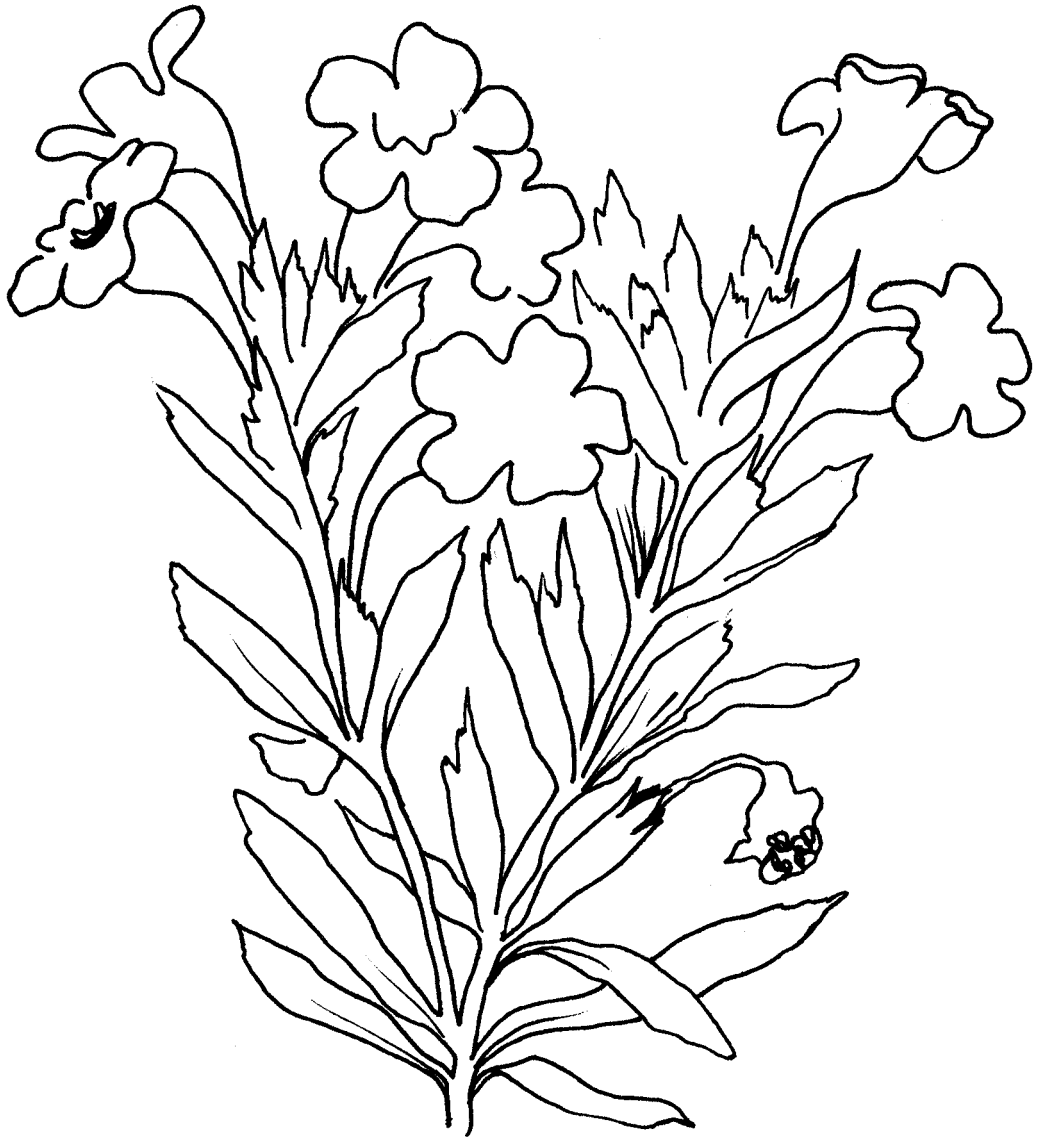

Flowers: Yellow
Leaves: Green

TRICOLORED MONKEY FLOWER is found in WET MEADOWS & along STREAMS. This rare plant has flowers that look like the FACE OF A MONKEY!

TRICOLORED MONKEY FLOWER

Petals: White, Yellow, Dark Purple

Leaves: Green

WILD ROSE is found in FOREST OPENINGS & MEADOWS.

"ROSE HIP" TEA can be made from the centers of these flowers when they dry up in the fall.

