

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency/component, including whether the information will have practical utility;
- Evaluate the accuracy of the agencies/components estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

(1) Type of Information Collection: Revisions of Currently Approved Collection and Extension of a Currently Approved Collection.

(2) The Title of the Form/Collection: OVC TTAC and NTTAC Feedback Form Package.

(3) The Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection: Form Number(s): T-100, T-200, T-300, G-100, G-200, and G-300. Office for Victims of Crime, Office of Justice Programs, Department of Justice. Additionally, the applicable agency for the NTTAC evaluation and needs assessment forms is the Office of Juvenile Justice and Delinquency Prevention, Office of Justice Programs, Department of Justice.

(4) Affected public who will be asked or required to respond, as well as a brief abstract, Primary: State, Local or Tribal. Other: Federal Government; Individuals or households; Not-for-profit institutions; Businesses or other for-profit. Abstract: The Office for Victims of Crime Training and Technical Assistance Center (OVC TTAC) and OJJDP National Training and Technical Assistance Center (NTTAC) Feedback Form Package is designed to collect the data necessary to continuously assess the outcome and impact of the assistance provided through OVC TTAC and NTTAC for both monitoring and

accountability purposes to continuously meet the needs of the victim service field. Both OVC TTAC and NTTAC will send these forms to technical assistance (TA) recipients, to capture important feedback on the recipient's satisfaction with the quality, efficiency, referrals, and resources provided. Additionally, needs assessment forms will be sent to OJJDP grantees and juvenile justice professionals for voluntary completion. The data will then be used to advise OVC TTAC and NTTAC on ways to improve the support provided to its users and the victim service field at-large.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply: There are approximately 16,492 respondents who will require an average of 5 minutes to respond to a single form for TTAC and approximately 4,850 respondents who will require an average of 5 minutes to respond to a single evaluation form for NTTAC. Additionally, approximately 4,572 respondents will require an average of 15 minutes to respond to the needs assessment form for NTTAC.

(6) An estimate of the total public burden (in hours) associated with the collection: The total annual public burden hours for this information collection is estimated to be 2921 hours.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and

accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The information collection requirements specified in the Noise Standard protect employees from suffering material hearing impairment. The information collection requirements of the Noise Standard include conducting noise monitoring; notifying employees when they are exposed at or above an 8-hour time-weighted average of 85 decibels; providing employees with initial and annual audiograms; notifying employees of a loss in hearing based on comparing audiograms; training employees on the effects of noise, hearing protectors, and audiometric examinations; maintaining records of workplace noise exposure and employee audiograms; and allowing employees, OSHA, and NIOSH access to materials and records required by the Standard.

II. Special Issues for Comments

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions to protect employees, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

The Agency is requesting a reduction in burden hours from 5.18 million to an estimated 2.85 million. The reduction is a result of reducing the number of participating employers and employees in manufacturing industries by 25%. OSHA will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Noise Standard (29 CFR 1910.95).

OMB Number: 1218-0048.
