About this chart

This chart summarizes the results of all measures for this group of hospitals. Lower numbers are better.

The overall rank of this group of hospitals is based on how each hospital performed on each measure and on your rankings of the importance of each measure. If you change the rankings of the measures these results may vary.

You should view each section of the report to see the details for each measure.

Legend

Rank: The overall rank of each hospital in this group of hospitals.

Index: A point score used to calculate the ranks. This is the average rank across all measures, weighted by the rank you gave to each measure.

Patients/yr: Rank based on the number of patients treated at each hospital.

Mortality: Rank based on the percentage of patients who died while being treated.

Complications: Rank based on the percentage of patients who developed problems while being treated.

LOS: Rank based on the average number of days people stay in the hospital for treatment.

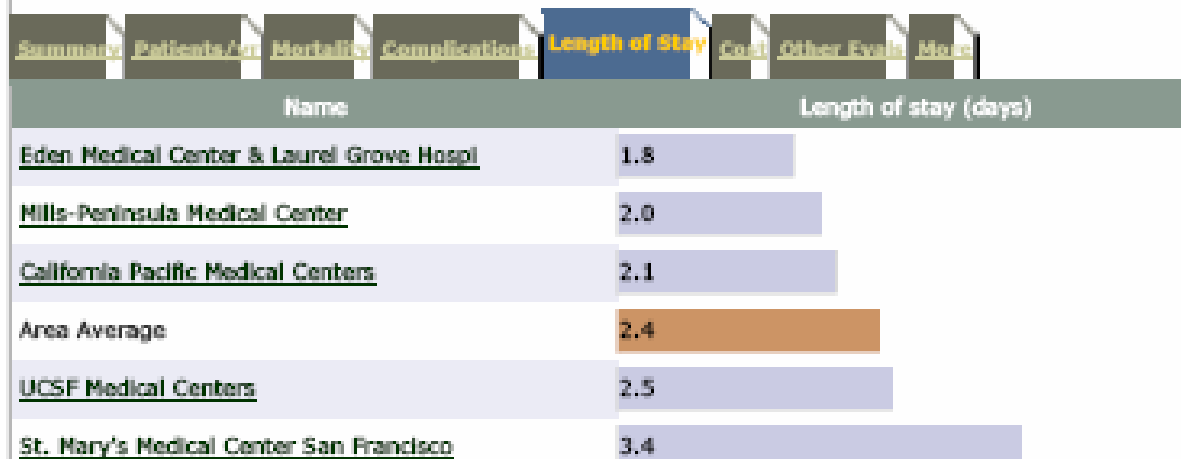

Cost: Rank based on the hospital's relative cost for treatment (not what you pay).

Leapfrog Hospital Patient Safety Standards

The Leapfrog Group of Fortune 500 employers and organizations has identified 4 quality and safety practices that encourage provider quality improvement: Computer Physician Order Entry (CPOE), ICU Physician Staffing (IPS), Evidence-Based Hospital Referral (EHR), and Quality Index (QI). The group asks hospitals to voluntarily report on the steps they take to adopt these practices, and provides the following survey results.

The Leapfrog Group data was collected and compiled by Medstat (www.medstat.com). The Leapfrog Group neither endorses nor warrants the quality of any data in this display other than The Leapfrog Group's data and neither endorses or warrants the methodology used in this display to compile data from other sources.

The survey results are updated on a monthly basis, therefore, you will need to regularly check these results to obtain the most accurate comparisons of hospitals.

Name	Computer Physician Order Entry	ICU Physician Staffing	Quality Index	Evidence Based Hospital Referral	
				Overall Score	Leapfrog Patients/yr
Eden Medical Center & Laurel Grove Hospital				Only applicable for Leapfrog procedures.	
California Pacific Medical Centers					
St. Mary's Medical Center San Francisco					
UCSF Medical Centers					
Mills-Peninsula Medical Center					
				Leapfrog Recommended Minimum
