

Overview

Table 24

Property Stolen and Recovered, by Type and Value, 2007

- Throughout the Nation, over \$15 billion dollars of property was reported stolen in 2007. In terms of the dollar value of stolen property, 28.8 percent of the value of all reported stolen property was recovered.
- Locally stolen motor vehicles, i.e., those stolen within the jurisdiction of the law enforcement agency that submitted the report, accounted for over \$6.4 billion in stolen property.
- Of the types of property stolen, locally stolen motor vehicles had the highest percentage of property value recovered at 57.9 percent. Currency, notes, etc., had the lowest, with 3.4 percent of property value recovered.
