RIN 2120-AA66

Revocation of Low Altitude Reporting Point; AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revokes the HERRY as an Alaskan low altitude reporting point. The FAA has determined that this reporting point should be removed from the National Airspace System (NAS), since the HERRY is no longer used as a low altitude reporting point.

DATES: Effective Date: 0901 UTC, March 15, 2007. The Director of Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

Background

In October 2006, it was determined that the HERRY low altitude reporting point was no longer required to support the NAS and is no longer used by the FAA.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by revoking the HERRY low altitude reporting point. Accordingly, since this action only involves a change in the legal description, notice and public procedure under 5 U.S.C. 533(b) are unnecessary.

Alaskan low altitude reporting points are published in paragraph 7004 of FAA Order 7400.9P dated September 1, 2006, and effective September 15, 2006, which is incorporated by reference in 14 CFR 71.1. The low altitude reporting points listed in this document will be removed subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which

frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, paragraph 311(a), "Environmental Impacts: Policies and Procedures." This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
