District: ATL-DO

Profiled: No

Conveyance Type:

% Interstate:

Inspectional Responsibility:

**Endorsement**

Previous EI of this large peanut butter mfr on 7/25/00 was limited to a follow-up of Complaint 1-03038 dtd 7/24/00, which alleged employees' restrooms were insanitary. Minor deficiencies were found in restrooms & locker rooms, all of which management promised to correct. Current EI was limited to ATL-DO Assignment # 10136 dtd 8/1/00 requesting F/U of SRL's analysis on Sample # 92179 Peter Pan Crunchy Peanut Butter, Lot S05K1, which disclosed 4 ppb Aflatoxin B1.

The inspection found the suspect lot consisted of (b)(4) cases of 12/18 OZ plastic jars. The suspect lot, S05K1, & 4 other peanut butters, product #s 45001 Creamy, 45020, 45077, and 45030 were packed during the 1st shift on 5/18/00. Reportedly, all products packed under Lot # S05K1 had been distributed. Management would not allow review of production & shipping records nor would it identify product packed under product numbers reported above, citing corporate policy.

Management reported shipping information could be obtained if a written request, specifying information sought, was sent to the firm's Legal Counsel, Mr. (b)(4) firm's corporate headquarters. Management reported no other information could be provided concerning the suspect lot unless a written request was provided by FDA.

Follow-Up:
