

In a world where
many OAB drugs are the same...

ONE stands out.

SANCTURA[®]

(trospium chloride) 20 mg Tablets

Look no further.

SANCTURA is indicated for the treatment of overactive bladder with symptoms of urge urinary incontinence, urgency, and urinary frequency. SANCTURA is contraindicated in patients who have or who are at risk for urinary retention, gastric retention, and uncontrolled narrow-angle glaucoma, and in persons who have demonstrated hypersensitivity to the drug or its ingredients.

SANCTURA stands alone.

The unique quaternary structure makes all the difference.

Dual-action
mechanism^{1,3}

A safe choice,
low CNS risk^{1,5}

Day 1 relief with
sustained efficacy⁴

No known metabolic
drug interactions^{*2,5}

Quality of life
significantly improved⁵

SANCTURA[®]
(trospium chloride) 20 mg Tablets
Look no further.
