1.0 GENERAL INFORMATION

1 General Information

1.1 System Overview

The Surety Bond Guarantee (SBG) Electronic Application (E-app) system is a web application used to apply for SBA bond guarantees. Contractors can use the E-app System to enter SBG applications, completed required SBA forms, and forward information to their selected agents. The system is available 7 days a week – 24 hours a day.

1.2 Authorized Use Permission

This is a Federal computer system and is the property of the United States Government. It is for authorized use only. Users (authorized or unauthorized) have no explicit or implicit expectation of privacy in anything viewed, created, downloaded, or stored on this system, including e-mail, Internet, and Intranet use. Any or all uses of this system (including all peripheral devices and output media) and all files on this system may be intercepted, monitored, read, captured, recorded, disclosed, copied, audited, and/or inspected by authorized Small Business Administration (SBA) personnel, the Office of Inspector General (OIG), and/or other law enforcement personnel, as well as authorized officials of other agencies, both domestic and foreign. Unauthorized use of, or exceeding authorized access to, this system is prohibited and may constitute a violation of 18 U.S.C. § 1030 or other Federal laws and regulations and may result in criminal, civil, and/or administrative action. By using this system, users indicate awareness of, and consent to, these terms and conditions and acknowledge that there is no reasonable expectation of privacy in the access or use of this computer system.

2.0 SYSTEM SUMMARY

2 SYSTEM SUMMARY

2.1 System Configuration

The application is developed for use with a minimum browser of Microsoft IE 6.0 or a compatible browser. You must use high level encryption (128 bit) when configuring your browser. You must enable support for JAVA script and applets. There is no use of client side COOKIES. In general, the font type is 9pt. Arial-style sheets are not used. The application is best viewed on an 800x 600 resolution screen. To avoid scrolling, use a minimum 15" screen.

3.0 GETTING STARTED

3 GETTING STARTED

The E-app system is accessed through the SBA General Login System (GLS). You must have an SBA GLS User ID and Password in order to submit applications and update information in the E-app system.

3.1 Request an SBA GLS User ID and Password

To request an SBA User ID and Password, you should connect to the Internet and enter https://eweb.sba.gov/gls/dsp_login.cfm as the URL. The General Log-in screen will display.

Click on the **Request SBA User ID** hotlink from the left-hand navigation tree to access the *Request SBA User ID* screen.

The *Request SBA User ID* screen is used to supply pertinent information to the SBA in order to obtain a User ID and Password.

Reset – Click on this pushbutton to reset all the fields to their original values.

Submit – Click on this pushbutton to submit the information to the database and forward it to the approving authority. Once approved, you will receive an e-mail. At this point, you are ready to apply for a bond.

3.5 General Instructions

The following are guidelines that apply throughout the Web application:

- The application includes a security process that requires prior identification and approval of users. Security routines are used to check for password aging - passwords must be changed every 90 days. Users are validated up front, to determine permission and access rights.
- The application uses redundant emphasis; color-based prompting is applied to the input/view boxes and text formatting features are applied to the labels i.e. (Color & Bold or Color & Italics). Alternative descriptions are available for images and summaries/labels for tables and input/view boxes supporting most reader software.
 - a) Required Data = Blue background box & Bold Arial Label
 - b) Optional Data = White background box & Regular Arial Label
 - c) View Only Data = Gray background box & Regular Arial LabelThe formatting and emphasis may change for a given screen field depending upon the type of bond selected (bid bond, final bond, etc.)
- Both Browser and Application Server-side Data Validation occurs, in general:
 - a) At the Browser - simple validation within a screen is performed, i.e. numbers, text, and dates where required.
 - b) At the Server - Table lookup and Database validation, Complex Validation, and Cross editing between screens occurs.
- The small question mark at the upper left-hand corner of the screen can be used to do the following:
 - Get information about Template Help (“SBA Look and Feel”)
 - Print
 - Show/Hide Navigation (hotlinks on the left-hand side of the screen) to view the full screen.
 - Close the menu

4.0 Using the System (Online)

4 Contractor Login

Connect to the Internet and enter “https://eweb.sba.gov/gls/dsp_login.cfm” in the URL. Input your User ID and Password and click on the pushbutton. In the *Welcome* screen, click on the pushbutton to accept the terms and conditions, or click on the pushbutton to exit the system.

In the *General Login System – Choose Function* screen, select the [Surety Bond Guarantee Applications](#) hotlink.

Prior to inputting your first surety bond application, you must be associated with a participating surety bond agency or surety branch office. This is accomplished by the surety company agent entering your Employer Identification Number (EIN) in the system *before* you apply for a bond. This is called “contractor initialization”.

If you are *not* associated with an agent when you log in, the system will return the screen displayed below.

