

DoD Worldwide: so many choices, so many opportunities

Interest is building in the Department of Defense Worldwide Education Symposium 2009, which this year will host the world's largest military education fair.

The breakout presenters and panelists slated to appear at the Symposium are of such high caliber, and the topics so relevant, that CNN has expressed interest in covering it.

Only three months remain until the big event, which will be held in Atlanta the week of July 27-31. Nearly 100 breakout and lunch-n-learn topics are confirmed.

More than 1,400 people are registered. Attendees can modify their registration and build a custom-made schedule.

Use your confirmation number

to modify the default agenda in the "My Registration" section. Select one of the 13 concurrent sessions available during breakout sessions scheduled for Tuesday-Thursday.

The choice of 13 narrows to three for Thursday morning's "Super" sessions.

If you have not yet registered, topic selection can be part of the registration process.

New topics for this year's symposium include:

- ✓ MOUs between schools and DoD
- ✓ Educational opportunities for military spouses
- ✓ Student Veterans of America
- ✓ Automated Neurocognitive Assessment Program

- ✓ Education centers in Iraq
- ✓ ELEARNING 2020

Many traditional must-have topics also are in the line-up, such as an update on VA education benefits and the Post 9/11 GI Bill, an overview of credentialing and premier distance learning methodologies.

Additionally, each concurrent session will feature at least one topic relevant to Reserve Component attendees.

The choices are many and so are the dividends gained by attending Worldwide.

Ultimately, the goal for those of us in Vol Ed should be to equip ourselves to do the best job possible in "Educating America's Patriots."

New ACE guide explains credit for training, experience

A new resource is available for those confused about how military training and education converts to college credit.

"A Transfer Guide: Understanding Your Military Transcript and ACE Credit Recommendations" provides simple, straightforward guidance on understanding military credit recommendations and transcripts and includes definitions of common terms, answers to frequently asked questions and a transfer credit checklist.

The 51-page guide from the American Council on Education (ACE) is available to assist Service members and veterans in understanding how they are potentially eligible to earn academic credit for their military training and occupational experiences.

It is available online in PDF format on ACE's Web site at <http://www.acenet.edu/militaryprograms/transferguide>. It also is available through the DANTES Distribution Center. To place an order, send an e-mail to dist@navy.mil and reference Stock #2111.

The guide outlines the factors that affect transfer of military credit, such as institutional policy, alignment with appropriate courses, procedures, requirements and transfer application deadlines. Service members and veterans are encouraged to research and identify academic institutions that meet their needs as individuals, and as learners, to understand institutional

(continued on page 2)

DANTES TRIVIA

This is the 11th in a series of trivia questions commemorating DANTES 35th anniversary, which will be celebrated July 29, 2009, at DoD's Worldwide Education Symposium in Atlanta. Be the first person to submit the correct answer to pubs@navy.mil for a chance to win a special prize and be recognized at the Symposium.

Question #11:

In what year did Servicemembers Opportunity Colleges (SOC) come into being?

Click button to submit answer or e-mail it to pubs@navy.mil

Congratulations to Terry Brubaker, ESO, Mountain Post Training and Education Center, Fort Carson, Colo., who was the first to correctly identify Fort Carson as the first DoD installation to participate in a MIVER visit in 1991.

Riding to WorldWide 09

The National Guard Chopper designed and built by Orange County Choppers will be on display at the DoD WorldWide Education Symposium in Atlanta.

TCO Workshop registration has changed

To register for upcoming Test Control Officer (TCO) Workshops in Pensacola, Fla., beginning June 1, military and civilian members must request a seat through their Service Command Headquarters/Major Command (MACOM) education personnel. Each Service Headquarters/MACOM education point of contact should schedule TCO training for their Service member directly with the DANTES Training Manager. TCO Registrations will no longer be accepted if submitted directly by the Service member or education center employee. TCO Workshops are designed to train DoD employees (military, civil service and contract) to administer DANTES-sponsored exams at established DANTES Test Centers. TCO Workshops are scheduled for May 19-21 and August 11-13, 2009. For more information, visit http://www.dantes.doded.mil/Dantes_web/training/workshops.htm.

