BILLING CODE 5001-06-P

DEPARTMENT OF EDUCATION**Early Reading First Program; Notice Reopening the Deadline Date for Transmittal of Pre-Applications for Fiscal Year (FY) 2007**

Catalog of Federal Domestic Assistance (CFDA) Number: 84.359A/B.

SUMMARY: On January 22, 2007, we published in the **Federal Register** (72 FR 2667) a notice inviting applications for the Early Reading First (ERF) FY 2007 competition. The deadline date for eligible applicants to transmit their pre-applications for funding under this competition was February 21, 2007. We are reopening the pre-application phase of the ERF FY 2007 competition for all eligible local educational agencies (LEAs) and for eligible entities located in communities served by those LEAs. Applicants must refer to the notice inviting applications that was published in the **Federal Register** (72 FR 2667) for all other requirements concerning this reopened competition.

We are extending the pre-application phase of the ERF FY 2007 competition for all eligible applicants, including non-LEAs, because the originally posted State lists of eligible LEAs did not include all LEAs that were eligible as of January 22, 2007, and included some LEAs that were ineligible as of that date. The new deadline date for applicants to submit pre-applications is:

Deadline for Transmittal of Pre-Applications: March 23, 2007.

Pre-applications for grants under this competition must be submitted electronically using the Grants.gov Apply site (Grants.gov). For information about how to submit your pre-application electronically, or by mail or hand delivery if you qualify for an exception to the electronic submission requirement, please refer to the original application notice published in the **Federal Register** on January 22, 2007 (72 FR 2667).

We do not consider a pre-application that does not comply with the deadline requirements.

Individuals with disabilities who need an accommodation or auxiliary aid in connection with the application process should contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Note: Applicants that successfully submitted their complete pre-applications on or before the original deadline date of February 21, 2007, including those that were not timely because they submitted their pre-applications between 4:30 p.m. and midnight on that date, are not required to resubmit their applications. Any applicant that did not successfully submit its application must download, complete, and submit an entirely new application package through Grants.gov as specified in the original ERF application notice.

Deadline for Intergovernmental Review: The deadline date for Intergovernmental Review under Executive Order 12372 remains as originally published, July 30, 2007.

SUPPLEMENTARY INFORMATION:

Eligible LEAs. Eligibility determinations are made as of January 22, 2007. Corrected lists of eligible LEAs by State are posted for the convenience of applicants on the ERF Web site at <http://www.ed.gov/programs/earlyreading/eligibility.html>.

We have contacted each State's Reading First office and the Bureau of Indian Education (BIE) and obtained lists of the LEAs that each State and the BIE considers to be eligible for a Reading First subgrant as of January 22, 2007, the date of publication of the original ERF notice inviting applications for this FY 2007 competition.

Please note, however, that we consider it to be each applicant's own responsibility to verify with the Reading First office in its State or with the BIE the eligibility of a particular LEA for a Reading First subgrant as of January 22, 2007. A list of State and BIE contacts for this purpose is posted also at the ERF Web site at <http://www.ed.gov/programs/earlyreading/eligibility.html>.

Ineligible LEAs. The originally posted eligible LEA lists included some LEAs that are not eligible. Any LEA that was not eligible for a Reading First subgrant in its State or through the BIE as of January 22, 2007, is not eligible to receive an ERF subgrant in this FY 2007 competition. Nor are any entities located in communities served by those ineligible LEAs eligible to receive an ERF subgrant in this competition on the basis of that location.

Application Submission Information. Information concerning submission of pre-applications for grants under the ERF program (CFDA Number 84.359A) is described in section IV (Application and Submission Information) of the original application notice published in the **Federal Register** on January 22, 2007 (72 FR 2667). That notice is available at the following Web site: <http://www.ed.gov/news/fedregister/announce/index.html>.

Note: If you try to submit a pre-application package that was downloaded from Grants.gov before the original pre-application deadline of February 21, 2007, your submission will be rejected by the Grants.gov system.

Note: If you wish to exercise the *Exception to Electronic Submission Requirements*, you must submit no later than March 9, 2007 a statement to the Department requesting an exception to these requirements and explaining the grounds that prevent you from using the Internet to submit your pre-application.

SUPPLEMENTARY INFORMATION:

Description

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC 423 "Monthly Report of Cost and Quality of Fuels for Electric Plants".
2. *Sponsor:* Federal Energy Regulatory Commission.
3. *Control No.:* 1902-0024.

The Commission is now requesting that OMB approve and extend the expiration date for an additional three years with no changes to the existing collection. The information filed with the Commission is mandatory.

4. *Necessity of the Collection of Information:* Submission of the information is necessary for the Commission to carry out its responsibilities in implementing the statutory provisions of sections 205 (a) and (e); (2) for use in a broad range of fuel cost and purchase practice issues rising from electric utility rate cases; (3) to detect abnormally high fuel costs in utility fuel purchases indicative of affiliate preference at the cost of the consumer; (4) in conjunction with other data, to identify potential out-of-merit plant dispatches carried out by system operators and (5) in conjunction with bid data, provides an indication of market efficiency by providing one of the key components of electricity generation cost.

Other Federal and State agencies, such as the Energy Information Administration and the Environmental Protection Agency, as well as private interest groups, electric utilities and the public use this timely data: (1) To compare each fuel type by quality determinants, in the study of developments in fuel supply which may affect the reliability of electric service, (2) in environmental improvement programs for the different air quality control regions in the United States and (3) for use in analyses of energy and fuel supply impacts on the cost of electric power.
