In this action the United States seeks civil penalties and injunctive relief for violations of Sections 301(a) or, alternatively 311(b)(3), and Section 311(j) of the Clean Water Act ("CWA"), 33 U.S.C. 1311(a), or alternatively 1321(b)(3), and 1321(j), arising from the alleged unlawful discharge of approximately 597 barrels of crude oil and produced water into the North Fork Powder River and onto the banks adjacent to that river from Defendants' Celler Ranch Unit in Johnson County, Wyoming. Further, the United States also seeks civil penalties and injunctive relief from Defendants' alleged failure to prepare and fully implement an adequate Spill Prevention Control and Countermeasures Plan as required by 40 CFR Part 112.

diagram; develop and implement an enhanced facility inspection, maintenance, and replacement plan; integrity test all buried flowlines that are not visually accessible for inspection; and bring the facility's Spill Prevention Control and Countermeasures Plan into compliance with the applicable regulatory requirements.