New ACE guide explains credit for training, experience

(continued from front)

transfer policies/procedures. They also are encouraged to start the transcript review process early.

“Credit earned through military training and experience can provide Service members and veterans with an important jump-start when pursuing higher education,” said ACE President Molly Corbett Broad. “Building on ACE’s long history of serving as a bridge between the

armed services and higher education, this guide aims to ease the transition from soldier to student.”

It is the goal of ACE to implement programs and services to reduce the many obstacles Service members and veterans face as they begin or resume postsecondary education.

“We often hear from Service members who are frustrated to find that the type and amount of credit

awarded for their demonstrated competencies falls short of their expectations,” said Jim Selbe, ACE assistant vice president for lifelong learning and 20-year Marine Corps veteran. “We are hopeful this guide will provide information to these men and women who serve our nation so they receive credit, when appropriate, for their military education and training.”

Digital readers

An exciting new chapter in the wonderful world of books

Tech-savvy bookworms now have a variety of ways to electronically read books.

On the market today are several portable reading devices (also known as ebook readers, digital readers, ereaders) from giants like Amazon, Sony and Apple.

What iPods did for the music business, digital readers are now doing for the publishing industry.

With digital readers, you can read all of your favorite books – all stored digitally – in one compact device.

The revolutionary electronic-paper display provides a sharp, high-resolution screen (8-10 inches) that looks and reads like real paper. Users flip through a book simply by tapping the edges of the page.

They're simple to use. Some of the digital readers are wireless – requiring no computer, cables or syncing – and they enable you to shop directly from the online bookstore, whether at the beach, airport or home. The book is auto-delivered wirelessly to your device in less than one minute.

The digital readers, with their new sleek, thin design (lighter and thinner than a typical paperback)

weigh in at 10 ounces. The portable size make them the perfect travel companion.

They're as thin as 0.36 inches and can store hundreds of books, chosen from over 250,000 different

and \$3.49 per month, and blogs for \$0.99-\$1.99 per month.

Also, users can send documents to a conversion service that will return the specific-formatted file to the device for 10 cents – or to a personal e-mail account for free.

The long battery life allows you to read for a week or two before recharging and only takes two hours to fully recharge. Special features available include: interactive touch screen display and built-in light; virtual keyboard; page turning with the slide of a finger; bookmarks; highlighted text with a stylus pen; a search feature; adjustable font size (five different sizes); the text-to-speech option allowing you to hear the text read out loud through headphones/ear piece; Wi-Fi; Bluetooth; 3G cell connection; dictionary; fast screen refresh; edit/delete/export your notes; clip key passages; and even

remembers for you by opening to the last page you read.

Digital readers range in cost from \$300-\$900.

titles. New releases are around \$10; some classics sell for around \$1.99.

Many titles, often classics now in the public domain, are offered for free. The first chapters of many books are offered as a free sample. Subscriptions to newspapers cost between \$5.99 and \$14.99 per month, magazines between \$1.25

A snapshot of DETC in 2008

Last year, the Distance Education and Training Council (DETC) had 110 accredited institutions with 2.3 million students enrolled.

More than 50 percent of the 270,000 new students at DETC postsecondary institutions were male, and the average age of students was 37. More than 70 percent of students were employed at the time of enrollment, and the average graduation rate in 2008 was 73 percent. The most popular non-degree DETC programs were real estate, photography, paralegal, HVAC technician and medical programs.

The number of new students

at DETC degree institutions was 240,000, with the average age of students being 37. More than 50 percent were male. Ninety percent were employed at the time of enrollment, and the average degree program graduation rate for 2008 was 57 percent. Some of the most popular degree programs were business administration, health care administration, criminal justice, paralegal and computer science.

Some of the trends seen in DETC-member institutions include:

- * Migration to online learning with fixed program dates
- * More career-related degrees at the associate degree level

* An increase in Net 2.0 features such as Webcams, i-Pods, blogs, forums, Facebook, etc.

* More use of open-source learning software, including Moodle.