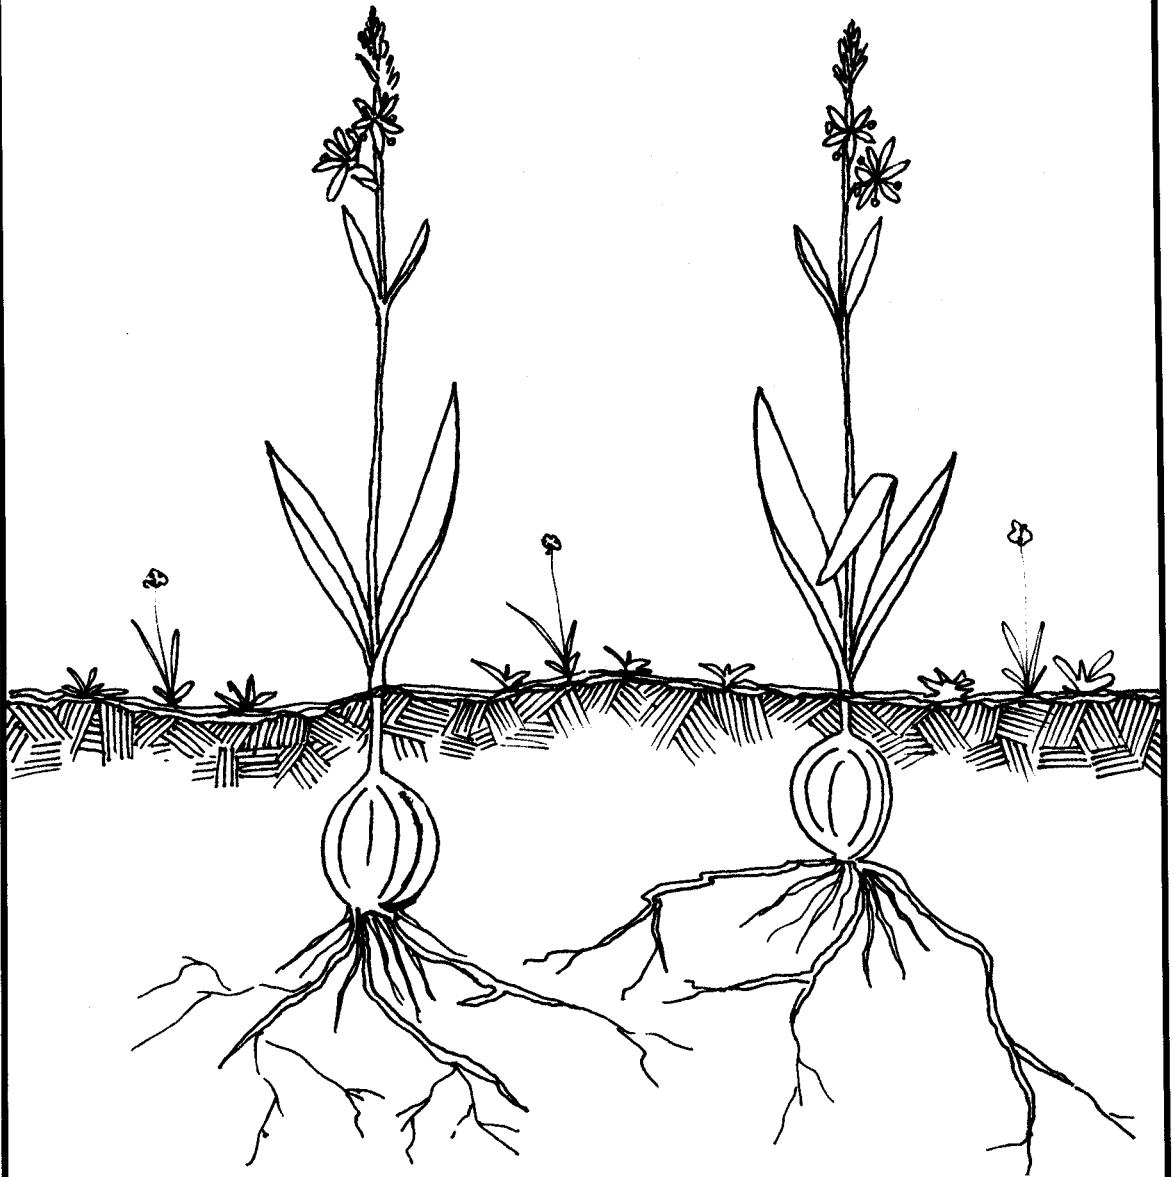

WILD ROSE

Petals: Pink with Yellow Centers

Stem: Reddish Brown

Leaves: Green

BLUE CAMAS is found in **WET MEADOWS**.
The **ROOTS** of this plant were an important **FOOD** to
Native Americans living in **Oregon** long ago.

