Subject: Submission To Docket 02d-0526

Importance: High

Ms. Butler,

Re: Draft Guidance For Industry on Drug Product:
Chemistry, Manufacturing, and Controls Information
[Docket No. 02D-0526, 68 Federal Register, 4219,
January 28,2003]

Please post the two attached files to public
docket 02D-0526.

They are being submitted because Ted Sherwood
(who is copied) and other FDA personnel have
expressed an interest in reading my review
of the formal commenters (C-01 to C-016)
to this docket.

As we discussed, the documents are password
protected and encrypted, but they are fully
enabled for printing and for content extraction.

Should you have any problem with them, then
I should be available tomorrow, wednesday, 1
October 2003 after 14:00

Thank you for your assistance in this matter.

Respectfully,

Dr. King