Michael Lambert, DETC executive director, attributed the increase in online enrollments to:

- Convenience
- Job layoffs or fear of layoffs
- Employer endorsement of online learning
- Public acceptance of online learning
- Internet availability in homes and more faculty who embrace online learning as being as effective as face-to-face.

Two new master's programs available

Embry-Riddle Aeronautical University-Worldwide Campus has announced two new graduate degree programs.

The Master of Business Administration in Aviation (MBAA) and the Master of Science in Logistics and Supply Chain Management (MSLSCM) are available entirely online.

The MBAA is designed to emphasize the application of modern management concepts, methods and tools to the challenges of aviation and business.

The MBAA is oriented toward leaders and decision makers who need the skills to efficiently and effectively manage scarce resources, operate in an atmosphere of heightened national and international competition and respond to the call to preserve our world's fragile ecosystem.

The MSLSCM degree is designed to prepare students to manage the transformational changes taking place in logistics and supply chain management in the aviation and aerospace industry, as well as related industries.

Students will learn core management skills and also will gain knowledge in sourcing, procurement, contracting, warehousing, inventory management, transportation, integrated logistics and supply chain security.

To learn more about Embry-Riddle Aeronautical University's-Worldwide Campus, contact them via e-mail at worldwide.online.recruitment@erau.edu or call 1-800-359-3728. Embry-Riddle Aeronautical University-Worldwide Campus is listed in the DANTES External Degree catalog, which is available at <http://www.dantescatalogs.com/DEDProgramList.aspx?InstitutionID=41>.

DANTES Testing Programs

SAT forms are due June 30, 2009

Test Control Officers are reminded that June 30, 2009, is the last day to administer the current year Scholastic Aptitude Test.

SAT exams administered after this date will not be scored, so potential examinees need to be informed of this deadline.

In lieu of the SAT, use the ACT from July through September. DANTES test sites may continue to use the current SAT exam Form 59 until the June 30 cutoff date. Return all SAT Form 59 exams immediately after June 30. The SAT for use 2009-2010 may be ordered at the same time, but it will not be shipped until all of the test center's old SAT test booklets are received at the testing agency.

The new SAT will be shipped in September 2009 and scoring begins Oct. 1.

The 2009-2010 DANTES/SAT Examiner Manual will provide instructions for the SAT Exam. Send questions about the SAT to exams@navy.mil.

Test forms are available online

For DANTES Test Control Officers (TCO) and Alternate TCOs, DANTES-sponsored academic test order forms (ACT, Excelsior College, and Prometric) are available on the DANTES Education Management Information System (EMIS) online account.

To logon, click on the Exam Programs Forms tab. The forms are available with the Document Receipt and Annual Facilities Review forms.

On the ACT and Prometric forms, click on the word "Typewriter" and this will let you fill in your order. Then, print the form to scan and e-mail to the testing agency. The Excelsior College form allows you to fill in the online form immediately.

Civilians get approval for FAA exams

Recently, the Service Bureau Education Chiefs authorized military dependents, civil servants working on bases and retirees to take Federal Aviation Administration (FAA) exams at activated DANTES/FAA Test Sites.

This new authorization allows these groups to access FAA exams at no cost to them. Commercial testing locations require payments that could be extremely costly.

To find bases offering FAA exams, go online to the DANTES Web site at http://www.dantes.doded.mil/Dantes_web/library/docs/certification/faa_locations_chart.pdf.

To discuss the FAA testing program, contact certprog@navy.mil.

FAA Test Administrator training available at WW09

DANTES test site personnel at base education centers that are interested in establishing an FAA computer-based testing center are invited to attend a pre-conference workshop that will be available at the 2009 DoD Worldwide Education Symposium in Atlanta. The Federal Aviation Administration, along with DANTES, will offer two workshops (July 26 and July 27 from 3:30-5:30 p.m.). To register, contact the DANTES Credentialing Program office at (850) 452-1111 ext. 3194, DSN 922-1111 ext. 3194/3213, or send an email to certprog@navy.mil.

