LCSA LETTER: 04-04

ALL IV-D DIRECTORS

Reason for this Transmittal
[] State Law or Regulation Change [] Federal Law or Regulation Change
[] Court Order or Settlement Change
[] Clarification requested by One or More Counties [X] Initiated by DCSS

SUBJECT: ELECTRONIC DATA PROCESSING MAINTENANCE AND OPERATIONS FUNDING REQUESTS FOR STATE FISCAL YEAR 2004/05

This letter provides the local child support agencies (LCSAs) with the necessary information required to prepare the next cycle of Electronic Data Processing (EDP) Maintenance and Operations (M&O) budget requests for State Fiscal Year (SFY) 2004/05. The Department of Child Support Services (DCSS) requests submission of the completed electronic EDP M&O documents by close of business (COB) on Friday, January 30, 2004.

DCSS will provide authorized LCSA representatives with access to their specific agency EDP M&O electronic budget worksheets for SFY 2004/05 through the secured LCSA website by January 12, 2004. Those LCSAs with a change in designated EDP M&O representatives from the SFY 2003/04 budget year, or who have other issues regarding LCSA website access, please contact Shelly Boyd at (916) 464-5332 or by e-mail at: shelly.boyd@dcss.ca.gov.

During the SFY 2003/04, the Administration for Children and Families (ACF) directed DCSS and FTB to submit one Advance Planning Document (APD) to request federal funding for the California Child Support Automation System (CCSAS), which includes Pre-Interim Statewide Management (PRISM) systems. The APD has been revamped to include more detailed line item reporting of the CCSAS project to ACF. Therefore, LCSAs will notice a few changes in this year's EDP M&O budget request in order to capture costs at a more detailed level. The following bullets identify key changes:

Operating Equipment & Expenses (OE&E): Site & Facilities, Training, Travel,
 Overhead/Indirect, and Other categories have been added as line items to both
 the LCSA and Consortium Recurring EDP M&O budget tables 1 and 4. LCSAs
 and Consortia are now required to capture direct and indirect OE&E costs in the
 EDP M&O budget associated with EDP project staff. Currently, these costs are
 reflected in the Administration (non-EDP) budget. This change only shifts the costs
 from the Administration budget to the EDP M&O budget, it does not reflect new
 funds. Direct OE&E costs associated with EDP staff, such as training, travel, or

LCSA Letter: 04-04 January 16, 2004

Page 2

any other costs that can be charged directly, must be submitted under the EDP M&O budget and direct charged whenever possible. For *indirect* OE&E costs such as facilities, communications and general expense, the LCSAs need to utilize a percentage of full-time equivalent (FTE) EDP M&O staff to total LCSA FTEs. Also, LCSAs and Consortia need to understand it is necessary to capture expenditures by the individual *bolded* line items displayed in the <u>printed</u> version of the EDP M&O budget request forms, specifically Tables 1 and 4. LCSAs will work closely with their Automation Funding Approvals Analyst to ensure that the costs are estimated correctly, and to ensure that the costs are also reduced from the non-EDP Administrative budget.

- **Training PCs:** PCs used for training will now be funded through the EDP M&O budget, and **not** through the non-EDP Administrative budget.
- Equipment Depreciation: Per federal regulation CFR 95.705, EDP equipment greater than or equal to \$5,000 must be depreciated. Types of depreciable EDP equipment may include, but are not limited to, servers, routers, and switches. A letter of instruction regarding depreciable equipment will be forthcoming from DCSS.
- Equipment Inventories: Pursuant to federal regulation 45 CFR 74.34, components with a cost greater than \$500 must be captured on an inventory list. In preparation for the single statewide child support enforcement (CSE) system, DCSS needs an inventory log of all existing hardware and software utilized by the LCSAs. The inventory list needs to include equipment descriptions and/or specifications, purchase dates, and whether the equipment is considered EDP M&O or non-EDP Administrative.

Given these changes, DCSS acknowledges the need to review and change the 356 Claim form structure to align with the methodology of capturing EDP OE&E costs noted above. Further, DCSS revised the EDP M&O website forms accordingly. Changes range from table headings being re-named to adding additional interactive line items for detail. To assist the LCSAs and Consortia fill out the website forms correctly, DCSS provides the following reference documents:

- Attachment I provides definitions by the line items listed in the EDP M&O budget request form.
- Attachment II provides LCSAs with a new set of guidelines and instructions that have been created to assist the LCSAs in filling out the EDP M&O website budget request.
- Attachment III details cell references.
- Attachment IV provides LCSAs with a current minimum personal computer (PC) specification.
- Attachment V provides the names of the DCSS Automation Funding Approvals Unit Analysts and current LCSA assignments.

LCSA Letter: 04-04 January 16, 2004

Page 3

As in previous years, DCSS' Automation Funding Approvals Unit Analysts will compare each LCSA's EDP M&O budget request against the LCSA's current year baseline allocations, and actual current and past year expenditures. DCSS reminds LCSAs of the following important issues:

- Hardware/Software Replacements: As the State moves closer to implementation of a single statewide CSE system, equipment refresh will be minimal. Beginning in SFY 2004/05, hardware and software replacements will only be considered for each LCSA by the most critical equipment needs. Equipment needs will be based on a current equipment inventory list that includes unit specifications, date of purchase, and whether equipment is considered EDP M&O or non-EDP Administrative.
- Flat Panels (LCD) Monitors: For SFY 2004/05, flat panel monitors and monitors over 19 inches, including Cashier Windows and Interview Booths, will not be allowed to be purchased through either the EDP M&O or non-EDP Administrative budgets.
- Recurring Budgets for Converting LCSAs: The Recurring EDP M&O budgets
 for all converting LCSAs will either remain the same as allocated during SFY
 2003/04 or will decrease based on actual expenditures during the year. Two
 months after each LCSA converts to the CASES CSE System, DCSS will work
 with each LCSA to decrease its local Recurring funds.
- No Roll Forward of EDP M&O Funds: EDP M&O funding allocations do not roll
 forward from one State Fiscal Year to the next. To insure completion of nonrecurring projects within SFY 2004/05, DCSS instructs LCSAs to plan sufficient
 time for procurements, and if prior approval is necessary, LCSAs must allow 30
 days for DCSS review, and an additional 60 days for ACF review.
- Memorandum Of Understanding (MOU) or Service Agreement: Based on federal requirements (45 CFR 95.605 and 45 CFR 95.611), LCSAs that receive a charge back fee from their County Information Technology (IT) departments must have a MOU agreement in place. Service and rate schedules used for the charge back must be included in the agreement as well as other components as outlined in 45 CFR 95.605. LCSAs must submit their MOUs to their assigned DCSS Automation Funding Approvals Analyst as part of the yearly EDP M&O budget request process. Documents may be submitted either in hardcopy or electronically.
- Enhancements and Conversions: Do not include Enhancement or Conversion funding requests in the EDP M&O funding worksheets. DCSS will work with Consortia to address Enhancement activities at the consortia level; and, DCSS will address Conversion funding separately with the converting LCSAs.
- Contracts/Leases/Purchase Orders: Any contracts, leases, or purchase orders equal to or greater than \$100,000, or contract amendments that are equal to or greater than \$100,000 and/or extend schedule over 60 days, require prior federal approval. LCSAs must submit contracts to their assigned DCSS Automation

LCSA Letter: 04-04 January 16, 2004

Page 4

Funding Approvals Analyst. LCSAs must allow for a 30 day review by DCSS, with an additional 60 day review by ACF.

If LCSAs need to submit documents via e-mail, please refer to Attachment V for the LCSA's assigned Automation Funding Approvals Analyst. Please send all hardcopy documents to the following address:

Department of Child Support Services
Technology Services Division
Attention: Automation Funding Approvals Unit
P. O. Box 419064 MS-40
Rancho Cordova, CA 95741-9064

Once the EDP M&O budget request forms have been completed on the website, the IV-D Director will be required to submit them to DCSS. The IV-D Director's submission locks the data and serves as the Director's approval. Changes to the data after submission will require coordination with the LCSA's DCSS Automation Funding Approvals Analyst. For questions, please contact the assigned Automation Funding Approvals Analyst or Cathy MacRae at (916) 464-5777.

