Full Text of Announcement**I. Funding Opportunity Description**

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for highly qualified personnel—in special education, related services, early intervention, and regular education—to work with infants or toddlers with disabilities, or children with disabilities; and (2) ensure that those personnel have the skills and knowledge—derived from practices that have been determined through research and experience to be successful—that are needed to serve those children.

Priority: In accordance with 34 CFR 75.105(b)(2)(v), this priority is from allowable activities specified in the statute (see sections 662(d) and 681(d) of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2006 this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is: *Preparation of Leadership Personnel*.

This priority supports and is limited to projects that train personnel at the preservice doctoral or post-doctoral level in early intervention, special education or related services and at the advanced graduate level (masters and specialists) in special education administration/supervision. In order to be eligible under this priority, programs must provide training and support for scholars to complete their training, within the performance period of the grant.

Therefore, only the following types of programs of study will meet the requirements of the priority:

1. A major in special education, related services or early intervention at the doctoral or post-doctoral level; and
2. Training at the advanced graduate level (masters and specialists programs) in special education administration/supervision.

Note: Training that leads to a Doctor of Audiology (D Aud) degree is not included as part of this priority.

Projects funded under this absolute priority must—

(a) Demonstrate in the narrative section of the application under “Quality of Project Services” how—

(1) The program prepares personnel to address the specialized needs of children with disabilities from diverse cultural and language backgrounds by—

(i) Identifying the competencies needed by leadership personnel to understand and work with culturally and linguistically diverse populations (the competencies identified should reflect the current knowledge base); and

(ii) Infusing those competencies into early intervention, special education, and related services training programs.

(2) All relevant coursework for the proposed program reflects current research and pedagogy on—

(i) Participation and achievement in the general education curriculum and improved outcomes for children with disabilities; and

(ii) The provision of coordinated services in natural environments to improve outcomes for infants and toddlers with disabilities and their families.

(3) The program offers integrated training and practice opportunities that will enhance the collaborative skills of all personnel who share responsibility for providing effective services for children with disabilities.

(4) For programs that train personnel in early intervention, special education or related services, the program ensures that scholars are knowledgeable about:

(i) The provisions of the No Child Left Behind Act of 2001 (NCLB) that relate to students with disabilities; (ii) the IDEA and NCLB requirement that teachers be highly qualified; and (iii) the need to foster collaboration between regular and special education teachers.

(5) The proposed training program is aligned with State learning standards for children, if appropriate;

(b) Submit annual data on each scholar who receives grant support. Projects funded under this priority must submit this scholar data electronically within 60 days after the end of each grant budget year. Applicants are encouraged to visit the Personnel Prep Data (PPD) Web site at <http://www.osepppd.org> for further information. This data collection is in addition to and does not supplant the annual grant performance report required of each grantee for continuation funding (see 34 CFR 75.590);

(c) Budget for a three-day Project Director’s meeting in Washington, DC, during each year of the project;

(d) If the project maintains a Web site, include relevant information and documents in a format that meets a government or industry-recognized standard for accessibility;

(e) Provide a detailed description of the program, including the sequence of the courses offered in the program that describe the comprehensive curriculum designed to meet program goals and obtain mastery of the following required professional domains—

- (1) Research methodology;
- (2) Personnel preparation;
- (3) Policy/advocacy or professional practice.

(f) Include in the application narrative under “Quality of Project Evaluation,” a clear, effective plan for evaluating the extent to which graduates of the training program have the knowledge and skills necessary to provide research-based instruction and services that result in improved outcomes for children with disabilities;

(g) Communicate student evaluation results to the Office of Special Education Programs (OSEP) in required annual performance reports for continuation funding and the project final performance report;

(h) Certify that all scholars will be recruited into the program with the intention of graduating from the program during the program performance period;

(i) Certify that the institution will not require scholars recruited into the program to work as a condition of receiving a scholarship, e.g., as graduate assistants, unless the work is required to complete their training program;

(j) If the program is addressing national or regional needs, demonstrate the existence of the needs through appropriate research data; and

(k) Designate at least 65 percent of the total requested budget for scholarship support or provide justification for any designation less than 65 percent. Examples of sufficient justification for proposing less than 65 percent of the budget for scholarship support might include:

- A project servicing rural areas that provides long distance training, and that may require Web Masters, adjunct professors, or mentors to operate effectively.
- A project that is expanding or adding a new emphasis area to the program, and as a result of this expansion, may need additional faculty or other resources such as expert consultants, additional training supplies, or equipment that would enhance the program.