BLUE CAMAS

Petals: Blue
Leaves: Green

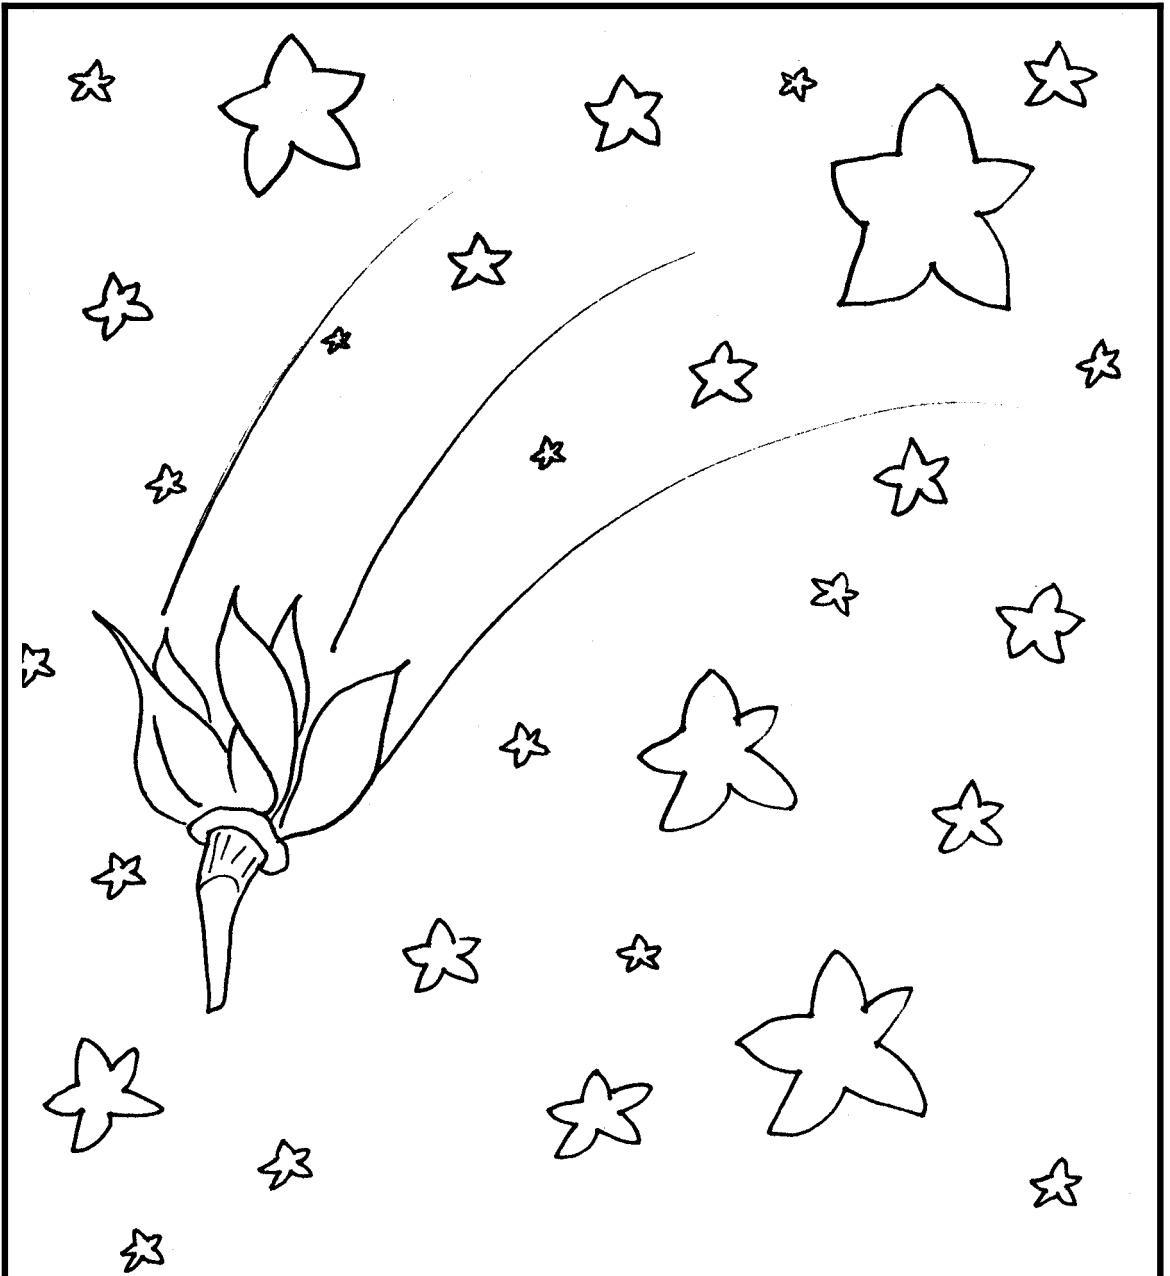

FIREWEED is found in **OPEN AREAS** of forests, along **ROADSIDES, & in MEADOWS.**

FIREWEED is a "**PIONEER**" plant that moves into cleared or open areas, say after a fire or timber harvest.

