Important Information for All who are Interested in facts about HIV and AIDS

Truth is truth: Please read this truth. In 1993 Dr. Gary Glum of Los Angeles worked with a Los Angeles AIDS project. The project had sent 179 AIDS patients home to die. They had pneumocystis carini and histoplasmosis. Their weight was down and their cell counts were less than ten.

The project gave Dr. Glum five of these patients to work with. He took them off AZT and put them on a protocol of taking 2 ounces of Essiac herbal remedy tea three times a day. By February of 1994 all of the other 174 patients had died. Dr. Glum's five patients were still alive. They were exercising, eating three meals a day, and their weights were back to normal, and they had no appearance of illness.

Does this sound preposterous? Many cannot believe that there are simple herbal remedies which do help HIV and AIDS patients. If you dare. If you have the intellectual courage. If you really want the truth, please check out the herbal remedy Essiac tea.
