Background and Purpose

Loran is a radionavigation system first developed during World War II and operated by the USCG. The current system (Loran-C) is a low frequency hyperbolic radionavigation system approved for use in the Coastal Confluence Zone (CCZ) and as a supplemental air navigation aid. Loran-C provides navigation, location, and timing services for both civil and military air, land, and marine users in the continental U.S. (CONUS) and Alaska. The USCG operates 18 CONUS Loran Stations, 6 Alaska Loran Stations, and 24 monitoring sites.

The Draft PEIS on the Future of the Loran-C Program is a program-level document designed to provide the USCG with high-level analysis of the potential impacts on the human environment from the alternatives for the future of the Loran-C Program. The Draft PEIS evaluates the following five alternatives on the future of the USCG Loran-C Program:

- (1) No Action Alternative. The No Action Alternative refers to the current, existing conditions without implementation of the Proposed Action.
- (2) Decommission the USCG Loran-C Program and Terminate the North American Loran-C Signal.
- (3) Automate, Secure, and Unstaff Loran-C Stations.
- (4) Automate, Secure, Unstaff, and Transfer Management of the Loran-C Program to Another Government Agency.
- (5) Automate, Secure, Unstaff, and Transfer Management of the Loran-C Program to Another Government Agency to Deploy an eLoran system.

The preferred alternatives include Automate, Secure, Unstaff, and Transfer Management of the Loran-C Program to Another Government Agency; or Automate, Secure, Unstaff, and Transfer Management of the Loran-C Program to Another Government Agency to Deploy an eLoran system. It is important to note that this draft PEIS does not obligate the

Coast Guard, DHS, or any other entity to undertake any specific course of action with respect to Loran.

We are requesting your comments on the environmental concerns that you may have related to the Draft PEIS. This includes suggested analyses and methodologies for use in the Draft PEIS or possible sources of data for information not included in the Draft PEIS. Your comments will be considered in preparing the final PEIS.

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, and the Office of the Assistant Secretary for Public and Indian Housing, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described in this notice pertains to supplemental information that housing providers participating in federally assisted housing, as defined in this notice, are required to give an individual or family applying for assisted housing the option to provide as part of their application for occupancy. The supplemental information would provide an individual or family applying for assistance under these programs with the option of including in the application for assistance the name, address, phone number, and other relevant information of a family member, friend, or person associated with a social, health, advocacy, or similar organization, who is familiar with and may assist with the services and special care needed by the individual or family, and assist in resolving any tenancy issues arising during the tenancy of such tenant. The supplemental information is to be maintained by the housing provider as confidential information. The housing

provider may not require the individual or family applying for occupancy to provide the information. The information collection pertaining to this supplemental information will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act of 1995. HUD is soliciting public comments on the subject proposal.

SUPPLEMENTARY INFORMATION:

I. Background

Section 644 of the Housing and Community Development Act of 1992 (42 U.S.C. 13604) imposed on HUD the obligation to require housing providers participating in federally assisted housing to provide any individual or family applying for occupancy in HUD-assisted housing with the option to include in the application for occupancy the name, address, telephone number, and other relevant information of a family member, friend, or person associated with a social, health, advocacy, or similar organization. The federally assisted housing programs covered by this notice are listed in the matrix that accompanies this notice.

The objective of providing such information, if the information is provided, and if the applicant becomes a tenant, is to facilitate contact by the housing provider with the person or organization identified by the tenant, to assist in providing any delivery of

services or special care to the tenant and assist with resolving any tenancy issues arising during the tenancy of such tenant. This supplemental application information is to be maintained by the housing provider and maintained as confidential information.

While this statutory requirement to notify applicants for occupancy in HUD-assisted housing of the option of providing such information is a long-standing one, HUD has discovered that applicants are not being consistently notified of the option to provide this information. Accordingly, HUD has determined that the best way to ensure that providers of federally assisted housing comply with this requirement is to require compliance through utilization of a standard form for housing providers to give to each applicant for occupancy that notifies them of their option to provide the information specified in section 644 of the Housing and Community Development Act of 1992, and provides for the information to be submitted. The standard form that HUD proposes for housing providers to use accompanies this notice.

II. Proposed Information Collection

To facilitate compliance with section 644 of the Housing and Community Development Act of 1992, HUD has

designed a form that housing providers are required to provide to each applicant for occupancy that (1) notifies an applicant of the applicant's option to provide the information specified in section 644 of the Housing and Community Development Act of 1992, (2) provides for the information to be submitted, and (3) advises of the confidentiality of the information included on the form. This notice provides a listing and description of that information, as well as a sample document (that is a sample of the document in which required information may be presented to HUD), and HUD is submitting the proposed information collection to OMB, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), and is seeking review as allowed by the Paperwork Reduction Act of 1995.

This notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to:

- (1) Evaluate whether the proposed collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond; including the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
