RE: Notification Of Statements Concerning Dietary Supplements

Dear Sir or Madam:

Vita Cube Systems, Inc., 480 South Holly Street, Denver, CO 80246 ("V3S"), a packager and distributor of dietary supplements, hereby notifies the FDA that it has made certain structure/function statements concerning its primary line of products. Structure/function claims concerning these products were previously reported to your office by letter dated December 5, 2001 when website content and a product brochure concerning the products were submitted. At that time, box and bottle copy for labels on the primary line of supplements had not yet been written. Although the box and bottle copy makes no structure/function claims additional to the claims in the product brochure or website copy already submitted, I am now reporting the verbatim box and bottle copy to your office.

This notice is hereby certified as accurate and complete. Vita Cube Systems, Inc. has substantiation that all statements made in the attached pages are truthful and not misleading.

Please call me at 303-316-4141 if you have questions or comments.

Sincerely,

Jennifer A. James
Corporate Counsel
Vita Cube Systems, Inc.

Encl.

*Also see docket 975-0163

COPY ON BOTTLE LABELS

ABSORBIT

*** Absorbit may help enhance digestion by supporting the break down of all types of foods.

*** The natural plant enzymes in Absorbit may help reduce the risk of allergic reactions.

*** Absorbit contains lactase, an enzyme that may help the body better use lactose (milk sugar).

ALPHANAC

*** The ingredients in AlphaNac help the liver eliminate free radicals from the body.

*** The primary ingredients, alpha-lipoic acid and N-Acetyl-L-Cysteine, make AlphaNac safe for daily use.

*** Alpha-lipoic acid and N-Acetyl-L-Cysteine have been found beneficial for cellular metabolism.

AO ELITE

*** AO Elite combines L-Arginine and L-Ornithine to produce an effective formula for increasing circulation and enhancing muscle building.

*** Researchers at Stanford University won a Nobel Prize in medicine for their research on the circulatory effects of L-Arginine in the body.

CALMAG+

*** The sources of calcium used in CalMag+ are 100% lead free.

*** CalMag+ is a powerful formula that supports bone health and may aid in prevention of osteoporosis.

*** Seven different sources of calcium and four different forms of magnesium are used to help insure that these elements are available to the body at all times and in the proper amounts.

*** Boron is added to support a key bone component.

COMPLEX SPP

*** Complex SPP is an efficacious, natural dietary supplement that is beneficial for healthy prostate function.

***Complex SPP's proprietary formulation contains the purest form of Saw Palmetto extract at 85% fatty acid.

***Complex SPP may also be beneficial for inflammatory relief.

CP COMPLEX

***CP Complex combines Vitamin C and Potassium for maximum immune-system function.

***Potassium is critical for electrolyte replacement and energy support.

***Potassium is crucial to support a balance of fluids in the body.

GC ELITE

***GC Elite is formulated to help the body support muscle with the amino acid L-Glutamine.

***L-Carnitine, an amino acid, helps the body convert fatty acids from cells into energy. Utilizing these fat stores for energy can result in the body burning fat.

***L-Glutamine may help the body utilize nutrients.

JSH

***JSH includes Glucosamine, Chondroitin and MSM, a dynamic trio to naturally improve joint health.

***Cayenne, boswellia and turmeric have natural, beneficial effects on joint health.

M32+

***For maximum absorption, M32+ provides 32 vitamins and minerals, as well as the VitaCube Activating System™.

***Unique in its class, the M32+ all-star formula contains chromium, B-complex vitamins including folic acid, and zinc.

***All ingredients are derived from natural sources when available and provided in scientifically supported dosages.

Q-ZYME

***Key ingredients in Q-Zyme may help the body fight against free radical activity.

***Q-Zyme's peoprietaey formula contains the finest herbs, vitamins, minerals to promote respiratory health.

***Potent components in Q-Zyme's premier formula may aid circulation and stimulate the immune system.

ULTRA EFA + E

**EFAs may be beneficial in weight management and may stimulate your body's natural production of growth hormone.

***EFAs have been shown to support lower levels of bad cholesterol while encouraging higher levels of good cholesterol.

***V3S has added natural vitamin E to enhance muscle recovery from exercise, increase immune system function, and aid in cardiovascular health.