Sincerely,

an Wherwood

JAN SHERWOOD
Deputy Director
Administrative Services Division

cc: David Oppenheim, Child Support Directors Association

DATA	DEFINITION
Tab	le 1: Recurring LCSA M&O Costs
A. Personnel / Services	
LCSA Personnel (Rolls forward from Table 2)	LCSA staff that provide management, technical, and support services to the Child Support Enforcement (CSE) system.
Contractor LCSA Services (Rolls forward from Table 2)	LCSA-held contracts directly supporting the CSE system such as: IT personnel that provide programming and/or maintenance of the CSE system, or maintenance agreements for Servers, PCs, Printers, etc.
B. LCSA's County IT/DP Shop (Contractor & County)	
Personnel Charges	Costs charged back to the LCSA from the County Information System Division (ISD). These County ISD personnel or Contractor staff directly support the CSE system. (Commonly included in ISD service & rate schedules, and written in an executed Memorandum of Understanding between the LCSA and the County ISD).
Production Charges	Costs charged back to the LCSA from the County ISD for data center computer systems usage directly related to the maintenance and operation of the CSE system. Typically, these costs are billed as processor, disk, tape; or, by system, such as: IBM, Unisys, or Mid-Range computing. (Commonly included in ISD service & rate schedules, and written in an executed Memorandum of Understanding between the LCSA and the County ISD).
Network Charges	Costs charged back to the LCSA from the County ISD for charges associated with installation, access, or usage of wide-area networks (WAN) utilized for accessing the CSE system (Commonly included in ISD service & rate schedules, and written in an executed Memorandum of Understanding between the LCSA and the County ISD).
C. Equipment Lease & Maintenance	
Network (Itemize)	LCSA-specific "local" costs related to maintenance, operation, or usage of local or wide area networks (WAN) for accessing the CSE application.
HW Lease (Itemize)	Continuing LCSA lease agreements on Hardware (HW), such as: mainframes, network servers, network printers, PCs. [Note: LCSA's initial lease payment for first year setup must be submitted through a non-recurring project request.]
HW Maintenance (Itemize)	Ongoing costs for maintenance service agreements to support CSE system hardware beyond the manufacturer's original warranty.

DATA	DEFINITION
Tabl	e 1: Recurring LCSA M&O Costs
D. Software Maintenance	
SW Maintenance (Itemize)	Itemize all recurring software (SW) costs associated with the CSE
	system such as: JetForms, Voice Response Units (VRUs),
	operating systems, terminal emulators, subscriptions, licenses, etc.
E. OE&E	
Site & Facilities (Itemize)	Include direct site and facilities costs associated with EDP staff
	located in a facility separate from the LCSA office. These costs
	are for EDP staff supporting the CSE system as listed in <i>Table 2</i> :
	Recurring LCSA M&O Staff Resources. For indirect site and
	facilities costs whereby program and EDP project staff are co-
	mingled, the LCSAs need to utilize a percentage of full-time
	equivalent (FTE) EDP M&O staff to total LCSA FTEs.
Training (Itemize)	Training associated with the LCSA personnel itemized in <i>Table 2:</i>
	Recurring LCSA M&O Staff Resources.
Travel (Itemize)	Travel associated with the LCSA personnel itemized in <i>Table 2</i> :
	Recurring LCSA M&O Staff Resources.
Overhead/Indirect (Itemize)	Include direct Overhead/Indirect costs associated with EDP staff
	listed in Table 2: Recurring LCSA M&O Staff Resources. For
	indirect Overhead/Indirect costs, the LCSAs need to utilize a
	percentage of full-time equivalent (FTE) EDP M&O staff to total
	LCSA FTEs. Overhead/Indirect costs include external fees paid to
	supporting departments and agencies for services that indirectly
	support EDP M&O activities; includes ISD overhead/indirect fees.
Other (Itemize)	Include any Other direct costs associated with EDP staff listed in
	Table 2: Recurring LCSA M&O Staff Resources. For Other
	indirect costs, the LCSAs need to utilize a percentage of full-time
	equivalent (FTE) EDP M&O staff to total LCSA FTEs. The
	"Other" category captures all other miscellaneous operating
	expenses and equipment attributable to the LCSA EDP staff such
	as communication, printing, postage, cell phones, pagers, etc.

DATA	DEFINITION
Table 2: R	Recurring LCSA M&O Staff Resources
A. LCSA Personnel	
Management Staff	LCSA staff that perform management activities directly related to
	the maintenance and operations of the CSE system. These staff
	are counted by FTEs.
Technical Staff	LCSA staff that perform technical activities directly related to the
	maintenance and operations of the CSE system. These staff are
	counted by FTEs.
Support Staff	LCSA staff that perform support activities directly related to the
	maintenance and operations of the CSE system. These staff are
	counted by FTEs.
B. Contractor(s) – List Vendors	
Contractor(s) [Itemize]	Contracts held directly by the LCSA that support the CSE system.
	[Be sure to include applicable portion of a vendor's contract if
	vendor provides multiple services].

DATA	DEFINITION
Table 3: No	on-Recurring LCSA M&O Cost Summary
Non-Recurring LCSA M&O Cost Summary	This summary page rolls up all Non-Recurring LCSA EDP M&O projects as defined by the LCSAs. Includes totals for each Non-Recurring project, and provides a grand total of all Non-Recurring project costs. Acceptable Non-Recurring EDP M&O projects include components in the infrastructure directly used to access the CSE system (e.g., LAN, network servers, PCs, printers), or subsystems that directly connect to or share information with the CSE system (e.g., Voice Response Units [VRU]).
	n-Recurring LCSA M&O Cost Justification Worksheet
Non-Recurring LCSA M&O Cost Justification Worksheet	A detailed justification worksheet providing an explanation of a Non-Recurring EDP M&O project requesting new, upgrades or replacement schedules of hardware and/or software; or, IT automation solutions to maintain the existing CSE system. [Do not include enhancements or conversion projects in this EDP M&O budget.]
Description	An in-depth description of a Non-Recurring project that includes an explanation of the new equipment to be purchased and related technical specifications. Also, identify consequences if a project is not funded. If applicable, the in-depth description needs to include the current hardware/software specifications that are being replaced.
Project Contact	The LCSA point of contact for DCSS staff to contact when reviewing LCSA EDP M&O funding requests. Whoever signs into the EDP system and begins the request of a Non-Recurring project, the <i>Project Contact</i> area will automatically populate that person's information.
LCSA Personnel	The total cost of LCSA staff performing IT technical services required to complete implementation of the Non-Recurring project described. LCSA must time-study applicable staff costs and claim against the Non-Recurring project. These hours/FTEs/costs will be exclusive of Recurring M&O staff listed in Table 2: Recurring LCSA M&O Staff Resources.
Contractor Services	The total cost of Contract staff performing IT technical services required to complete implementation of the Non-Recurring project described. The Contract staff must time-study applicable costs and claim against the Non-Recurring project. These hours/FTEs/costs will be exclusive of Recurring M&O contract staff listed in Table 2: Recurring LCSA M&O Staff Resources, Contractor(s).