Testing Calendar

May 2009

7, 12, 14 – ASE (CONUS)
12, 13, 14 – ASE (Overseas)

May 2009

7, 12, 14 – ASE (CONUS)
12, 13, 14 – ASE (Overseas)
(ASE registration deadline was March 24)

June 2009

8 – LSAT (U.S., Puerto Rico, Canada, Europe and Africa)
19 – ECE Extended Response (Essay)
29 – LSAT (Australia, New Zealand and Asia)

July 2009

25-29 – Praxis*

Notes:

– Overseas test sites send orders six weeks before the test date. CONUS test sites send orders four weeks before the test date. Contractors ship tests to arrive just before the planned test date.

*Choose only one day to administer. Submit separate Prometric order forms for GRE Subject and Praxis.

http://www.dantes.doded.mil/dantes_web/library/docs/examinations/exams_calendar.pdf

The DANTES Examination Program Handbook (DEPH) is updated quarterly. These changes can be found in the Exams Management Information System (EMIS) at <https://secure.doded.mil/EMIS/DEPHOnline.asp>.

FY09 DEPH Changes

FY09, 3 rd Quarter			
PART I	Page Number(s)	Change	Date
	I-8	Newly established test sites initially will be designated as non-stocking.	15 Apr 09
	I-9	New requirement for GED test site establishment.	
	I-46, 49	DANTES Distribution Center email address changed to dist@navy.mil .	
	I-77	Deleted: <i>Include GEDTS TCID95 Center ID Sheet.</i>	
PART II	Page Number(s)	Change	Date
Ch 4 DSST	II-4-1, 7, 8, 9, 10, 11, 13, 14, 15	Term changed from On-Base NTC to Base-Sponsored NTC.	15 Apr 09
	II-4-9	Change describing where a base-sponsored NTC may be located.	
	II-4-20	Incorrect answer sheet procedure added.	
	II-4-31	Unfunded civilian test fee at all NTCs changed to \$80.	
	II-4-33, 34	DANTES Distribution Center email address changed to dist@navy.mil .

Ch 10 LSAT	II-10-4	Changes for obtaining copies of the LSAT/LSDS Information Book.	

Sailors turn out in force for education fair onboard ship

By Amanda Ray
Mass Communication Specialist

The USS Ronald Reagan (CVN 76) hosted a college education fair onboard ship last month so Sailors could explore the educational opportunities available to them.

“I think having this fair shows our Sailors what’s available and I think it’s great,” said Master Chief Engineman (AW/SW) Joseph Matteo, who attended the fair to pick up brochures for junior Sailors in his shop. “I think this fair is a good deal for them because it gives them a one-stop place to talk to counselors from so many different schools.”

Representatives from more than 40 organizations set up displays in the ship’s hangar bay and offered information to Sailors about education opportunities available before and after their enlistment ends.

“I think a lot of Sailors don’t know what they’ll be doing once they get out of the Navy, and I think this is an excellent program,” said Rachel L. Wolff, ABF3, who came to find out how she could pursue her interests in marine biology or veterinary school.

Sailors were given information about traditional college classroom courses, as well as colleges that offer online and distance learning courses.

“I’m finding that most people seem to be more

Submitted photo

Sailors onboard the USS Ronald Reagan gather information at an education fair held onboard the ship.

interested in online courses for when they go out on deployment, which I think is awesome,” said Nashana Seals, Springfield College School of Human Services representative. “I think it’s great to promote education in any setting, and the Service members seem to be excited about it. It appears to interest a lot of people.”

DoD Worldwide Education Symposium 2009

Congratulations to April trivia winner

According to the FY 2008 VolEd Fact Sheet, the Navy reported the most doctoral degree completions with 36. Congratulations go out once more to Larry Cousins, Education Technician, Navy College Office, Everett Wash., and Team Navy for being the first to submit the correct answer.

As of April 10, team standings are: Navy 1,125; Army 1,040; Marine Corps 750; Air Force 335; Schools 280; National Guard 230; Coast Guard 120; and Others 50.