WNB

***Effective assistance for women's cyclical changes in a natural form.

***WNB uses the Women's Herb, Dong Quai, with essential vitamins and minerals to help balance a women's hormonal system.

***Amino acids, thought to be effective for hormonal regulation, are added to this excellent proprietary formulation for women.

ZMA PRO

***ZMA may provide safe and effective muscle support.

***Zinc and Magnesium are beneficial minerals that are thought to be critical for a multitude of biological functions including immune system function, and muscle support.

***The VitaCube Activating System, Epimedium Grandiflorum (Horny goat weed), Potassium, Glycerol phosphate and Cayenne may help optimize absorption at the gastrointestinal and cellular levels.

complex
spp[™]
prostate support

**Maintain
prostate health**

Complex SPP is a proprietary formulation, containing the finest natural ingredients.

Among these is a standardized Saw Palmetto Extract of 85% fatty acid. It is this research supported form of extract that has been shown to reduce enlarged prostate. Pumpkin Seed Oil and Pygeum were added to this formulation for their inflammatory relief properties. To complete the powerful formula, V3S added Epimedium grandiflorum (horny goat weed). This special herb may help to enhance libido, which increases male sexual drive. Selenium and Zinc are included to support the specific needs of the active male. Complex SPP, for confidence in the years ahead -- and now!*

Recommended Use: Take one soft gel capsule at breakfast and one at bedtime*.

***If you are taking ZMA Pro at bedtime, take Complex SPP at breakfast and at dinner.**

cal
mag⁺
*bone health support

***Healthy bones for a
long and active life***

Cal/Mag+ is a powerful formula that supports bone development and strength, and reduces the chance of age-related bone density loss. The necessity of calcium for bones is well known, and V3S has supplied seven different low lead sources to ensure that the body receives the calcium it needs when it needs it. Magnesium is as important as calcium, but can only be absorbed with calcium as a transporter. Cal/Mag+ has four different sources of magnesium for optimal gain. Boron is known to assist in supporting a key bone component, hydroxy apatite.*

Recommended Use Women: Take two Tablets at breakfast and two Tablets at dinner.

Recommended Use Men: Take one Tablet at breakfast and one Tablet at dinner.

enzyme
absorbit™
*digestive support

***Natural digestive
enzyme support***

Using natural plant enzymes, Absorbit enhances food breakdown by maximizing digestive abilities, thus allowing greater absorption of vital nutrients. Absorbit contains five types of enzyme support: amylase to act on carbohydrates, cellulase for fiber breakdown, lipase to help dissolve fats, lactase for processing dairy (milk sugar) products, and Aminogen®, a patented enzyme system that helps break down protein, thereby increasing amino-acid absorption by up to 260 percent. Absorbit is the ideal way to maximize eating enjoyment while supporting your digestive health.*

**Recommended Use: Take one Capsule at
breakfast, lunch and dinner.**

ultra
efsa+e™
*essential fatty acids

***Cardiovascular health,
muscle recovery, and
immune system support***

EfAs, or essential fatty acids, are important to our health in general and to athletic performance in particular.

EfAs assist in nerve impulse transmission and enhance oxygen utilization. In order to provide the optimum balance of the fatty acids omega-3, 6, and 9, V3S developed this proprietary formulation of marine lipid concentrate, flax seed oil, borage oil, and evening primrose oil. We've also included natural Vitamin E to help with muscle recovery from exercise, enhance immune system function, and aid in cardiovascular health.*

Recommended Use Women : Take one Soft Gel at breakfast and one at dinner.

