Re: Comments of the Animal Nutrition Association of Canada on the Food and Drug Administration (FDA) proposed rules under the [U.S.] *Public Health Security and Bioterrorism Preparedness and Response Act of 2002*, as published in the *Federal Register* of February 3, 2003.

**Docket 02N-0277 - Establishment and Maintenance of Records
Docket 02N-0275 - Administrative Detection**

The Animal Nutrition Association of Canada (ANAC) is the national trade association representing livestock and poultry feed manufacturers and suppliers of grains, oilseed meals, micro-ingredients and other commodity and related services to the industry. ANAC members currently represent approximately 90% of the animal nutrition products commercially manufactured in Canada.

We have circulated to our membership the information provided by FDA on the proposed regulations for recordkeeping and administrative detention. Our members have not communicated to us any concerns and as such we have no comments to make at this time.

Sincerely,

Christine Mercier, agr.
General Manager
Animal Nutrition Association of Canada
