SUPPLEMENTARY INFORMATION: The Hawaii State Department of Transportation (HI DOT) has previously conducted planning for Kahului Harbor, leading to a 2025 Master Plan and Environmental Assessment. However, demand for harbor facilities has been much greater than anticipated, and space for current operations is very tight. The 2025 Master Plan called for development of new pier and harbor space at the west breakwater of the harbor. HI DOT has conducted a new

master planning process, which has led to new alternatives to meet current and future harbor needs. The west breakwater expansion and other steps to help assure that the harbor supports the continuing prosperity and quality of life of Maui County are under consideration.

The Draft EIS addresses the following issues: (1) Demand for additional space and facilities at Kahului; (2) organization of harbor space and facilities to promote and preserve orderly cargo operations, passenger operations, and recreational activity; and (3) environmental impacts of proposed alternatives. The Preferred Alternative involves development of passenger facilities in the West Breakwater area, along with expansion of Piers 1 and 2 and development of new cargo handling areas near those piers. Significant impacts could affect corals and surf sites.

Written comments will be available at the Document Management System Web site (<http://dms.dot.gov>), as part of docket MARAD-2006-26228 at the end of the comment period.
