

## Lesson Two Assessment: The Second National Bank

Student \_\_\_\_\_ Date \_\_\_\_\_

Below is a Venn Diagram with two intersecting circles. One circle is for **Marshall's** arguments in the section of his opinion quoted in [McCulloch v. Maryland \(1819\)](http://usinfo.state.gov/usa/infousa/facts/democrac/10.htm) [http://usinfo.state.gov/usa/infousa/facts/democrac/10.htm], the other for **Madison's**. In the intersection between the two circles put those arguments that are essentially the **same for both** men.

Additional information can be gleaned from the PDF files [Madison's Edited](http://edsitement.neh.gov/lesson_images/lesson563/RemarksOnBankEdited.pdf) [http://edsitement.neh.gov/lesson\_images/lesson563/RemarksOnBankEdited.pdf] and [Complete Remarks](http://edsitement.neh.gov/lesson_images/lesson563/RemarksOnBankComplete.pdf) [http://edsitement.neh.gov/lesson\_images/lesson563/RemarksOnBankComplete.pdf] on the constitutionality of a national bank.