FIREWEED

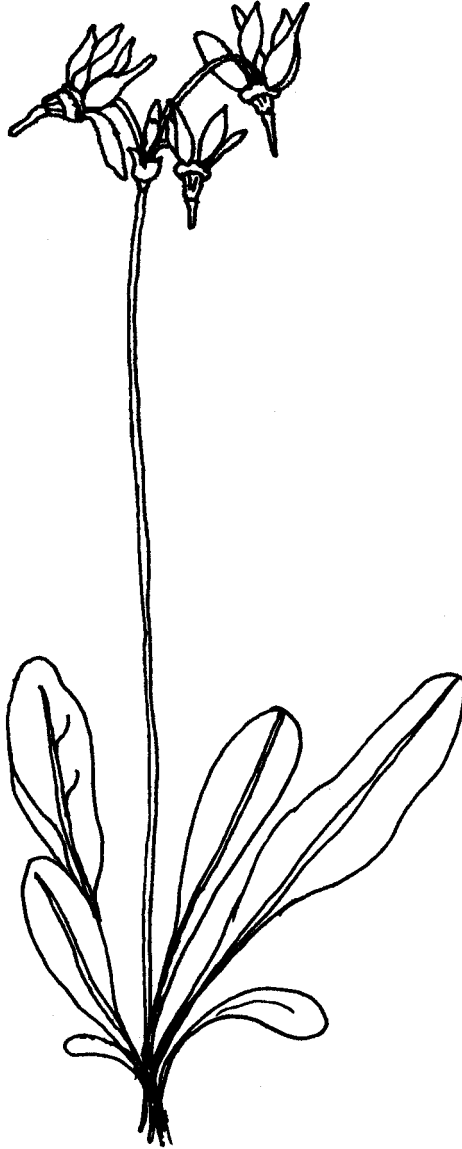

Flowers: Rose Pink
Stem: Light Brown
Leaves: Green

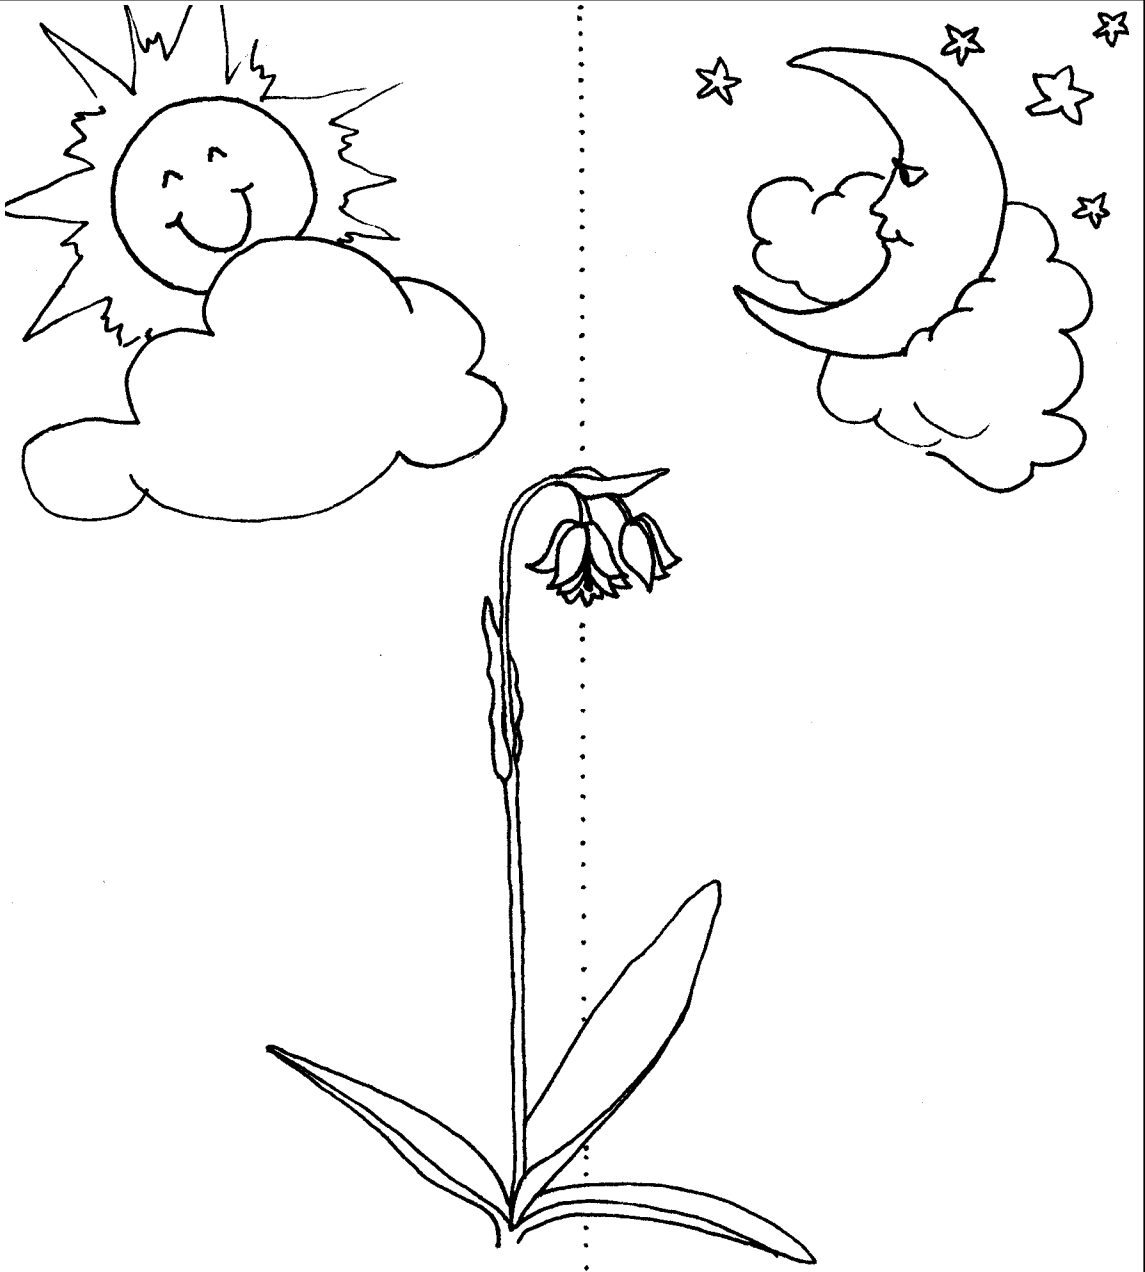

SHOOTING STAR is found in WET MEADOWS & by STREAMS. Take a look at the flowers of this plant & you will see how it got its name. ☆