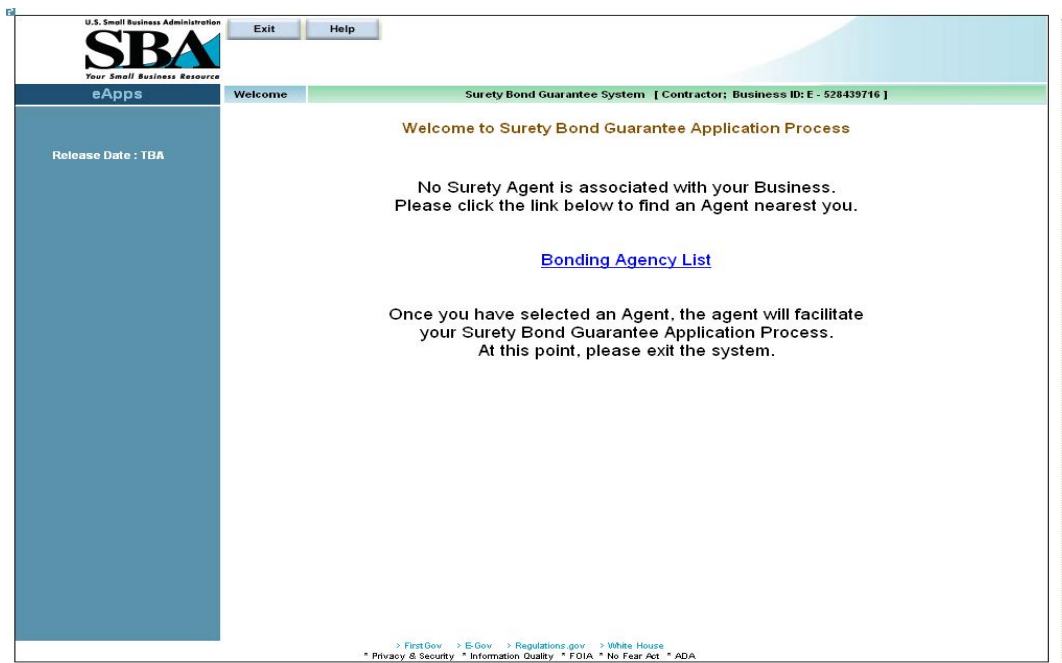

Figure 5 – Contractor that is not associated with a surety company agent.

Note: If needed, click on the link ([Bonding Agency List](#)) to locate and obtain contact information for a surety company agent. Once a surety company agent has agreed to work with the small business and apply for an SBA surety bond guarantee, the agent will then initialize you in the automated system. If you know the agent you wish to work with, you may contact the agent directly. (The Contractor Association process is covered in the Agent Users Manual.)

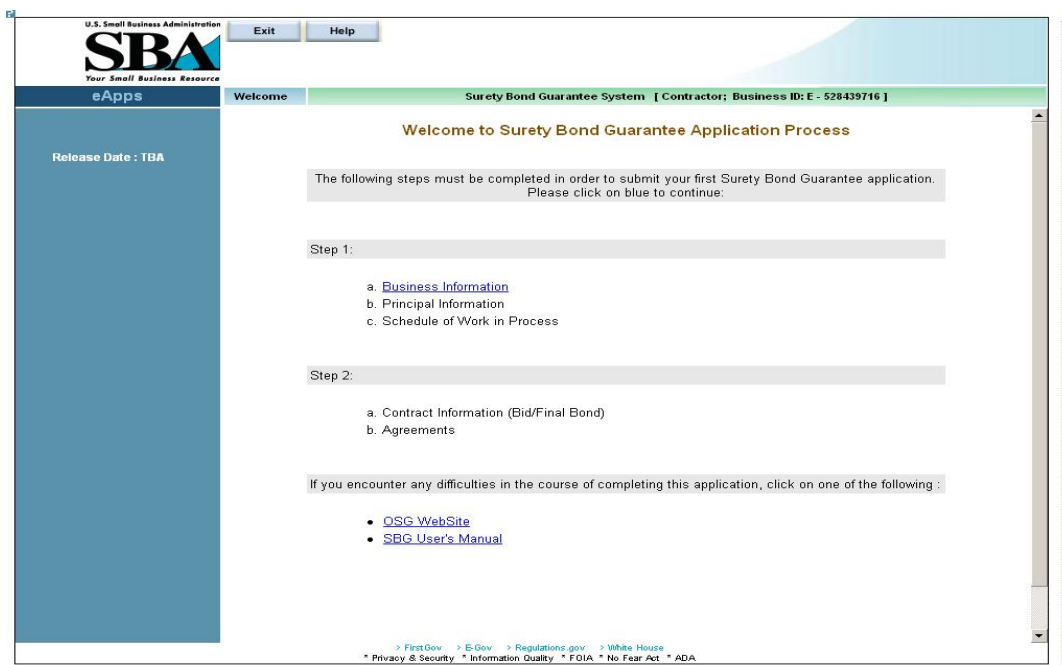

5 Contractor – Submitting the First Bond Once Initialized

After the contractor has been associated with an agent (initialization), the *Contractor Welcome* screen will display when you log in.

The *Contractor Welcome* screen guides you through the setup and submission of your business and *first* bond information and indicates which steps must be completed. Note: This screen will *not* appear for subsequent bond applications. If you have any difficulties in completing the application, access either of the following:

- OSG WebSite

 (SBG User's Manual)

To input your first application, you must complete the following:

Step 1

- Business Information
- Principal Information
- Schedule of Work in Progress

Step 2

- Contract Information (Bid/Final Bond)
- Agreements

Click on the *Business Information* hotlink to begin inputting your first application.

If you are inputting a subsequent application, you will need to complete the *Schedule of Work in Process* field, update the *Business Information* screen/the *Principal Information* screen (if any changes have occurred) and complete the steps in 2.

5.1 First Bond – Business Information

Use the *Business Information* screen to enter the requested business information which is required prior to entering your first bond application. You can update the information on this screen anytime if changes occur.
