

The number of Crime Index offenses reported to law enforcement agencies throughout the United States increased 1.3 percent during the first 6 months of 2002 when compared to the figures reported during the same period of 2001. The violent crime category, which includes murder, forcible rape, robbery, and aggravated assault, decreased 1.7 percent. Property crimes, consisting of the offenses of burglary, larceny-theft, and motor vehicle theft, increased 1.7 percent. The Modified Crime Index total is the sum of the Crime Index offenses, including arson. Data for arson are not included in the property crime totals.

The Crime Index Trends illustrated in Tables 1 and 2 reflect the percent change in offenses known to law enforcement for the first 6 months of 2002 as compared to the same period in 2001. The Crime Index Trends illustrated in Table 3 reflect the percent change in offenses known to law enforcement for the first 6 months of the calendar years indicated. Table 4 presents a two-year comparison of offenses known to law enforcement for cities 100,000 and more in population for the first 6 months of 2002 and 2001.

<sup>1</sup> Complete arson data for 2001 and/or 2002 are not available.

<sup>2</sup> Forcible rape figures furnished by the state Uniform Crime Reporting (UCR) Program administered by the Illinois State Police were not in accordance with national UCR guidelines. Therefore, the figures are excluded from the forcible rape, Crime Index, and Modified Crime Index total categories.

<sup>3</sup> Due to changes in reporting practices, annexations, and/or incomplete data, figures are not comparable to previous years' data.

<sup>4</sup> Complete January through June data for 2001 are not available.

**December 16, 2002**

**PLEASE NOTE**

Figures used in this report are submitted voluntarily by law enforcement agencies throughout the country. Individuals using these tabulations are cautioned against drawing conclusions by making direct comparisons between cities because many factors affect the amount and type of crime from place to place. Some of these factors are listed in the annual publication *Crime in the United States*. More valid use can be made of these figures by determining deviations from national averages and by comparing averages for cities in similar population groups (Table 1). It is important to remember that crime is a social problem and, therefore, a concern of the entire community. The efforts of law enforcement are limited to factors within its control. Data users can obtain assistance by calling 304-625-4995.

Data users are cautioned against comparing crime trends presented in this report with those estimated by the National Crime Victimization Survey (NCVS), administered by the Bureau of Justice Statistics. Because of differences in methodology and crime coverage, the two programs examine the Nation's crime problem from somewhat different perspectives, and their results are not strictly comparable. The definitional and procedural differences can account for many of the apparent discrepancies in results. The Department of Justice's fact sheet, *The Nation's Two Crime Measures*, contains a detailed description of the NCVS and Uniform Crime Reports.