DATA	DEFINITION
Table 3 Project #X: Non-Rec	urring LCSA M&O Cost Justification Worksheet (continued)
Hardware	The total cost of Non-Recurring EDP M&O project hardware supporting or interfacing with the CSE system with cost of less than \$5,000 per unit. [This equipment is minor, therefore considered non-depreciable.]
Hardware: Depreciable (>=\$5,000)	The total cost of Non-Recurring EDP M&O hardware supporting or interfacing with the CSE application with a cost greater than or equal to \$5,000 per unit. If procuring depreciable hardware, a separate Non-Recurring EDP M&O project must be created consisting of ONLY the depreciable hardware. [This equipment
Software	must be depreciated.] The total cost of Non-Recurring EDP M&O operating systems, interface applications, or terminal emulation software required to support the CSE system.
Other	The total cost of Non-Recurring EDP M&O equipment or services required and not previously categorized, such as extended warranties, cabling, etc.
Statement of Problem	A statement identifying what the LCSA plans to accomplish with the funds. A pull-down list provides the LCSA with allowable problem statements.
Item Description	Line item detail of hardware, software, LCSA Personnel, Contractor Services, or Other costs summarized under the Estimated Non-Recurring Project Costs section.
Schedule	An outline that describes the major tasks for the Non-Recurring EDP M&O project schedule, sequentially listing task start and completion dates. [If request involves Depreciable hardware, the schedule start date must coincide with the date of planned purchase and implementation. Additionally, the LCSA needs to submit a depreciation schedule under separate cover to its assigned DCSS Automation Funding Approvals Analyst.]
Competitive Procurement	In accordance with 45 CFR part 74, all procurement transactions shall promote open and free competition to the maximum extent possible. The LCSA must select the purchase method that it plans to utilize when purchasing items associated with the Non-Recurring EDP M&O project.

DATA	DEFINITION
Table 4	: Recurring Consortium M&O Costs
1. Central Processing Charges	Costs charged back to the Consortium from the County Information System Division (ISD), or costs charged to DCSS on behalf of the Consortium from the Health and Human Services Data Center (HHSDC). These charges are associated with data center computer systems usage and network costs directly related to the maintenance and operation of the CSE system. Typically, these costs are billed as processor, disk, tape; or by system, such as: IBM, Unisys, or Mid-Range computing; access, or usage of wide-area networks (WAN) utilized for accessing the CSE system (Commonly included in service & rate schedules, and written in an executed Memorandum of Understanding between the LCSA and the County ISD, or DCSS and HHSDC).
2. Contract Services	Consortium-held contracts that directly support the Consortium CSE system. [Be sure to include applicable portion of a vendor's contract if vendor provides multiple services].
3. County IT Personnel	
Management Staff	Consortium staff that perform management activities directly related to the maintenance and operations of the Consortium CSE system (includes any LCSA staff redirected/allocated to support the Consortium). These staff are counted by FTEs.
Technical Staff	Consortium staff that perform technical activities directly related to the maintenance and operations of the Consortium CSE system (includes any LCSA staff redirected/allocated to support the Consortium). These staff are counted by FTEs.
Support Staff	Consortium staff that perform support activities directly related to the maintenance and operations of the Consortium CSE system (includes any LCSA staff redirected/allocated to support the Consortium). These staff are counted by FTEs.
4. Equipment Lease & Maintenance	
HW Lease (Itemize)	Ongoing Consortium lease agreements on hardware, such as: mainframes, network servers, network printers, PCs. [Note: Consortium initial lease payment for first year setup must be submitted through a Non-Recurring project request.]
HW Maintenance (Itemize)	Ongoing Consortium costs for maintenance service agreements to support the Consortium CSE system hardware beyond the manufacturer's original warranty.

DATA	DEFINITION
Table 4	: Recurring Consortium M&O Costs
5. Software Maintenance	
SW Maintenance (Itemize)	Itemize all recurring software (SW) costs associated with the CSE system such as: JetForms, Voice Response Units (VRUs), operating systems, terminal emulators, subscriptions, licenses, etc.
6. OE&E	
Site & Facilities (Itemize)	Include direct site and facilities costs associated with Consortium EDP staff located in a facility separate from the LCSA office. These costs are for Consortium EDP staff supporting the CSE system as itemized in line item #3: County IT Personnel. For indirect site and facilities costs whereby program and Consortium EDP project staff are co-mingled, the Consortium needs to utilize a percentage of full-time equivalent (FTE) EDP M&O staff to total FTEs.
Training (Itemize)	Training associated with Consortium staff itemized under line
	item #3: County IT Personnel.
Travel (Itemize)	Travel associated with Consortium staff itemized under line item #3: County IT Personnel.
Overhead/Indirect (Itemize)	Include direct Overhead/Indirect costs associated with Consortium EDP staff itemized in line item #3: County IT Personnel. For indirect Overhead/Indirect costs, the Consortium needs to utilize a percentage of full-time equivalent (FTE) EDP M&O staff to total FTEs. Overhead/Indirect costs include external fees paid to supporting departments and agencies for services that indirectly support EDP M&O activities; includes ISD overhead/indirect fees.
Other (Itemize)	Include any Other direct costs associated with Consortium EDP staff itemized in line item #3: County IT Personnel. For Other indirect costs, the Consortium needs to utilize a percentage of full-time equivalent (FTE) EDP M&O staff to total FTEs. The "Other" category captures all other miscellaneous operating expenses and equipment attributable to the LCSA EDP staff such as communication, printing, postage, cell phones, pagers, etc.

DATA	DEFINITION
Table 5: Non-I	Recurring Consortium M&O Cost Summary
Non-Recurring Consortium	This summary page rolls up all Non-Recurring Consortium EDP
M&O Cost Summary	M&O projects as defined by the Consortium. Includes totals for
	each Non-Recurring project, and provides a grand total of all
	Non-Recurring project costs. Acceptable Non-Recurring
	Consortium EDP M&O projects include components in the
	infrastructure directly used to access the CSE system (e.g., LAN,
	network servers, PCs, printers), or subsystems that directly
	connect to or share information with the CSE system (e.g., Voice
	Response Units [VRUs]).
Table 5 Project #X: Non-Re	ecurring Consortium M&O Cost Justification Worksheet
Non-Recurring Consortium	A detailed justification worksheet providing an explanation of a
M&O Cost Justification	Non-Recurring Consortium EDP M&O project requesting new,
Worksheet	upgrades or replacement schedules of hardware/software; or, IT
	automation solutions to maintain the existing CSE system. [Do
	not include enhancements or conversion projects in this EDP
	M&O budget.]
Description	An in-depth description of a Non-Recurring project that includes
	an explanation of the new equipment to be purchased and related
	technical specifications. Also, identify consequences if a project
	is not funded. If applicable, the in-depth description needs to
	include the current hardware/software specifications that are
	being replaced.
Project Contact	The Consortium point of contact for DCSS staff to contact when
	reviewing Consortium EDP M&O funding requests. Whoever
	signs into the EDP system and begins the request of a Non-
	Recurring project, the <i>Project Contact</i> area will automatically
	populate that person's information.
Consortium Personnel	The total cost of Consortium staff performing IT technical
	services required to complete implementation of the Non-
	Recurring project described. Consortium/LCSA Personnel must
	time-study applicable staff costs and claim against the Non-
	Recurring project. These hours/FTEs/costs will be exclusive of
	Recurring Consortium M&O staff listed in <i>Table 4: County IT</i>
	Personnel.

DATA	DEFINITION
Contractor Services	The total cost of Consortium Contract staff performing IT
	technical services required to complete implementation of the
	Non-Recurring project described. The Consortium contractors
	must time-study applicable costs and claim against the Non-
	Recurring project. These hours/FTEs/costs will be exclusive of
	Recurring Consortium M&O vendor staff listed in Table 4:
	Contract Services.
	ng Consortium M&O Cost Justification Worksheet (continued)
Hardware	The total cost of Non-Recurring Consortium EDP M&O project
	hardware supporting or interfacing with the CSE system with a
	cost of less than \$5,000 per unit. [This equipment is minor,
	therefore considered non-depreciable.]
Hardware: Depreciable	The total cost of Non-Recurring EDP Consortium M&O
(>=\$5,000)	hardware supporting or interfacing with the CSE application with
	a cost greater than or equal to \$5,000 per unit. If procuring
	depreciable hardware, a separate Non-Recurring EDP M&O
	project must be created consisting of ONLY the depreciable
	hardware. [This equipment must be depreciated.]
Software	The total cost of Non-Recurring Consortium EDP M&O
	operating systems, interface applications, or terminal emulation
	software required to support the CSE system.
Other	Total cost of Non-Recurring Consortium EDP M&O equipment
	or services required and not previously categorized, such as
	extended warranties, cabling, etc.
Statement of Problem	This summary states what the Consortium plans to accomplish
	with the funds. A pull-down list provides the Consortium with
	allowable problem statements.
Item Description	Line item detail of hardware, software, LCSA Personnel,
	Contractor Services, or Other costs summarized under the
	Estimated Non-Recurring Project Costs section.
Schedule	An outline that describes the major tasks for the Non-Recurring
	Consortium EDP M&O project schedule, sequentially listing task
	start and completion dates. [If request involves Depreciable
	hardware, the schedule start date must coincide with the date of
	planned purchase and implementation. Additionally, the
	Consortium needs to submit a depreciation schedule under
	separate cover to its assigned DCSS Automation Funding
	Approvals Analyst.]

