Commissioner McGaffigan's Comments on SECY-07-0032

I approve the staff recommendation to revise the guidance for handling security-related allegation closure correspondence. Additionally, the staff should make the guidance public and actively seek to inform external stakeholders of the agency's intent, when appropriate, to provide alлегers with additional details regarding the handling of their security-related concerns.

Recommended Staff Actions Regarding Correspondence with Allegers Involving
Security-Related Concerns**

I approve the staff approach to improving the process for how the agency handles staff actions regarding allegations involving security related information. I believe the staff effort will better inform the public about licensee performance and the response from the Nuclear Regulatory Commission without providing information that could be used by individuals with malevolent intent.

Commissioner Lyons' Comments on SECY-07-0032

I approve the staff's recommended revisions to agency guidance for responding to allegeders raising security-related concerns. After gaining sufficient experience with the new guidance, the staff should consider whether the guidance could be expanded such that under appropriate circumstances, offers of additional discussions will be made to individuals raising Category II and Category III concerns who are not members of the security force.