SHOOTING STAR

Petals: Purple
Centers: Yellow & White
Leaves: Green

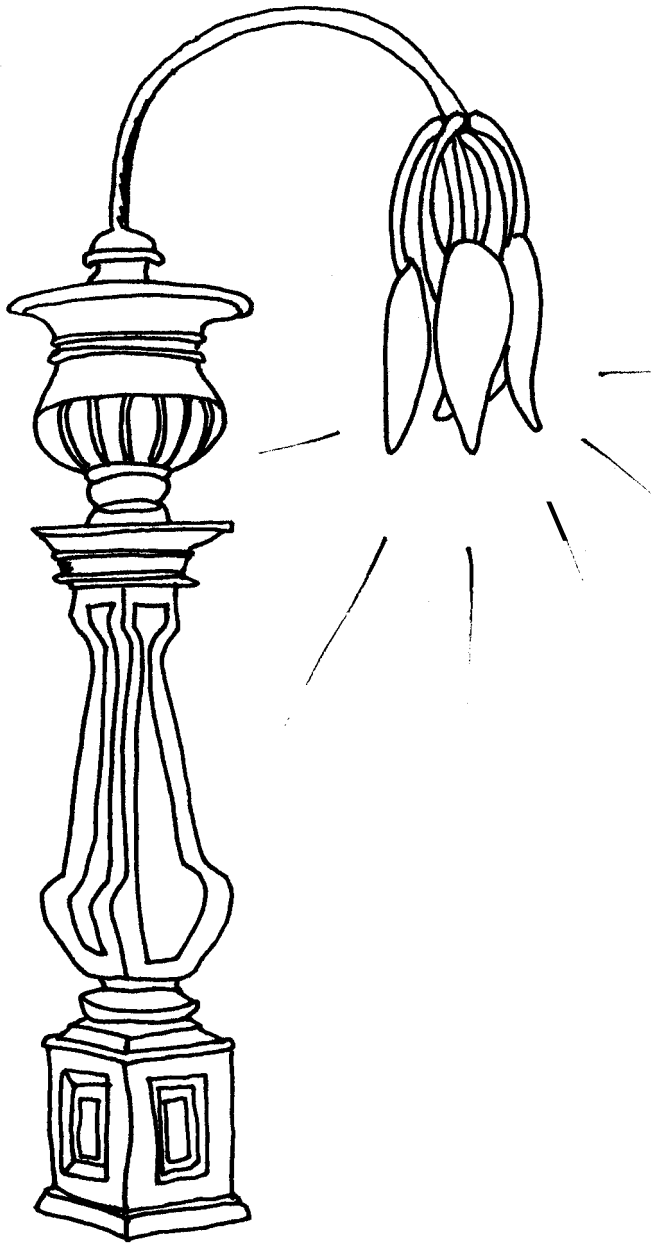

CHOCOLATE LILY is found in **PINE FORESTS**.
It's petals are chocolate colored (but don't eat them!),
& the flower blooms for **JUST ONE DAY**.