DATA	DEFINITION
Competitive Procurement	In accordance with 45 CFR part 74, all procurement transactions
	shall promote open and free competition to the maximum extent
	possible. LCSA must select the purchase method that it plans to
	utilize when purchasing items associated with the Non-Recurring
	Consortium EDP M&O project.

DATA	DEFINITION	
Table 6: LCSA Apportioned Consortium Cost		
LCSA Apportioned Consortium	Total costs from the Consortium Recurring and Consortium Non-	
Cost	Recurring [Tables 4 and 5] are shared based on a caseload	
	percentage to member LCSAs. These total costs are shared	
	among member LCSAs for program cost effectiveness measures.	
	For SFY 2004/05, caseload percentages have been calculated	
	based on the conversion schedule. This methodology accounts for	
	converting LCSAs that may have a share of cost under two	
	different systems. For example, a converting LCSA may have 2	
	months residing under its current system with an associated	
	percentage share of cost, and 10 months as a new CASES	
	member with a percentage share of cost.	

Guidelines & Instructions

Introduction:

Each LCSA designated budget representative will be provided with access to the State Department of Child Support Services (DCSS) secured website for read/write use of the Electronic Data Processing (EDP) Maintenance & Operations (M&O) forms. LCSA IV-D Directors must provide approval for the electronic submission of the LCSA's budget request.

General Rules: EDP M&O Budget Requests

- Do not include Enhancement or Conversion funding needs in the EDP M&O budget request. Enhancement and Conversion funds are addressed separately from the EDP M&O budget request.
- Provide detailed explanations for all Recurring and Non-Recurring EDP M&O funding requests.
- When requesting funds, include any associated expenses (i.e. tax, shipping, installation, etc.) in the funding request where appropriate. Round amounts requested to the nearest dollar.
- Unspent EDP M&O funding allocations do not "roll forward" from one State Fiscal Year to another.
- Report EDP equipment that staff utilizes to access the child support application for more than 50 percent of their time.
- The LCSAs must receive **prior** approval from DCSS regarding the use of cost savings associated with Recurring and Non-Recurring project allocations.
- For EDP hardware with a per unit cost of \$5,000 or greater, LCSAs must submit a depreciation schedule and supporting depreciation methodology to DCSS for review and approval.
- Do not include software upgrades as a Recurring cost. If the LCSA's baseline figures currently include software upgrades, the costs need to be re-categorized into a Non-Recurring project(s).
- EDP staff costs must include associated Operating Expenses & Equipment (OE&E) costs.
- Training PCs are funded through the EDP M&O budget.
- LCSAs are required to submit an inventory list of all EDP M&O equipment.
- Any contracts, leases, or purchase orders equal to or greater than \$100,000, or extend schedule over 60 days, require prior federal approval. Documents must be submitted to DCSS timely so to allow for a 30-day review by DCSS, and a 60day review by the federal government.

General Rules: Non-Recurring EDP M&O Projects

- Flat panel monitors and monitors over 19 inches will **not** be allowed to be purchased through either the EDP or Non-EDP Administrative allocations during SFY 2004/05.
- LCSAs must adhere to DCSS established PC system configuration minimum standards and price range.
- LCSAs must submit to DCSS price quotes for all hardware and software items requested in Non-Recurring projects.
- Non-Recurring project allocations must be used only for the original project defined by the LCSAs, and approved by DCSS. Non-Recurring funds are not transferable between Non-Recurring projects.
- DCSS expects LCSAs to complete all approved Non-Recurring EDP M&O projects as defined by the LCSAs in their original justification worksheets for the specific SFY. If LCSAs fail to complete approved Non-Recurring EDP M&O projects within the same SFY, funding must be re-requested and the project rejustified for completion in the following budget year. However, LCSAs risk receiving no additional funds in the budget year for project completion. Incomplete Non-Recurring EDP M&O projects will be reviewed and assessed for approval on the same basis as newly submitted Non-Recurring EDP M&O projects for budget year.
- For Non-Recurring projects that require additional LCSA or Consortium staff
 resources above and beyond the staffing levels identified in *Table 2: Recurring LCSA M&O Staff Resources or Table 4, #3: County IT Personnel,* LCSAs and
 Consortia need to identify these additional resource costs within the NonRecurring project. Additionally, these staff must time study to the specific NonRecurring projects.
- If LCSAs opt to lease equipment instead of purchase, a cost benefit analysis must be submitted to support the lease option.
- Approval for new staff positions must be obtained from DCSS prior to submitting a funding request for new staff EDP equipment.
- For components requested with a cost greater than \$500 the LCSA is required to maintain the component on an inventory log in accordance with federal EDP hardware inventory requirements pursuant to 45 CFR 74.34.

Commonly Referenced EDP M&O Regulations

EDP M&O Service Contracts:

Per federal regulation 45 CFR 95.611(b)(2)(iii), EDP child support contracts equal to or greater than \$100,000 must be submitted for prior federal approval to the Administration for Children and Families (ACF) before execution. Additionally, 45 CFR 95.611(2)(iv) states that contract amendments also need prior federal approval if the cost of the amendment exceeds the \$100,000 threshold and/or the contract time extension is more than 60 days. Please note that purchase orders and lease agreements are considered contracts that need prior federal approval. Documents must be submitted to DCSS timely so to allow for a 30-day review by DCSS, and a 60-day review by the federal government.

Information Technology (IT) Agreements:

Pursuant to federal regulation 45 CFR 95.605, LCSAs are required to maintain a service agreement or a memorandum of understanding (MOU) between the LCSA and its respective County Information Services Division (ISD). A MOU must be in place if the County ISD provides IT services at a cost to the LCSA. DCSS requires the LCSA to update the MOU annually. LCSAs must submit a copy of their current MOU during the EDP M&O budget process. Further, 45 CFR 95.605 requires the following components be addressed in a service agreement or MOU:

- Identify Automatic Data Processing (ADP) services provided by the Central Data Processing Facility.
- Identify charges associated with the services along with a schedule of expected total charges.
- Identify accounting method for services rendered and computing service charges.
- Include assurances that services provided will be timely and satisfactory.
- Include assurances that information, access, use and disposal of data will be safeguarded in accordance with federal regulations 45 CFR 205.50.
- Include period of performance.

Disposition of Equipment:

In the near future, DCSS intends to issue an instructional letter to all LCSAs regarding further clarification of federal regulations 45 CFR 74.34.

Guidelines & Instructions

Recurring EDP M&O

The Recurring Budget Request identifies annually incurred automation expenses in support of the LCSA's CSE system. Through DCSS's EDP M&O website, LCSAs request funding for annual recurring expenses associated with the designated cost categories listed in *Table 1: Recurring LCSA M&O Costs*.

LCSAs receive *Table 1: Recurring LCSA M&O Costs* populated with current SFY approved baseline allocations under the heading "SFY 2003/2004 Baseline". LCSAs need to compare actual expenditures claimed versus projected costs for current year. If LCSAs anticipate not expending their entire EDP M&O allotment in current year, the new EDP M&O request for budget year must reflect the more accurate and lesser budget amount required. Any recurring budget line item increases or decreases between Current Fiscal Year and Budget Year must be explained in the "Explanation" field associated with the impacted budget line item.

