

## HERBARIUM SHEET WALL DISPLAY.

Chris O. Loggers and Kirk W. Larson,

US Forest Service, Three Rivers Ranger District, 255  
West 11<sup>th</sup>, Kettle Falls, WA 99141

Keywords: Primary: display Secondary: plant.

We designed a low-cost, wood-and-Plexiglas wall mount to display 10 herbarium sheets. The display consists of 3 wooden, grooved slats mounted horizontally, parallel each other. Slats are separated by 15 3/4 inches. Each slat is backed by 3/16-inch hardboard to prevent the wall from marring the Plexiglas sheets. On each level 5 herbarium-sheet holders made of folded Plexiglas slide into grooves in the slats. The display's overall dimensions are 60 inches by 37 1/2 inches. Slats measure 2 inches by 1 inch by 60 inches. Folded-Plexiglas sheets measure 11 1/2 inches by 16 1/2 inches.