CHOCOLATE LILY

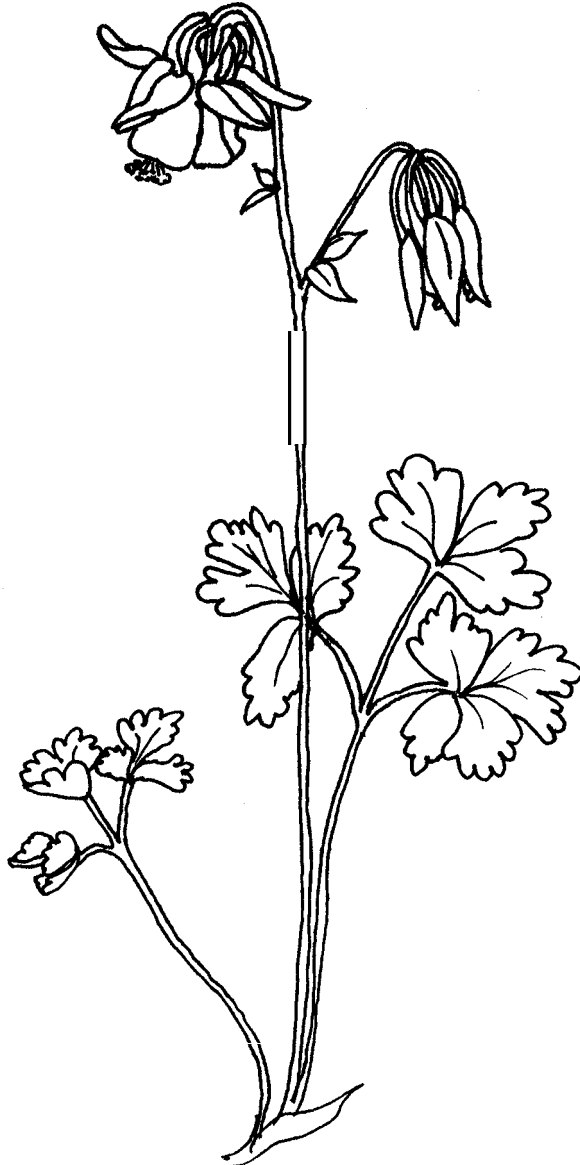

Petals: Brown
Leaves & Stem: Green

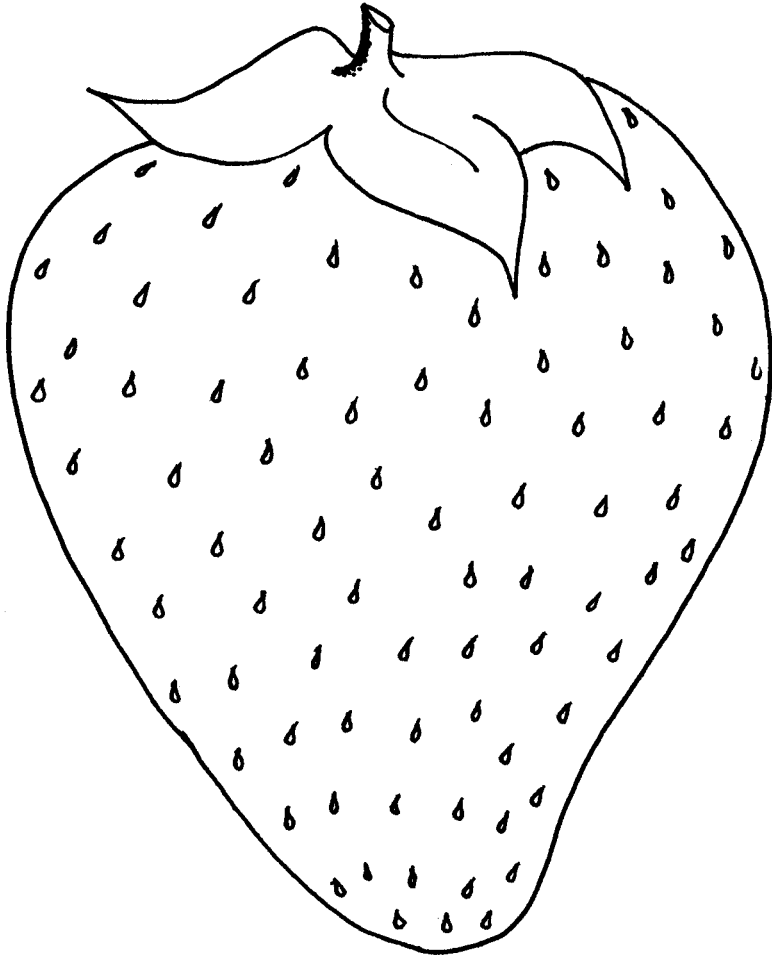

RED COLUMBINE is found in **MOIST WOODS**.
The red & yellow flowers look like **BRIGHT LANTERNS!**

RED COLUMBINE

Flowers: Red with yellow center