Recommended Use Men : Take two Soft Gels at breakfast and two at dinner.

alpha
nac[™]
*antioxidant support

***Free radical elimination
and cellular support***

AlphaNac serves to support liver function and assist the body in possibly eliminating free radicals. Alpha Lipoic Acid is a fatty acid that has been shown to enhance liver metabolism and cellular function by acting as an antioxidant. N-Acetyl-L-Cysteine is an amino acid that can help protect red blood cells, serve as a transport system for neutralized free radicals, and support cellular function. Together these two important ingredients make AlphaNac a safe and effective formula for daily use.*s

**Recommended Use: Take two Capsules at
breakfast and one at dinner.**

cp
complex™
*immune support

***Immune system and
electrolyte support***

Vitamin C is renowned for its healthful benefits protecting the body as an antioxidant and helping to build a strong immune system. Four different sources of the highest quality Vitamin C are used in CP Complex to activate as needed. Potassium works best in an acidic environment, which is why V3S chose to combine it with Vitamin C. Potassium has been shown to help maintain blood pressure by regulating the body's water balance with electrolytes. To monitor the body's fluid levels for maximum results, CP Complex uses three different types of Potassium. CP Complex is a primary tool for self-defense.*

GC Elite™

*muscle energy support

***Feed the muscle
and starve the fat***

Glutamine, an amino acid most abundantly found in muscle, has been shown to be a basic element for the building and repair of muscle tissue. It is also an essential ingredient for nutrient absorption. L-Carnitine, an amino acid essential for cellular lipid transport, can help the body to convert fatty acids from cells into energy. During exercise, training and competition, L-Carnitine is most beneficial in helping to provide valuable energy as needed from fat stores, which could decrease fatty acid build-up in tissues. GC Elite can help provide sustained energy while aiding optimal muscle performance.*

**Recommended Use: Take two Tablets
at breakfast and one Tablet at dinner.**

flex
JSHTM
joint support health

***Better joint
health—naturally***

JSH combines two joint health heavy hitters: Glucosamine and Chondroitin. Glucosamine is an amino sugar used to form several body tissues, and Chondroitin is a connective-tissue carbohydrate that helps increase cartilage fluid, which in turn provides extra shock absorption and carries nourishment for joint health. But this formula doesn't stop there. JSH has also included Methylsulfonylmethane (MSM) to promote strong, healthy connective tissue, and the herbs cayenne, boswellia, and turmeric to further support tissue, muscle, and joint function.*

natural
V3S™
women's balance

Cyclical hormone changes can throw a woman off balance.

Natural supplements have become increasingly popular, and for good reason. For a natural, effective, method of getting life back in balance, V3S has come to save the day with a powerful, formulation of herbs, vitamins, minerals and amino acids, all known to be beneficial to help these imbalances. Dong Quai, the Chinese Women's Herb, is combined with a proprietary combination of plant phyto-sterols, isoflavones, vitamin B6 and Pantothenic Acid, as well as essential oils from Evening Primrose Oil. These are then combined with essential amino acids (Isoleucine, Leucine and Valine), which all have been significantly researched and have shown to be critical in aiding hormonal regulation and balance for women. The scales are now in your favor.*

Recommended Use: Take one Tablet at breakfast and one at dinner.

zma
pro[™]
*muscle support

***Muscle support
and recovery***

ZMA Pro was developed to aid in muscle support using a unique blend of only natural trace micronutrients, herbs and the VitaCube Activating System. Science has recently shown that ZMA may help regulate testosterone. Zinc and magnesium are important for a multitude of biological functions. When used properly and in the correct amounts, these trace minerals assist in immune system function, testosterone and muscle support. Epimedium grandiflorum (horny goat weed), potassium, glycerol phosphate and cayenne are elements that have been shown to help absorption on both the cellular and gastrointestinal levels.*

**Recommended Use: Take two Tablets
at bedtime.**

Supplement Facts

Serving Size 1 Tablet
Servings Per Container 60

~~XXXX~~ ZMA Pro

	Amount Per Serving	%Daily Value