TABLE 1: Recurring LCSA M&O Costs

Section A. Personnel/Services: (No input required, totals rollup from Table 2) This cost category reports EDP information technology (IT) costs as measured in full-time equivalents (FTEs) requested for LCSA Personnel and Contractor LCSA Services supporting the CSE system. (See Data Definitions, Table 2, for further explanation of cost categories). Increased personnel costs associated to cost of living adjustments (COLA) must be supported by documentation. Likewise, contracts held by the LCSA need to be submitted to DCSS for review and approval.

Section B. LCSA's County IT/DP Shop:

This cost category reports the total costs charged back to the LCSA from the County Information Systems Division (ISD) for IT services provided to the LCSA in support of CSE system maintenance and operations. The LCSA is required to provide projected recurring CSE system maintenance and operations costs for the following County IT/DP sub-cost categories:

- <u>Personnel Charges</u> ~ Include costs to be billed to the LCSA for County ISD or Contractor staff providing CSE maintenance and operations support to the LCSA. The LCSA needs to report costs associated with IT contracts held by the County ISD in this cost category. Increased personnel costs associated with cost of living adjustments (COLA) must be supported by documentation.
- <u>Production Charges</u> ~ Include costs charged back to the LCSA for County ISD data center computer systems usage directly related to the maintenance and operation of the CSE system.
- <u>Network Charges</u> ~ Include costs charged back to the LCSA for installation, access, or usage of wide area networks (WAN) used to access the CSE system.

Required supporting documentation for LCSA's County IT/DP Shop category:

• IT services agreement or MOU (performance period must coincide with SFY).

- ISD cost supporting documentation (ISD cost projections or ISD billing invoices).
- Supporting documentation for any COLA increase in IT staff costs.
- Any contracts equal to or greater than \$100,000 that need prior federal approval.

Section C. Equipment Lease & Maintenance:

This cost category identifies recurring costs at the local LCSA level for hardware lease and maintenance, and services supporting the LCSA CSE system connectivity.

- <u>Network</u> ~ Include costs associated with local charges for maintenance and operation of the LCSAs local wide area network (WAN) used for CSE system access. Services provided to the LCSA by the County ISD must be included in a MOU between the LCSA and the County ISD.
- HW Lease ~ Include costs associated with ongoing annual lease agreement payments for hardware utilized for the CSE system. When initiating a lease agreement, the initial lease agreement and associated payment must be requested as a one-time Non-Recurring project. Further, if the LCSA opts to lease hardware instead of purchasing it, a cost benefit analysis needs to be included as part of the justification. The LCSA must receive prior federal and State approval before executing any lease agreement equal to or greater than \$100,000.
- HW Maintenance ~ Include annual ongoing costs for local maintenance service agreements that are outside of the manufacturers original purchase warranties.
 Maintenance agreements support CSE system hardware.

Required supporting documentation for *Equipment Lease & Maintenance* category:

- IT service agreement or MOU identifying Network costs
- ISD billing invoice identifying Network costs
- Lease agreements for all leased equipment, if applicable
- Hardware maintenance agreements, if applicable

Section D. Software Maintenance

This cost category reflects an itemized listing of software costs associated with the LCSA's CSE system. Examples of typical Recurring software costs are: JetForms, Voice Response Units (VRUs), operating systems, terminal emulators, subscriptions, licenses, etc.

Note: Do not include costs in this category for new software purchases or software modifications (enhancements).

Required supporting documentation for *Software Maintenance* category:

 Price quotes for software licenses/applications, subscriptions, and other related software maintenance costs.

Guidelines & Instructions

Section E. OE&E (Operating Expense & Equipment)

This cost category reports itemized costs for operating expenses and equipment (OE&E) associated with LCSA staff supporting CSE system maintenance and operations. The LCSA needs to report OE&E costs applicable to each LCSA staff member as identified in *Table 2: Recurring LCSA M&O Staff Resources*. OE&E costs must be broken down into the following sub-cost categories:

- <u>Site and Facilities</u> ~ Include direct costs related to any separate facility that houses only LCSA EDP staff listed in *Table 2: Recurring LCSA M&O Staff Resources*. For indirect site and facilities costs for LCSA EDP staff co-mingled in a facility, the LCSAs need to utilize a percentage of full-time equivalent (FTE) EDP M&O staff to total LCSA FTEs.
- <u>Training</u> ~ Include direct costs related to the training of LCSA staff resources itemized in *Table 2: Recurring LCSA M&O Staff Resources*.
- <u>Travel</u> ~ Include direct travel costs associated with LCSA personnel training activities as itemized in *Table 2: Recurring LCSA M&O Staff Resources*.
- Overhead/Indirect ~ Include direct Overhead/Indirect costs associated with LCSA EDP staff itemized in Table 2: Recurring LCSA M&O Staff Resources. For indirect Overhead/Indirect costs for LCSA EDP staff, the LCSAs need to utilize a percentage of full-time equivalent (FTE) EDP M&O staff to total LCSA FTEs. Overhead/Indirect costs include external fees paid to supporting departments and/or agencies for services that indirectly support EDP M&O activities; includes ISD overhead/indirect fees.
 - Other ~ Include direct Other costs associated with EDP staff itemized in Table 2: Recurring LCSA M&O Staff Resources. For indirect Other costs for LCSA EDP staff, the LCSAs need to utilize a percentage of full-time equivalent (FTE) EDP M&O staff to total LCSA FTEs. The "Other" category captures miscellaneous operating expenses and equipment attributable to the LCSA EDP staff such as cell phones, pagers, supplies, etc.

Required supporting documentation for *OE&E* category:

- Provide any and all supporting documentation for direct costs associated with LCSA EDP staff for site and facilities, Overhead/Indirect, and Other categories.
- Provide how many total LCSA FTEs were utilized to calculate costs per EDP FTE.
- LCSA EDP staff training class schedules and course outlines; include associated travel costs with detailed methodology.

Guidelines & Instructions

TABLE 2: Recurring LCSA M&O Staff Resources

Section A. LCSA Personnel

This section must reflect the LCSA's information technology (IT) staff resources directly involved with supporting the CSE system. This section requires an itemized list of management, technical, and support staff classifications and costs, corresponding number of months staff work in the classification, and corresponding FTEs associated with each position. FTEs indicate how many full-time and/or part-time equivalent staff makes up a particular salary cost. LCSAs must provide explanations for changes in cost and/or FTEs from SFY 2003/2004 Baseline to SFY 2004/2005 request. Increased personnel costs associated with cost of living adjustments (COLA) must be supported by documentation.

Section B. Contractor(s) - List Vendors

This section must reflect the LCSA's contractor resources involved with supporting the CSE system. These contracts are held directly by the LCSA for maintenance and operations support services. This section requires an itemized input of each LCSA held EDP M&O contract and the corresponding number of FTEs associated to each contract. For contracts in which a single vendor provides multiple services, include only the costs related to maintenance and operations of the CSE system.

Required supporting documentation for Recurring LCSA M&O Staff Resources category:

- COLA documentation to support increases in staff personnel costs.
- Contracts between LCSA and contract vendors providing CSE maintenance and operations support to LCSA. Contracts of \$100,000 or more require prior federal approval, and must be submitted to DCSS.

Guidelines & Instructions

TABLE 3: Non-Recurring LCSA Cost Summary

This Cost Summary worksheet automatically populates data rolled-up from total costs of the LCSA's Non-Recurring projects. The summary table is "read only" and requires no LCSA data input.