Leaves: Green

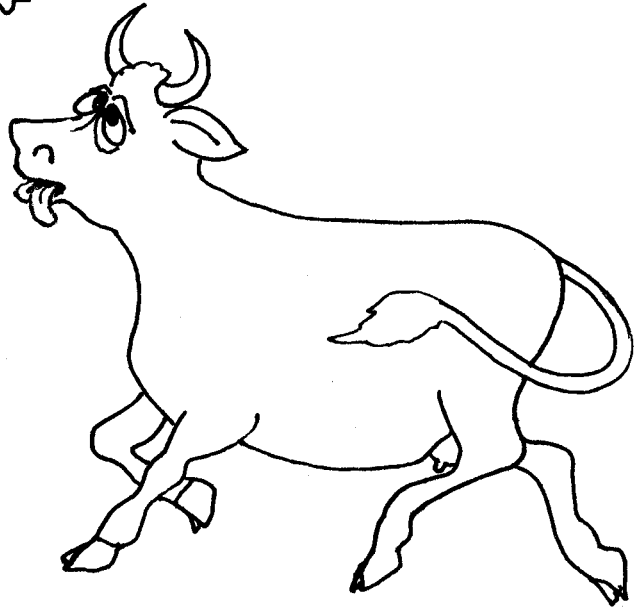

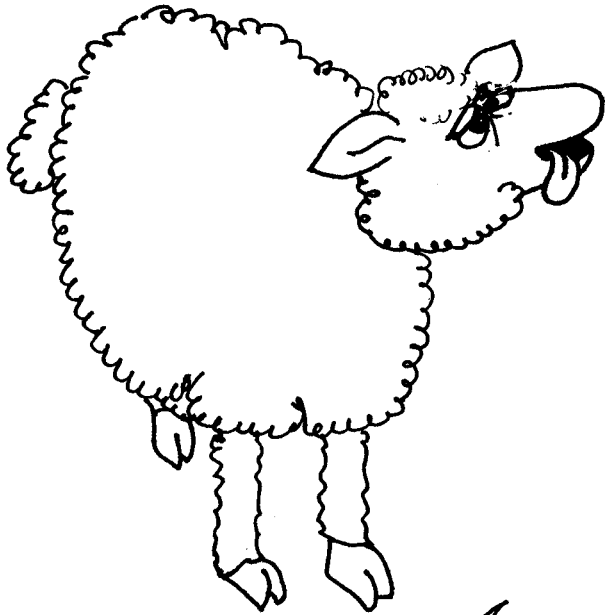

WILD STRAWBERRY is found in **PINE FORESTS**.
More than just the **BERRY** are **EDIBLE** from this plant , , ,
the leaves can be made into a **bitter** tea for stomach aches,

