Of the 51,865 guideline cases, 94 cases with no analogous guidelines were excluded from the table. Of the remaining 51,771 cases, 3,520 were excluded due to missing departure information. Districts for which departure information is missing in five percent or more of the cases received included: Western Oklahoma (59.4%), Central California (36.0%), Southern Georgia (32.0%), Eastern Virginia (27.4%), Southern California (23.2%), Middle Georgia (20.3%), Western Washington (18.7%), Arizona (18.2%), Western Kentucky (13.8%), Oregon (10.0%), Northern Alabama (7.3%), Northern New York (7.1%), Eastern North Carolina (6.6%), Maryland (6.6%), Northern Ohio (5.7%), Central Illinois (5.3%), and Northern California (5.3%).

A portion of this data was collected prior to the issuance of AO Form 245B, Revision 12/03, which now provides specific entries for the sentencing court to indicate whether a departure was initiated by one of the parties. As a result, the Commission could not definitively determine the attribution for every case. However, based on a review of the available sentencing documentation by USSC legal staff the Commission believes that the overwhelming majority of the government initiated departures listed in this table are properly categorized. For a list of the reasons used in the category see Appendix A in the 2004, Sourcebook of Federal Sentencing Statistics.

Of the 51,865 guideline cases, 3,684 cases were excluded due to one or more of the following reasons: no analogous guidelines (94), missing or indeterminable departure information (3,520) or missing primary offense category (107).

Of the 231 guideline cases from the District of Middle Tennessee, 10 cases were excluded due to one of the following reasons: no analogous guidelines (1) or missing or indeterminable departure information (9).

A portion of this data was collected prior to the issuance of AO Form 245B, Revision 12/03, which now provides specific entries for the sentencing court to indicate whether a departure was initiated by one of the parties. As a result, the Commission could not definitively determine the attribution for every case. However, based on a review of the available sentencing documentation by USSC legal staff the Commission believes that the overwhelming majority of the government initiated departures listed in this table are properly categorized. For a list of the reasons used in the category see Appendix A in the 2004, Sourcebook of Federal Sentencing Statistics.

Of the 18,203 guideline cases, 46 cases with no analogous guidelines were excluded from the table. Of the remaining 18,157 cases, 1,365 were excluded due to missing departure information. Districts for which departure information is missing in five percent or more of the cases received included: South Dakota (72.4%), Western Oklahoma (61.0%), Central California (40.4%), Middle Georgia (34.0%), Southern Georgia (29.6%), Eastern Virginia (29.3%), Western Wisconsin (26.9%), Southern Indiana (23.5%), Eastern Arkansas (22.2%), Western Washington (17.2%), Eastern Wisconsin (15.4%), Arizona (13.8%), Oregon (12.5%), Southern New York (12.2%), Northern Iowa (11.5%), Western Kentucky (10.6%), Middle Tennessee (10.5%), New Hampshire (10.0%), Southern Ohio (9.7%), Northern New York (9.5%), Middle Alabama (9.1%), Western Arkansas (9.1%), Eastern North Carolina (8.7%), Northern Georgia (8.4%), Alaska (7.9%), Northern Alabama (7.5%), Central Illinois (7.4%), Minnesota (6.8%), Western New York (6.7%), Middle Pennsylvania (6.3%), Southern Florida (6.3%), Virgin Islands (5.9%), Western Louisiana (5.8%), Northern Indiana (5.3%), and Nebraska (5.1%).

A portion of this data was collected prior to the issuance of AO Form 245B, Revision 12/03, which now provides specific entries for the sentencing court to indicate whether a departure was initiated by one of the parties. As a result, the Commission could not definitively determine the attribution for every case. However, based on a review of the available sentencing documentation by USSC legal staff the Commission believes that the overwhelming majority of the government initiated departures listed in this table are properly categorized. For a list of the reasons used in the category see Appendix A in the 2004, Sourcebook of Federal Sentencing Statistics.

Of the 18,203 guideline cases, 1,429 cases were excluded due to one or more of the following reasons: no analogous guidelines (46), missing or indeterminable departure information (1,365) or missing primary offense category (29).

Of the 77 guideline cases from the District of Middle Tennessee, nine cases were excluded due to one of the following reasons: no analogous guidelines (1) or missing or indeterminable departure information (8).

A portion of this data was collected prior to the issuance of AO Form 245B, Revision 12/03, which now provides specific entries for the sentencing court to indicate whether a departure was initiated by one of the parties. As a result, the Commission could not definitively determine the attribution for every case. However, based on a review of the available sentencing documentation by USSC legal staff the Commission believes that the overwhelming majority of the government initiated departures listed in this table are properly categorized. For a list of the reasons used in the category see Appendix A in the 2004, Sourcebook of Federal Sentencing Statistics.