TABLE 3 PROJECT #X: Non-Recurring LCSA Cost Justification Worksheet

The Non-Recurring LCSA Cost Justification Worksheet provides the LCSA with the opportunity to request EDP funding for one-time, Non-Recurring projects. Each Non-Recurring project requires a detailed description and justification of the project, a detailed list of hardware/software components, project priority, and consequences if project is not approved. EDP hardware equaling \$5,000 per unit or greater must be depreciated and therefore requested in a separate Non-Recurring project. For Non-Recurring projects that require additional LCSA staff resources above and beyond the staffing levels identified in Table 2: Recurring LCSA M&O Staff Resources, LCSAs need to identify these additional resource costs within the Non-Recurring project under the "LCSA Personnel" line item. Likewise, if LCSAs require additional contractors to implement the Non-Recurring project, then resources need to be displayed on the "Contractor Services" line item.

The following information provides general line item instructions to assist LCSAs in filling out the *Non-Recurring LCSA Cost Justification Worksheet* more accurately and consistently:

Description:

Provide an in-depth description of the Non-Recurring project as follows:

- If the LCSA plans to request multiple Non-Recurring EDP M&O projects, identify in the description the LCSA's project priority by using Priority #1, Priority #2, etc.
- When identifying a replacement schedule, describe the quantity, year, model, fraction of equipment replacement schedule being replaced, along with a description of new equipment to be purchased incorporating the model and hardware specifications.
- When identifying new equipment or other business needs, describe quantity, year, and model; and, justify the business need thoroughly.
- If necessary, request funds to pay previous year invoices for incomplete Non-Recurring projects approved in the prior SFY:
 - Explain why the project was not completed in the previous SFY.
 - Explain how much was expended.
 - Explain in detail the project status and projected completion date.
 - Explain consequences if not funded in new SFY.

Project Contact:

 Project contact information will be used by DCSS staff for the purpose of contacting LCSA staff to obtain project information and establish funding allocations. The project contact information populates automatically based on the user's log on identification.

Estimated Non-Recurring Project Costs:

- <u>LCSA Personnel</u> ~ List total costs associated with LCSA Personnel staff required
 to implement the requested Non-Recurring project. For the purpose of deploying
 hardware and software, the LCSA may utilize existing LCSA staff. If the LCSA
 anticipates an additional resource need over and above the Recurring EDP staff,
 then associated costs need to be requested in the Non-Recurring project.
 Further, any additional resources need to time-study to the specific NonRecurring project.
- Contractor Services

 List total costs associated with LCSA Contractor Services staff required to implement the requested Non-Recurring project. For the purpose of deploying hardware and software, the LCSA may utilize established locallyheld Recurring contracts. If the LCSA anticipates an additional resource need over and above the Recurring EDP Contractor Services staff, then associated costs need to be requested in the Non-Recurring project. Further, any additional resources need to time-study to the specific Non-Recurring project.
- Hardware ~ List total cost of Non-Recurring project hardware with a per unit cost of less than \$5,000. Hardware under \$5,000 per unit is considered "minor" equipment; therefore, the equipment is not depreciable. LCSAs must provide system configurations and corresponding price quotes for each requested hardware component. If the LCSA requests equipment replacement, the LCSA must submit an equipment inventory listing.
- Hardware: Depreciable (>= \$5,000) ~ List total cost of Non-Recurring project hardware with a unit cost equal to or greater than \$5,000. This type of equipment request must be submitted on a separate Justification Worksheet; only include depreciable equipment, sales tax and shipping in the Non-Recurring project request. LCSAs must submit system specifications, price quotes and depreciation schedules for each requested component. All other items such as the software or resources to deploy the equipment must be requested on a separate Justification Worksheet; and, the description section needs to clearly identify these items as part of the depreciable equipment project. When requesting depreciable EDP equipment as part of a hardware replacement schedule, LCSAs must provide DCSS with a hardware inventory log that supports the funding request.
- <u>Software</u> ~ List EDP software costs associated with Non-Recurring projects, such as new operating system software, terminal emulation software, or interface application software. This sub-cost category is also used for Non-Recurring software upgrades.

 Other ~ List total dollars needed for other Non-Recurring project costs not previously categorized. This sub-cost category is typically used for 24X7 extended service or next day service warranties to cover urgent repairs for remotely located LCSAs.

Summary: Narrative

I. Statement of Problem ~ From a pull down menu, select an allowable problem statement to identify what the LCSA plans to accomplish with the requested funds. The pull down menu provides categories for depreciable and non-depreciable project hardware components. If the LCSA selects "Other Business Needs" as a problem statement, an additional justification must be written in the next available field in the form. Also in this section of the Justification Worksheet, itemize all project costs listed in the "Estimated Non-Recurring Project Costs" section. For example, itemize costs identified for each category such as, LCSA Personnel, Contractor Services, Hardware and Software. All costs need to be itemized by Quantity, Item Description, Unit Price, and Purchase Cost.

When itemizing under section, "Statement of Problem", please utilize the following instructions:

- Quantity ~ List the number of units required such as:
 - LCSA Personnel ~ Include the estimated number of LCSA Personnel hours required for project completion.
 - Contractor Services ~ Include the estimated number of contractor staff hours required for IT services for project completion.
 - Hardware ~ Include the number of hardware components requested by the specified item.
 - Software ~ Include the number of software licenses requested by the specified item.
 - Other ~ list the appropriate number of units associated with the unit description.
- Item Description ~ Provide component name and detailed specifications.
- <u>Unit Price</u> ~ Enter the unit price in total dollars corresponding to hardware specifications and price quotes associated to each project; include tax and shipping costs.
- <u>Purchase Cost</u> ~ No entry required. The Purchase Cost column will populate automatically based on Unit Price times Quantity for each line item.
 - Note: The total itemized summary of costs for the "Statement of Problem" section must equal the total costs under the "Estimated Non-Recurring

Project Costs" section. If these figures do not match, the EDP website will not allow submission to DCSS.

II. Schedule:

LCSAs need to provide realistic Non-Recurring project schedules, which includes a sequential listing of the description of the major tasks and associated project start and completion dates. The scheduled start date must coincide with the planned date of purchase. The LCSA needs to develop its project schedule allowing sufficient time for procurement and project approvals required to successfully start and complete the project within the SFY.

Note: Depreciation of equipment begins with the actual procurement date of the depreciable hardware. The major task start date identified in the LCSA's project schedule related to hardware procurement must coincide with the actual procurement date.

Recurring Consortium EDP M&O (To be completed by Consortia Leads)

This table has purposely been created to closely mimic information gathered from individual LCSAs under Table 2. However, Table 4 is to be used by **Consortia Lead LCSAs only**.

Through DCSS's EDP M&O website, Consortia Lead LCSAs request funding by designated cost categories listed in *Table 4: Recurring Consortium M&O Costs*. The Consortia Leads request funds annually to support maintenance and operations of the Consortium CSE system application on behalf of their respective member LCSAs. DCSS only allocates these funds to the Lead Consortia.

Each Consortium Lead will receive *Table 4: Recurring Consortium M&O Costs* populated with current SFY approved baseline allocations under the heading "SFY 2003/2004 Baseline". Each Consortium Lead must compare actual (claimed) versus projected costs for current year. If the Consortium Lead anticipates not expending its entire EDP M&O allotment in current year, the new EDP M&O request for SFY 2004/05 must reflect the more accurate and lesser budget amount required. Any Recurring budget line item increases or decreases from one SFY to the next must be explained in the "Explanation" field associated with the impacted line item.

TABLE 4: Recurring Consortium M&O Costs

 Central Processing Charges ~ List total costs associated with computer system and network usage required for daily operation of the Consortium CSE system. These costs will need to be broken out into three sub-categories: ISD Personnel, Production Charges, and Network Charges.