Please note, projects that are funded to develop, expand, or add a new area of emphasis to special education or related services programs must provide information on how these new areas will be sustained once Federal funding ends.

Statutory Requirements: To be considered for an award, an applicant must also satisfy the following requirements contained in section 662(e) through (h) of the IDEA—

(a) Demonstrate that the activities described in the application will address needs identified by the State or States the applicant proposes to serve and that the State or States intend to accept successful completion of the proposed personnel preparation program as meeting State personnel standards or other requirements in State law or regulation for serving children with disabilities or serving infants and toddlers with disabilities (see sections 662(e)(2)(A) and 662(f)(2) of IDEA). Letters from the State or States that the project proposes to serve could be one method for addressing this requirement;

(b) Demonstrate that the applicant and one or more State educational agencies—or, if appropriate, State appointed lead agencies responsible for providing early intervention services—or local educational agencies will cooperate in carrying out and monitoring the proposed project (see section 662(e)(2)(B) of IDEA);

(c) Meet State and professionally recognized standards for the preparation of leadership personnel in special education, related services, or early intervention fields (see section 662(f)(2) of IDEA); and

(d) Provide an assurance that the applicant will ensure that individuals who receive financial assistance under the proposed project agree to subsequently work in the appropriate field, for a period of 2 years for every year for which the scholarship was received, or repay all or part of the amount of the scholarship, in accordance with section 662(h)(1) of IDEA and 34 CFR part 304. Applicants must describe how they will inform scholarship recipients of this service obligation requirement.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (APA) (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed priorities and requirements. Section 681(d) of the IDEA makes the public comment requirements of the APA inapplicable to the priority in this notice.

Program Authority: 20 U.S.C. 1462 and 1481.

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, 99; and 34 CFR part 304.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for highly qualified personnel—in special education, related services, early intervention, and regular education—to work with children with disabilities; and (2) ensure that those personnel have the skills and knowledge—derived from practices that have been determined through research and experience to be successful—that are needed to serve those children.

The Secretary is particularly interested in supporting high quality training programs that are preparing occupational therapists to provide services to infants, toddlers, children and youth who are served under IDEA.

Priority: In this competition, we are establishing one absolute priority (with five focus areas), a competitive preference priority within one of these five focus areas, and one separate competitive preference priority. In accordance with 34 CFR 75.105(b)(2)(v), these priorities are from allowable activities specified in the statute (see sections 662 and 681(d) of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2006 this priority is, except as otherwise specified, an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is: *Combined Priority for Personnel Preparation.*

Background: State agencies, university training programs, local

schools, and other community-based entities confirm the importance and difficulty of improving training programs for personnel to serve children with disabilities or infants and toddlers with disabilities.

The national demand for fully credentialed special education, related services and early intervention personnel to serve children with disabilities also exceeds available supply. Thus, Federal support is required to improve both the quality and supply of personnel who serve children with disabilities.

Priority: The purpose of this priority is to increase the number and quality of personnel who are fully credentialed to serve children with disabilities especially in areas of chronic shortage, by supporting projects that prepare special education, early intervention, and related services personnel at the associate, baccalaureate, master's and specialist levels. In order to be eligible under this priority, programs must provide training and support for students to complete, within the term of the project, a degree, State certification, professional license, or State endorsement in early intervention, special education or related services. Programs preparing students to be special education paraprofessionals, related services assistants or educational interpreters are also eligible under this priority. The Secretary is particularly interested in programs that prepare special educators who provide instruction in core academic areas to children with disabilities to be highly qualified under section 602(10) of IDEA, in accordance with State requirements. The Secretary is also particularly interested in programs that provide enhanced support for beginning special educators (see section 662(b)(3) of IDEA).

Absolute Priority Requirements: To be considered for an award under this priority, applicants must—

(a) Demonstrate, in the narrative section of the application under "Quality of Project Services," how—

(1) Training requirements and required coursework for the proposed training program incorporate research-based practices that improve outcomes for children with disabilities (including relevant research citations);

(2) The program is designed to offer integrated training and practice opportunities that will enhance the skills of appropriate personnel who share responsibility for providing effective services to children with disabilities;

(3) The program prepares personnel to address the specialized needs of