The first correct response to reach dantesWW@navy.mil will earn the player’s team 100 points toward the WW09 Team Spirit Award. A team is defined by the Service or organization indicated by that player’s official e-mail address and current duty assignment. The first winning individual each month also will receive a limited-edition WW09 T-shirt. All correct responses received after the winner will earn 10 points for their team. Incorrect attempts will be awarded 5 points for playing.

May trivia question

In 2009, Atlanta’s Hartsfield-Jackson International Airport was named the nation’s busiest in terms of flights. A close competitor was O’Hare in Chicago, whose numbers slightly decreased as Hartsfield’s slowly increased.

Question: How many years in a row has Hartsfield-Jackson International Airport been recognized (according to government data) as the nation’s busiest in terms of flights?

Don’t be left out!

DoD Worldwide is less than three months away, and DANTES is counting down the top 10 reasons to attend.

(#3) Super Sessions!

New for WW09 are two breakout sessions that will offer a choice of world-class speakers and insightful panels stacked with world-renowned experts.

PACOM announces education services contract awardees

The 15th Contracting Squadron has received the last signed document from the awardees, and official contract award notifications are posted on the Federal Business Opportunities Web site.

New contracts will include the following contract line item numbers (CLINs).

High School/Basic Skills

- X001 High School Completion – Central Texas College
- X002 Academic Skills Program – Central Texas College

Undergraduate and Graduate Programs

- X001 Technical/Occupational College Programs – Central Texas College
- X002 Undergraduate Lower Level Division Programs – University of Maryland
- X003 Undergraduate Asian Studies/Foreign Languages – University of Maryland
- X004 Undergraduate Upper Level Division Programs – University of Maryland
- X005 Graduate program Management/Business Administration – University of Phoenix
- X006 Graduate program Education – University of Phoenix
- X007 Graduate program International Relations – Troy University

The new High School/Academic Skills and the Undergraduate programs contracts are effective on Aug. 1, 2009.

New graduate programs contracts will become effective on Sept. 1, 2009.

Final '09 SOC workshop set for May 7

Each year, Servicemembers Opportunity Colleges (SOC) hosts regional workshops to offer updates and share valuable information with its more than 1,750 member institutions.

This year, SOC hosted six such events in various areas of the country. All were met with great enthusiasm and standing room only attendance.

The major goal of the workshop is to highlight ways colleges can use SOC programs to recruit and retain students in a military market comprised of active-duty and reserve component Service members, military family members and veterans.

The workshop presents information about the military's tuition assistance policy and other educational initiatives available to Service members and their families.

The high attendance at SOC workshops this year is partly due to increased college interest in the educational benefits provided to veterans under the Post-9/11 GI Bill.

Highlights of the workshop include presentations by Veteran Affairs Educational Liaison Representatives who explain VA benefits under the Post-9/11 GI Bill and institutional implications of this legislation. There also is a brief on the American Council on Education's Military Programs evaluation of military training and experience for college credit.

At the workshop held on March 27 in Washington, D.C., more than 100 institutional representatives from 16 states participated.

Only one workshop remains on the calendar for 2009. It will be held May 7, 2009, at the Courtyard Cherry Creek Hotel in Denver, Colo.

Open for business!

Last month, Coastline Community College held a ribbon cutting ceremony marking the grand opening of the National Testing Center at the Navy College Office (NCO) onboard NAS Pensacola. Kelly Curreri, NCO director, did the honors of cutting the ribbon. Accompanying her are (from left) Joel Menges, test examiner, Lt. Shelline Floyd from CID Learning Site Corry Station, DANTES Director Jeffrey Cropsey and Shawn Mann, Coastline's manager of military outreach programs.

From the Advisor's Desk

World's largest military education fair will be held at DoD Worldwide

The Department of Defense Worldwide Education Symposium will be held in Atlanta at the Marriott Marquis Hotel the last week in July. For the first time in its illustrious history, the Symposium will include a free education fair for all uniformed Service members.

This summer will be a banner year for military voluntary education. The Post 9/11 GI Bill will go into effect, providing veterans with unparalleled education benefits. The Symposium will be at the center of the dawning of this generation-changing event.