Required supporting documentation for Central Processing Charges category:

- Costs need to be separated into three sub-categories: ISD Personnel, Production Charges, and Network Charges.
- IT services agreement or MOU (performance period must coincide with SFY).
- ISD cost supporting documentation (ISD cost projections or ISD billing invoices).
- Supporting documentation for any COLA increase in IT staff costs.
- Any contracts equal to or greater than \$100,000 that need prior federal approval.
- 2. Contract Services ~ List all Consortium-held contracts that provide maintenance and operations support services. Also include any applicable portion of a vendor's contract if vendor provides multiple services. Contracts in excess of \$100,000 must receive prior federal approval before contract execution. The Consortium Lead LCSA must submit proposed contracts prior to the start of the new fiscal year with sufficient time that allows 30 days of review by DCSS, and 60 days for federal review.

Required supporting documentation for *Contract Services* category:

• All contracts equal to or greater than \$100,000 that need prior federal approval.

3. County IT Personnel ~ This category includes all Consortium/County IT Personnel resources directly involved with supporting the CSE system (include any LCSA staff redirected/allocated to support the Consortium). Itemize management, technical, and support staff classifications and costs, corresponding number of months staff work in the classification, and FTEs associated with each position. FTEs indicate how many full-time and/or part-time equivalent staff makes up a particular salary cost. Consortia Leads must provide explanations for changes in cost and/or FTEs from SFY 2003/2004 Baseline to SFY 2004/2005 request. Increased personnel costs associated to cost of living adjustments (COLA) must be supported by documentation.

Required supporting documentation for County IT Personnel category:

• COLA documentation to support increases in Consortium EDP staff costs.

4. Equipment Lease & Maintenance

- HW Lease ~ Itemize costs of ongoing annual lease agreement payments for hardware utilized for Consortium CSE system. When initiating a lease agreement, the initial lease agreement and associated payment must be requested as a one-time Non-Recurring project. Further, if the Consortium Lead opts to lease hardware instead of purchasing it, a cost benefit analysis needs to be included as part of the justification. The Consortium Lead LCSA must receive federal and State approvals before executing any lease agreement equal to or greater than \$100,000.
- HW Maintenance ~ Itemize costs for ongoing Consortium maintenance service agreements that are outside of the manufacturers original purchase warranties.
 Maintenance agreements support CSE system hardware.

Required supporting documentation for *Equipment Lease & Maintenance* category:

- Lease agreements for all leased equipment, if applicable
- Hardware maintenance agreements, if applicable
- 5. <u>SW Maintenance</u> ~ List individually all recurring software maintenance costs for software and interface applications associated with the Consortium CSE system such as, JetForms, Voice Response Units (VRUs), operating systems, terminal emulators, subscriptions, software licenses, etc.
 - Note: Do not include costs in this category for new software purchases or software modifications (enhancements).

Required supporting documentation for *Software Maintenance* category:

 Price quotes for software licenses/applications, subscriptions, agreements, and other related software maintenance costs.

- 6. <u>OE&E</u> (Operating Expense and Equipment) ~ This category reports the itemized costs for operating expense and equipment (OE&E) associated to Consortium EDP staff supporting CSE system maintenance and operations. The Consortia needs to report the OE&E cost applicable to each Consortium staff member identified in Table 4 under line item #3: County IT Personnel for the following cost categories:
 - <u>Site and Facilities</u> ~ Include direct costs related to any separate facility that only houses Consortium EDP staff itemized in Table 4 under line item #3: County IT Personnel. For indirect site and facilities costs for EDP staff co-mingled in a facility, the Consortia needs to utilize a percentage of full-time equivalent (FTE) EDP staff to total Consortium FTEs.
 - <u>Training</u> ~ Include direct training costs associated with Consortium EDP staff itemized in Table 4 under line item #3: County IT Personnel.
 - <u>Travel</u> ~ Include direct ravel costs associated with Consortium EDP staff itemized in Table 4 under line item #3: County IT Personnel.
 - Overhead/Indirect ~ Include direct Overhead/Indirect costs associated with Consortium EDP staff itemized in Table 4 under line item #3: County IT Personnel. For indirect Overhead/Indirect costs for EDP staff, the Consortia needs to utilize a percentage of full-time equivalent (FTE) EDP staff to total Consortium FTEs. Overhead/Indirect costs include external fees paid to supporting departments and/or agencies for services that indirectly support EDP M&O activities; includes ISD overhead/indirect fees.
 - Other ~ Include direct Other costs associated with Consortium EDP staff itemized in Table 4 under line item #3: County IT Personnel. For indirect Other costs for Consortium EDP staff, the Consortia needs to utilize a percentage of full-time equivalent (FTE) EDP staff to total Consortium FTEs. The "Other" category captures miscellaneous operating expenses and equipment attributable to the LCSA EDP staff such as cell phones, pagers, supplies, etc.

Required supporting documentation for *OE&E* category:

- Provide all supporting documentation for direct costs associated with Consortium EDP staff for site and facilities, Overhead/Indirect, and Other categories.
- Provide how many total Consortium FTEs were utilized to calculate costs per EDP staff FTEs.
- Consortium EDP staff training class schedules and course outlines; include associated travel costs with detailed methodology.

Guidelines & Instructions

Table 5: Non-Recurring Consortium Cost Summary (To be completed by Consortia Leads)

This table has purposely been created to closely mimic information gathered from individual LCSAs under Table 3. However, Table 5 is to be used by Consortia Lead LCSAs only.

The Cost Summary worksheet automatically populates data rolled-up from the total costs of the Consortium Non-Recurring projects. The summary table is "read only" and requires no data input by the Consortium Lead.

Table 5 Project #X: Non-Recurring Consortium M&O Cost Justification Worksheet (To be completed by Consortia Leads)

The Non-Recurring Consortium Cost Justification Worksheet provides the Consortium Lead with the opportunity to request EDP funding for one-time, Non-Recurring projects. Each Non-Recurring project requires a detailed description and justification of the project, a detailed list of hardware/software components, project priority, and the consequences if project is not approved. EDP hardware equaling \$5,000 per unit or greater must be depreciated and therefore requested in a separate Non-Recurring project. For Non-Recurring projects that require additional Consortium EDP staff resources above and beyond the staffing levels identified in Table 4 under line item #3: County IT Personnel, Consortia need to identify these additional resource costs within the Non-Recurring project under the "Consortium/County IT Personnel" line item. Likewise, if Consortia require additional contractors to implement the Non-Recurring project, then resources need to be displayed on the "Contractor Services" line item.

The following information provides general line item instructions to assist Consortia in filling out the Non-Recurring Consortium Cost Justification Worksheet more accurately and consistently:

Description:

Provide an in-depth description of the Non-Recurring project as follows:

- If the Consortia Lead LCSA plans to request multiple Non-Recurring EDP M&O projects, please identify in the description the Consortia project priority by using Priority #1, Priority #2, etc.
- When identifying a replacement schedule, describe the quantity, year, model, fraction of equipment replacement schedule being replaced, along with a description of new equipment to be purchased incorporating the model and hardware specifications.
- When identifying new equipment or other business needs, describe quantity, year, and model; and, justify the business need thoroughly.

- If necessary, request funds to pay previous year invoices for incomplete Non-Recurring projects approved in the prior SFY:
 - o Explain why the project was not completed in the previous SFY.
 - Explain how much was expended.
 - Explain in detail the project status and projected completion date.
 - Explain consequences if not funded in new SFY.

Project Contact:

 Project contact information will be used by DCSS staff for the purpose of contacting Consortium Lead LCSA staff to obtain project information and establish funding allocations. The project contact information populates automatically based on the user's log on identification.

