ORDER

On April 21, 2003 Respondent Bayer Corporation filed its Reply to the Center for Veterinary Medicine's Opposition to Bayer's Request for Cross-Examination. The reply included additional information supporting the need for the cross examination of a revised number of witnesses. It appears that the revised request for cross-examination is supported by sufficient justification and should be granted

IT IS ORDERED that the requests for cross-examination are granted and that as previously ordered the parties will submit a proposed schedule for the cross-examination of the following witnesses:

Dr. Frederick J. Angulo	(G-1452)
Dr. Mary J. Bartholemew	(G-1454)
Louis Anthony Cox, Jr.	(B-1901)
Marja-Lisa Hanninen	(G-1458)
Heidi Kassenborg	(G-1460)
Kirk Smith	(G-1473)
Linda Tollefson	(G-1478)
Robert D. Walker	(G-1481)

This 21st day of April, 2003.
