DEPARTMENT OF EDUCATION**[CFDA No.: 84.332B]****Comprehensive School Reform Quality Initiatives****AGENCY:** Department of Education.**ACTION:** Notice inviting applications for new awards for fiscal year (FY) 2002.

NOTE TO APPLICANTS: This notice is a complete application package. Together with the statute authorizing these grants and the Education Department General Administrative Regulations (EDGAR), this notice contains all of the information, application forms, and instructions needed to apply for a grant under the competition. These grants are authorized under section 1608 of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the No Child Left Behind Act of 2001 (Pub. L. 107-110).

PURPOSE OF THE PROGRAM: The purpose of the Comprehensive School Reform (CSR) Quality Initiatives program is to support activities in the following categories:

(1) *Technical assistance in making informed decisions.* To support public and private efforts in which funds are matched by private organizations to assist States, local educational agencies (LEAs), and schools in making informed decisions regarding approving or selecting providers of comprehensive school reform, consistent with the requirements in section 1606(a) of the ESEA, as amended; and

(2) *Model development and capacity building.* To foster the development of comprehensive school reform models, and to provide effective capacity building for comprehensive school reform providers to expand their work in more schools, assure quality, and promote financial stability.

Eligible Applicants: Public or private organizations that provide educational or related services.

Deadline for Transmittal of Applications: May 5, 2003.

Notification of Intent to Apply for Funding: We will be able to develop a more efficient process for reviewing grant applications if we have a better understanding of the number of entities that intend to apply for funding. Therefore, we strongly encourage each potential applicant to send, by April 7, 2003, a notification of its intent to apply for funding to the following address: irene.harwarth@ed.gov.

The notification of intent to apply for funding is *optional* and should not include information regarding the proposed application. Eligible

applicants that fail to provide the notification may still submit an application by the application deadline.

Estimated Available Funds: Approximately \$7 million of fiscal year (FY) 2002 funds. Of this amount, we will award approximately \$2 million to support activities under category 1 (*i.e.*, technical assistance in making informed decisions) and approximately \$5 million to support activities under category 2 (*i.e.*, model development and capacity building).

Estimated Number of Awards: We anticipate making 1 to 2 awards under each category.

Estimated Range of Awards: \$1 million—\$2 million annually under category 1 (*i.e.*, technical assistance in making informed decisions); \$2.5 million—\$5 million annually under category 2 (*i.e.*, model development and capacity building). Funding of continuation awards after the initial year of funding is contingent upon future Congressional appropriations for the program.

Note: These estimates are projections for the guidance of potential applicants. The Department is not bound by any estimates in this notice.

Project Period: Up to 36 months.

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 81, 82, 86, 97, 98, and 99.

SUPPLEMENTARY INFORMATION: The State-administered Comprehensive School Reform (CSR) Program and the CSR Quality Initiatives are both authorized under Part F of Title I of the ESEA, as amended. The State-administered CSR program is designed to improve student achievement by supporting the implementation of comprehensive school reforms based on scientifically based research and effective practices so that all children, especially those in low-performing, high-poverty schools, can meet challenging State academic achievement standards. Comprehensive school reform is a systemic approach to schoolwide improvement that incorporates every aspect of a school, including curriculum, instruction, school management, professional development, parental involvement, and assessment plans. The program requires LEAs and schools to draw together individual initiatives that focus on specific areas and weave them into a unified, coherent comprehensive school reform design that integrates the eleven statutory components delineated in section 1606(a) of the ESEA, as amended.

The intent of the CSR Quality Initiatives program is to support activities that will enhance the State-administered CSR program. Under the Quality Initiatives competition, the Secretary will award funds to support activities in two categories—(1) technical assistance in making informed decisions, and (2) model development and capacity building. Grantees under category 1 will assist States, LEAs, and schools in making informed decisions regarding approving or selecting providers of comprehensive school reform, in a manner that meets the requirements of section 1606(a) of the ESEA, as amended. The category 2 awards will encourage, facilitate, and support the development of comprehensive school reform models that schools may integrate into a program that meets the eleven statutory CSR components. These grants will also assist comprehensive school reform providers in building their capacity to expand their work in more schools, assure quality, and promote financial stability.

The category 1 and category 2 awards will be peer reviewed separately on the basis of selection criteria specific to each of the competitions. These selection criteria are included in this Notice. An applicant seeking funding under both categories must submit separate applications addressing the respective criteria for each category.

Absolute Priority for Category 1 Applicants: For category 1 grants (*i.e.*, technical assistance in making informed decisions), the legislation requires that the awards be matched by private organizations. In response to this requirement, the Secretary establishes the following absolute priority under 34 CFR 75.105(c)(3) and will fund under the Category 1 competition only those applicants that meet this priority:

The applicant demonstrates, in its grant application, that its Quality Initiative award will be matched with funds from one or more private organizations. During the first year of the project, the match, excluding any in-kind contributions, must total at least 20 percent of the grantee's initial CSR Quality Initiative award. During any subsequent year of the project, the match, excluding any in-kind contributions, must total at least 25 percent of the grantee's continuation award for that year.

Competitive Preferences for Category 1 Applicants: To help ensure that the activities supported under category 1 (*i.e.*, technical assistance in making informed decisions) of the CSR Quality Initiatives program best address the needs of States, districts and schools,

the Secretary establishes the following competitive preferences under 34 CFR 75.105(c)(2). We will award an applicant, in addition to any points that it earns under the selection criteria for the category 1 awards, up to five additional points for addressing each preference (for a total of up to 10 preference points):

Competitive preference (1)—The grantee will provide detailed, high-quality information and technical assistance that will enable States, districts, and schools to select among multiple CSR providers, rather than provide such information or assistance concerning only one provider.

