- **Georgia** – The Managed Care Enrollment increase was due to the Katrina evacuees and normal increases in enrollment.
- **Illinois** – The Managed Care Enrollment decrease was due to Humana terminating their contract on 8/1/05, and United terminating their contract on 9/1/05. United's membership was acquired by Harmony Health Plan.
- **Mississippi** – The Managed Care Enrollment decrease was due to Hurricane Katrina which resulted in beneficiaries being displaced to other states and normal decreases in enrollment.
- **Missouri** – The decrease in Medicaid and Managed Care Enrollment was due to the State Fiscal Year 2006 budget changes to the eligibility requirements and the SCHIP population is required to pay a premium.
- **New Jersey** – The Medicaid Enrollment increase was due to eligibility and enrollment.
- **Ohio** – The Managed Care Enrollment increase was due to an expansion that added two more counties to the PremierCare program. The State also contracted with an additional 4 MCOs (Amerigroup, Gateway, Molina, and Unison).
- **South Carolina** – The Managed Care Enrollment increase was due to the growth in the PCCM program.
- **South Dakota** – The State Medicaid and Managed Care Enrollment increase is due to the normal growth in Medicaid eligibles.
- **Tennessee** – The Medicaid, Managed Care, and Expansion decrease was the result in the reduction of the adult Uninsured and Uninsurable demonstration populations.
- **Texas** – The Managed Care Enrollment increase was due to the PCCM expansion.