Estimated Non-Recurring Project Costs:

- Consortium/County IT Personnel ~ List total costs associated with Consortium EDP staff required to implement the requested Non-Recurring project. For the purpose of deploying hardware and software, the Consortium may utilize existing Consortium/County IT Personnel. If the Consortium anticipates an additional resource need over and above the Recurring Consortium EDP staff, then associated costs need to be requested in the Non-Recurring project. Further, any additional resources need to time-study to the specific Non-Recurring project.
- <u>Contractor Services</u> ~ List total costs associated with Consortium Contractor Services staff required to implement the requested Non-Recurring project. For the purpose of deploying hardware and software, the Consortium may utilize established locally-held Recurring contracts. If the Consortium anticipates an additional resource need over and above the Recurring Consortium EDP Contractor Services staff, then associated costs need to be requested in the Non-Recurring project. Further, any additional resources need to time-study to the specific Non-Recurring project.
- <u>Hardware</u> ~ List total cost of Non-Recurring project hardware with a per unit cost of less than \$5,000. Hardware under \$5,000 per unit is considered "minor" equipment; therefore, the equipment is not depreciable. Consortia must provide system configurations and corresponding price quotes for each requested hardware component. If the Consortium requests equipment replacement, the Consortium must submit an equipment inventory listing.
- Hardware: Depreciable (>= \$5,000) ~ List total cost of Non-Recurring project hardware with a unit cost equal to or greater than \$5,000. This type of equipment request must be submitted on a separate Justification Worksheet; only include depreciable equipment, sales tax and shipping in the Non-Recurring project request. Consortia must submit system specifications, price quotes and depreciation schedules for each requested component. All other items such as

the software or resources to deploy the equipment must be requested on a separate Justification Worksheet; and, the description section needs to clearly identify these items as part of the depreciable equipment project. When requesting depreciable EDP equipment as part of a hardware replacement schedule, Consortia must provide DCSS with a hardware inventory log that supports the funding request.

- <u>Software</u> ~ List EDP software costs associated with Non-Recurring projects, such as new operating system software, terminal emulation software, or interface application software. This sub-cost category is also used for Non-Recurring software upgrades.
- Other ~ List total dollars needed for other Non-Recurring project costs not previously categorized. This sub-cost category is typically used for 24X7 extended service or next day service warranties to cover for remotely located LCSAs.

Summary: Narrative

I. Statement of Problem ~ From a pull down menu, select an allowable problem statement to identify what the Consortium plans to accomplish with the requested funds. The pull down menu provides categories for depreciable and non-depreciable project hardware components. If the Consortium selects "Other Business Needs" as a problem statement, an additional justification must be written in the next available field in the form. Also in this section of the Justification Worksheet, itemize all project costs listed in the "Estimated Non-Recurring Project Costs" section. For example, itemize costs identified for each category such as, Consortium/County IT Personnel, Contractor Services, Hardware, and Software. All costs need to be itemized by Quantity, Item Description, Unit Price, and Purchase Cost.

When itemizing under section, "Statement of Problem", please utilize the following instructions:

- Quantity ~ List the number of units required such as:
 - Consortium/County IT Personnel ~ Include the estimated number of Consortium EDP staff hours required for project completion.
 - Contractor Services ~ Include the estimated number of Consortium Contractor Services staff hours required for project completion.
 - Hardware ~ Include the number of hardware components requested by the specified item.
 - Software ~ Include the number of software licenses requested by the specified item.
 - Other ~ list the appropriate number of units associated with the unit description.

- Item Description ~ Provide component name and detailed specifications.
- Unit Price ~ Enter the unit price in total dollars corresponding to hardware specifications and price quotes associated to each project; include tax and shipping costs.
- <u>Purchase Cost</u> ~ No entry required. The Purchase Cost column will populate automatically based on Unit Price times Quantity for each line item.
 - Note: The total itemized summary of costs for the "Statement of Problem" section must equal the total costs under the "Estimated Non-Recurring Project Costs" section. If these figures do not match, the EDP website will not allow submission to DCSS.

II. Schedule:

Consortia need to provide realistic Non-Recurring project schedules, which includes a sequential listing of the description of the major tasks and associated project start and completion dates. The scheduled start date must coincide with the planned date of purchase. The Consortia needs to develop its project schedule allowing sufficient time for procurement and project approvals required to successfully start and complete the project within the SFY.

Note: Depreciation of equipment begins with the actual procurement date of the depreciable hardware. The major task start date identified in the Consortia project schedule related to hardware procurement must coincide with the actual procurement date.

TABLE 6: LCSA Apportioned Consortium Cost

This table provides information to the Consortia Leads only. Total costs from the Consortium Recurring and Consortium Non-Recurring [Tables 4 and 5] are shared based on a caseload percentage to member LCSAs. These total costs are shared amongst member LCSAs for program cost effectiveness measures. For SFY 2004/05, caseload percentages have been calculated based on the conversion schedule. This methodology accounts for converting LCSAs that may have a share of cost under two different systems. For example, a converting LCSA may have 2 months residing under its current system with an associated percentage share of cost, and 10 months as a new CASES member with a percentage share of cost.

EDP M&O BUDGET DISPLAY INSTRUCTIONS

Input Cell Reference	Cell Instructions
Global	To enter information into electronic forms, tab into and out of data fields. Data is retained only after using the "Save" button located at the bottom oh the electronic form.
Global	Cell reference numbers are listed in the cell instructions according to order of appearance within the electronic forms.
Table 1	Recurring LCSA M&O Costs
001	No Entry. Baseline funding from prior year.
002	No Entry. Automatically populates from Table 2.
003	No Entry. Automatically calculates.
004	Enter detailed explanation of increase or decrease of costs in comparison to prior year baseline.
005	No Entry. Baseline funding from prior year.
006	No Entry. Automatically populates from Table 2.
007	No Entry. Automatically calculates.
008	Enter detailed explanation of increase or decrease of costs in comparison to prior year baseline.
009	No Entry. Sub-Total automatically calculates.
010	No Entry. Sub-Total automatically calculates.
011	No Entry. Sub-Total automatically calculates.
012	No Entry. Baseline funding from prior year.
013	Enter charges billed to the LCSA by the County ISD or Contractor staff costs that support the CSE system; exclude LCSA staff counted in Table 2.
014	No Entry. Automatically calculates.
015	Enter detailed explanation of increase or decrease of costs in comparison to prior year baseline.
016	No Entry. Baseline funding from prior year.
017	Enter costs charged back to the LCSA from the County ISD for data center computer systems usage directly related to the CSE system. Costs include processor time, disk storage, tape storage, etc.
018	No Entry. Automatically calculates.
019	Enter detailed explanation of increase or decrease of costs in comparison to prior year baseline.
020	No Entry. Baseline funding from prior year.
021	Enter costs charged back to the LCSA from the County ISD for PC network connectivity and network support. Costs include usage of LANs/WANs, installation, etc.
022	No Entry. Automatically calculates.

Minimum PC Configuration Requirements

In order to assist LCSAs in the EDP M&O Budget development process for State Fiscal Year (SFY) 2004/05, the Department of Child Support Services (DCSS), Technology Services Division (TSD), provides the LCSAs with this document specifying minimum personal computer (PC) configuration requirements. **This document is not an authorization for LCSAs to upgrade to these standards.** LCSAs are to use these minimum specifications when procuring new or replacement PCs. Before LCSAs purchase new or replacement PCs, LCSAs must request this equipment through the normal budget process. *Please note that the estimated PC price range does not include emulation or connectivity software; LCSAs must request these types of software separately.*

The following description provides LCSAs with recommended minimum hardware and software PC configuration requirements when purchasing new or replacement PCs:

Hardware (HW):

Pentium IV, 2.40GHz Processor 256Mb of RAM 40Gb Hard Drive 19" SVGA Monitor (CRT)¹ Keyboard & Mouse 48X CD-ROM

Software (SW):

Operating System: Windows 2000 Professional or Windows XP Professional Microsoft Office 2000 or Microsoft Office XP *

Estimated Allowable PC Price range (without MS Office), including tax and shipping, equals \$1,000 - \$1,300 each.

* **Note:** When providing DCSS with PC price quotes, be sure to break out the costs for Microsoft Office Suite separately from the operating system software. The MS Office Suite software must be claimed as a Non-EDP M&O Administrative cost, and typically costs \$375 per unit price.

¹ Flat panels and monitors over 19", will not be allowed to be purchased through EDP M&O or Non-EDP Administrative budgets. Additionally, DCSS will not be able to continue supporting flat panels in the Cashier Windows and Interview Booths.