Competitive preference (2)—The grantee will assist urban and rural LEAs and schools in more than one State.

Invitational Priority for Category 1 Applicants: Under the Category 1 Competition, the Secretary is particularly interested in receiving applications from applicants that meet the following invitational priority:

The grantee will focus its efforts on providing States, LEAs, and schools with practical and useful information regarding the evidence of the success and effectiveness of widely-used comprehensive school reform models. The grantee will disseminate the findings of the reviews in a timely manner. Additionally, the grantee will provide direct technical assistance to States, LEAs, and schools in order to facilitate informed decision-making in the selection of models.

Under 34 CFR 75.105(c)(1) the Secretary does not give an application that meets the invitational priority a competitive or absolute preference over other applications.

Invitational Priority for Category 2 Applicants: For the Category 2 Competition there is no absolute priority, or competitive preference. However, the Secretary is particularly interested in applications from applicants that meet the following invitational priority:

The applicant has a demonstrated record of success in fostering the development and sustainability of multiple providers of comprehensive school reform models and services.

Under 34 CFR 75.105(c)(1) the Secretary does not give an application that meets this invitational priority a competitive or absolute preference over other applications.

Selection Criteria: We will use different selection criteria to evaluate the category 1 and category 2 applications.

Waiver of Proposed Rulemaking: In accordance with the Administrative Procedure Act (5 U.S.C. 553), it is the practice of the Secretary to offer interested parties the opportunity to comment on proposed rules. Section

437(d)(1) of the General Education Provisions Act (GEPA), however, allows the Secretary to exempt rules governing the first competition under a new or substantially revised program authority (20 U.S.C. 1232(d)(1)). This competition is the first CSR Quality Initiatives competition under section 1608 of the ESEA, as amended by Public Law 107-110, the No Child Left Behind Act of 2001, and therefore qualifies for this exemption. The Secretary, in accordance with section 437(d)(1) of GEPA, has decided to forego public comment in order to ensure timely grant awards. These rules will apply to the FY 2002 grant competition only.

Instructions for the Application Narrative

The narrative is the section of the application where the selection criteria used by reviewers in evaluating the application are addressed. The narrative must encompass each function or activity for which funds are being requested. Before preparing the application narrative, an applicant should read carefully the description of the program and the selection criteria the Secretary uses to evaluate applications.

Applicants should note there is a suggested 30-page limit for the application narrative with the following standards applying: (1) A "page" is 8.5" x 11" (one side only) with one-inch margins (top, bottom, and sides). (2) All text in the application narrative must be double-spaced. The suggested page limit does not apply to the cover sheet, the one-page abstract, budget section, appendices, and forms and assurances. However, all of the application narrative must be included in the narrative section.

1. Begin with a one-page Abstract summarizing the project, including a description of project objectives and activities and any partners in the application.

2. Include a table of contents listing the parts of the narrative in the order of the selection criteria and the page numbers where the parts of the narrative are found. Be sure to number the pages.

3. Describe how the applicant meets the absolute priority (if applicable).

4. Describe how the applicant meets the competitive priority (if applicable).

5. Describe fully the proposed project in light of the selection criteria in the order in which the criteria are listed in the application package. Do not simply paraphrase the criteria.

6. Provide the following in response to the attached "Notice to all Applicants": (1) A reference to the portion of the application in which information appears as to how the applicant is addressing steps to promote equitable access and participation, or (2) a separate statement that contains this information.

7. When applying for funds as a consortium, individual eligible applicants

must enter into an agreement signed by all members. The consortium's agreement must detail the activities each member of the consortium plans to perform, and must bind each member to every statement and assurance made in the consortium's application. The designated applicant must submit the consortium's agreement with its application.

8. Applicants may include supporting documentation as appendices to the narrative. This material should be concise and pertinent to the competition. Note that the Secretary considers only information contained in the application in ranking applications for funding consideration. Letters of support sent separately from the formal application package are not considered in the review by the technical review panels. (34 CFR 75.217)

9. Attach copies of all required assurances and forms.

Definitions for Form ED 424

Novice Applicant (See 34 CFR 75.225). For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and
- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant's project or funding period, including any extensions of those periods that extend the grantee's authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

Type of Submission. "Construction" includes construction of new buildings and acquisition, expansion, remodeling, and alteration of existing buildings, and initial equipment of any such buildings, or any combination of such activities (including architects' fees and the cost of acquisition of land). PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, it is research. Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information." (1) If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met. [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of exemptions are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the

activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked "Yes" for Item 12 on the ED 424, the applicant must provide a human subjects "exempt research" or "nonexempt research" narrative and insert it immediately following the ED 424 face page.

A. Exempt Research Narrative.

If you marked "Yes" for item 12a. and designated exemption numbers(s), provide the "exempt research" narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked "No" for item 12a. you must provide the "nonexempt research" narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) Human Subjects Involvement and Characteristics: Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

(2) Sources of Materials: Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Recruitment and Informed Consent: Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Potential Risks: Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Protection Against Risk: Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Importance of the Knowledge to be Gained: Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) Collaborating Site(s): If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff, Office of the Chief Financial Officer, U.S. Department of Education, Washington, D.C. 20202-4248, telephone: (202) 708-8263, and on the U.S. Department of Education's Protection of Human Subjects in Research Web Site at <http://www.ed.gov/offices/OCFO/humansub.html>

OMB Control No. 1890-0007 (Exp. 09/30/2004)

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct

description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is **1890-0007**. The time required to complete this information collection is estimated to average 1.5 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to:** Director, Grants Policy and Oversight Staff, U.S. Department of Education, 400 Maryland Avenue, SW (Room 3652, GSA Regional Office Building No. 3), Washington, DC 20202-4248.