On Wednesday, July 29th, between the hours of 10:45 a.m. and 3 p.m.,

MCPO Tim Zernick
DANTES Special
Enlisted Advisor

uniformed Service members will be admitted for free into the WW09 Exhibit Hall. Furthermore, adult family members are welcome to join their sponsor at the event.

This is being billed as The World's Largest Military Education Fair, and passes will be available through your local military education center.

Uniformed Service members will have a unique chance to talk directly to the 160 colleges, universities, licensure and certification agencies and educational vendors involved in WW09. A literal "Who's Who" in military voluntary education are offering a once-in-a-lifetime opportunity to expand our horizons. Visit the WW09 Web site at <http://ww09atlanta.com> to see a complete list of exhibitors.

I am personally excited to see the latest innovations in education

technology. Education is evolving at a break-neck speed, and trying to keep up is very challenging. The Symposium will give us more insight into the wave of the future.

I am looking forward to meeting and thanking the many professionals involved in military voluntary education. I also will get a chance to hear from attendees, and I hope to greet each of you at the Exhibit Hall. For more information, go to Worldwide Web site or contact me.

Finally, I am honored to facilitate the Senior Enlisted Panel consisting of senior enlisted advisors and key senior enlisted representatives.

As an attendee of WW06, the Senior Enlisted Panel was the highlight of my experience. To be on the stage with these individuals this year will be the highlight of my career.

MBTI/Strong Interest Inventory workshops are available at WW09

Make plans now to attend DoD's Worldwide Education Symposium 2009 as DANTES and CPP Inc. are offering multiple four-hour workshops on the MBTI® and Strong® assessments.

Everyone who registers for the workshop will take the MBTI Self-Scorable Assessment to learn about themselves, as well as how to administer and interpret to groups and individuals.

In addition to learning about the instruments, participants will become certified, through DANTES, to use this instrument at their education centers.

You'll find this workshop to be an interactive, fun experience. MBTI is an invaluable tool for counseling Service members wanting to take college or technical courses, and/or transitioning Service members

who want to know what to do after separation from the military.

Past workshop attendees have raved about their experience. Their evaluation comments include:

☞ "The session went so fast, and I learned so much. I can't wait to get back and start helping people using MBTI and Strong."

☞ "I always wanted to use MBTI but it seemed hard, and you made it easy."

To select a workshop date and time that fits your schedule, go to <http://www.ww09atlanta.com>.

To register for one of the workshops, send an e-mail to counseling@navy.mil that includes your name, organization, location, e-mail address and the date you prefer to attend the MBTI/Strong workshop. We hope to see you at the WW09 MBTI workshop.

Sailors given chance to develop, showcase culinary skills

Kapiolani Community College recently conducted a graduation luncheon for seven Sailors receiving their certificates of completion for the “Galley Watch Captain” course.

The award luncheon protocol varied, as it was the graduates who took care of setting up the dining room, preparing and serving the food and cleaning up after the ceremony.

It was all part of the course, and this was their final exam. Invited guests were served a delicious variety of entrees and desserts.

Items on the menu included Cajun steamed shrimp, Oysters Rockefeller, Vietnamese shrimp rolls, scallop salad, tropical fruit tray, rum-glazed

Participants in the class included, from left, CS2 Marcus Bonda, CS3 (SS) Charles Hughes, CS3(SS) Cody Jung, CS3 Erick Medrano, CS3(SS) Ryan Murray, CSSN(SS) Charles Tanner and CSSN(SS) Jermaine Williams.

flat iron steak, stuffed Chicken Doria, carrot cake, and New York style cheese cake.

Navy commands in the Far East nominate and send their Mess

Management Specialists to this four-week course, knowing that having good food onboard ships and submarines is very important to the health and morale of the crew.

Ron Takahashi is the department head of Kapiolani’s Culinary Program. Martin Risard is the instructing chef, and Myra Yamada is the learning training authority for the Training Support Detachment that coordinates the classes and students for the course.

The amount of college credit awarded for completing this course is currently being re-evaluated by ACE. The old course provided three semester hours of upper level credit in Advanced Food Preparation.