WILD STRAWBERRY

Flowers: White with Yellow Centers.
Leaves: Green

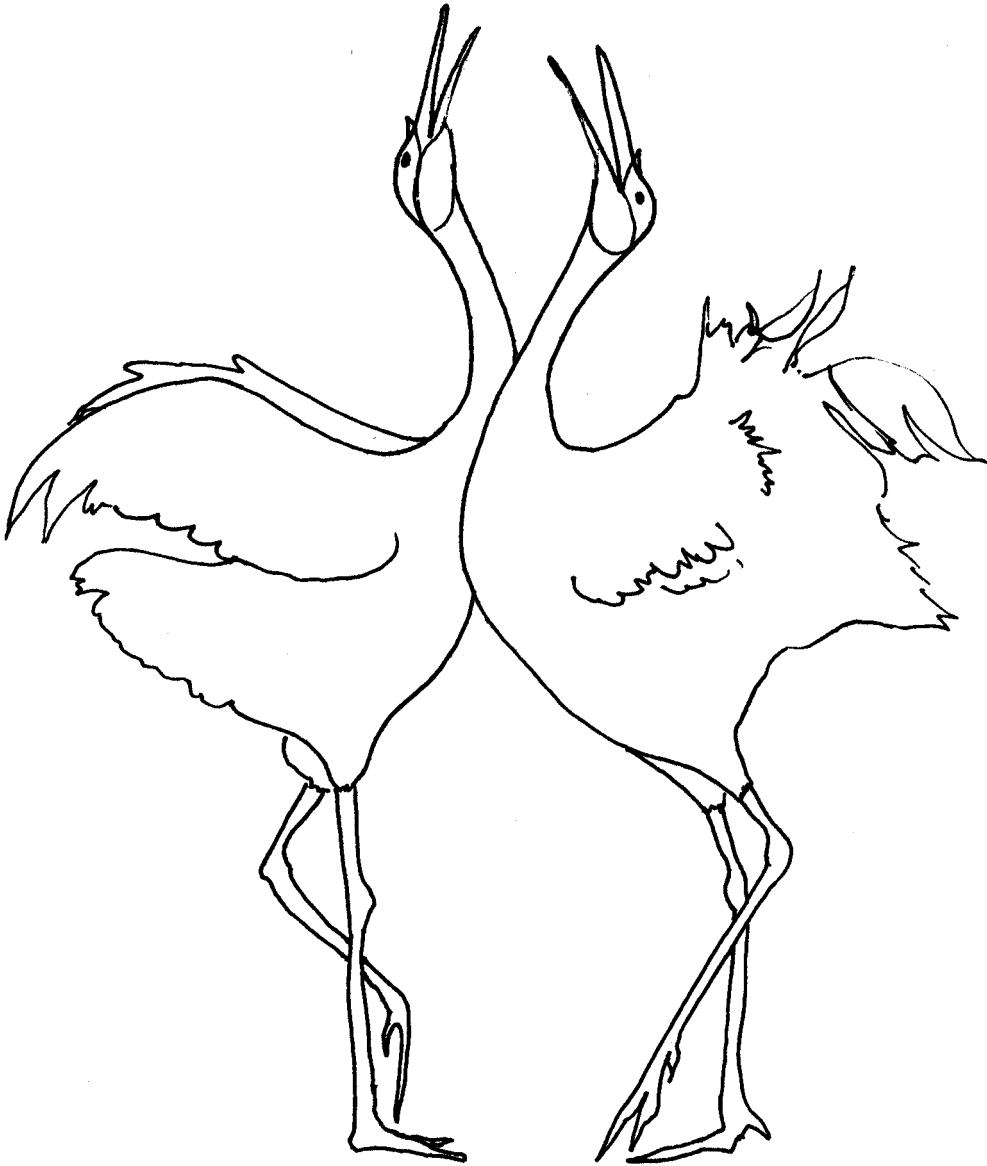

LUPINE is found in DRY AREAS with PINE FORESTS.
The seeds of the Lupine will make CATTLE & SHEEP SICK.

LUPINE

Flowers: Lavender/Blue
