SECTION B
SUPPLIES OR SERVICES AND PRICES/COSTS

B.1. SCOPE OF CONTRACT

The Contractor shall receive and invest monies representing Thrift Savings Plan (TSP) cash flows in a manner consistent with the specifications, terms, and conditions set forth in Section C and set forth in the resultant contract; such monies shall be invested in the Contractor's daily-valued, commingled S&P 500 index fund.

B.2. BUSINESS PROPOSAL INSTRUCTIONS

- a. The Business Proposal will consist of those items set forth at L.5, page L-3 of this solicitation, and the Offeror's proposed price to perform the required services set forth in Section C of this solicitation.
- b. Offerors should evaluate all information provided in this solicitation, particularly in Section C, and submit their proposal based on the contract requirements.
- c. Because each proposed price will be evaluated to determine reasonableness, affordability, probable cost to the TSP, and understanding of the magnitude of the effort, each proposed price should be accurate, complete, and well documented. NO FEE INFORMATION IS TO BE INCLUDED IN THE TECHNICAL PROPOSAL. (But see B.3.c.2 below.)
- d. This solicitation requires the Offeror to submit a proposed price for the management of assets in a daily valued, commingled S&P 500 index fund.
- e. Proposed prices should apply to both the base contract period and the option period. Repricing during the option period is not possible.

B.3. CONTRACT PRICING

- a. Proposed prices must be consistent with the requirements of this section as well as Sections C, L, and M. All pricing must be expressed in basis points, and, except for trading

costs that are to be provided in response to the information request, Attachment 1 in Section J, must be included in this section.

- b. Once a proposal is accepted and a contract awarded, additions to the manner and amount of reimbursement for the contract work will not be considered. All proposed prices must include all costs (e.g., labor and material, overhead, and general and administrative expenses and fees) and ancillary charges such as custodian fees or fund enhancements. Pricing for reports or any other requirements must be included in the proposed pricing but may be separately priced.
- c. Specific information regarding proposed pricing which must be provided in order to be considered for award is as follows:

PRICING SCHEDULE
BASE CONTRACT AND OPTION PERIOD

1. Provide the fee or credit schedule, in basis points, for asset management, custody services, and securities lending, for the daily-valued, commingled S&P 500 index fund. The fee or credit schedule will apply to both the base contract period (January 2001 - December 2003) and the option period (January 2004 - December 2005).

i. Based on actual history for the proposed fund for the three years ending April 30, 2000, please state, in basis points:

A. the securities lending income generated by the fund and how much of such income was credited to the clients in the fund versus that retained by you; and

B. the custodian fees charged by the fund.

ii. State whether, under your proposal, there is any interaction between the level of management fees charged to the TSP, the portion of the securities lending income of the proposed fund that will be credited to the TSP, or the level of custodian fees that will be charged to the TSP. If not, state the following:

A. the schedule of management fees (in basis points) that would be charged on the assets under management;

B. the custodian fees (in basis points) that would be charged to the TSP on the amount of assets under management or the methodology by which the custodian fees would be charged; and

C. the portion of the securities lending income of the proposed fund that would be credited to the TSP versus that retained by you.

iii. If there is any interaction between the level of management fees that will be charged to the TSP, the portion of the securities lending income of the proposed fund that will be credited to the TSP, or the level of custodian fees that will be charged to the TSP, please explain such interactions in sufficient detail to enable us to calculate the level of management fees and custodian fees that would be charged to the TSP on \$60 billion of assets under management, as well as the level of securities lending income that the TSP will realize on \$60 billion of assets under management. Provide similar detail for amounts of \$70, \$80, \$90, and \$100 billion of assets under management.

2. List all separately priced charges, such as for reports or other services required in the Statement of Work (Section C). **(Trading costs will be evaluated as part of the technical proposal.)**

[END OF SECTION]

SECTION C
STATEMENT OF WORK

C.1. INTRODUCTION

- a. The Federal Retirement Thrift Investment Board (Board), created by the Federal Employees' Retirement System Act of 1986, administers the Thrift Savings Plan (TSP) for Federal employees. The TSP is a defined contribution plan similar to 401(k) plans in the private sector. As of April 30, 2000, there were over 2.4 million participants in the TSP, and TSP Fund Balances totaled \$96.9 billion.
- b. Currently, TSP participants may invest their contributions or account balance in any combination in three investment funds: the Government Securities Investment (G) Fund, \$31.6 billion; the Common Stock Index Investment (C) Fund, \$61.4 billion; or the Fixed Income Investment (F) Fund, \$3.9 billion. The TSP plans to make two additional investment funds available: the Small Capitalization Stock Index Investment (S) Fund that will track the Wilshire 4500 Stock Index; and the International Stock Index Investment (I) Fund that will track the Morgan Stanley Capital International Europe, Australasia and Far East (EAFE) Stock Index.
- c. As of April 30, 2000, the C Fund had 1.9 million participants. Monthly contributions to the C Fund for the 12 months ending April 30, 2000, averaged \$470.0 million. Although the C Fund receives contributions from Federal agencies on a daily basis, the contributions are not evenly spread throughout the month, due to the payroll cycles of the employing agencies that submit TSP contributions on behalf of their employees. Other significant cash flows are attributable to loans, withdrawals, and interfund transfers. For the 12 months ending April 30, 2000, loans out of the C Fund averaged \$79.4 million per month, withdrawals out of the C Fund averaged \$104.1 million per month, and interfund transfers averaged \$206.4 million per month (into or out of the C Fund; i.e., the average of the absolute values).
- d. In conjunction with the addition of the two new investment funds, the Board plans to convert the TSP from monthly valuation to daily valuation. Thus, at the commencement of performance under this contract, the C Fund assets will

be invested in a daily valued, commingled S&P 500 index fund managed by the Contractor, that accommodates daily cash flows into and out of the C Fund.

C.2. STATUTORY REQUIREMENTS

Title 5 of the United States Code, §§ 8438, 8477, and 8478, provides the major statutory requirements for TSP investments (see Attachment 2, Section J).

C.3. STATEMENT OF WORK

- a. Use of the term Contractor is intended to apply collectively to the investment manager and any subcontractors or other entities, regardless of affiliation with the manager, whom the manager may retain to provide the services described in this document, including custodian duties.
- b. To fulfill the requirements of this contract, the Contractor shall:
 1. Accept responsibility as a fiduciary pursuant to § 8477 of Title 5 of the United States Code for its acts or omissions in connection with the selection, purchase, investment, retention and disposition of C Fund assets. Handle all fiduciary responsibilities as required by law.
 2. Provide a daily-valued, commingled, S&P 500 index fund suitable for a tax-qualified plan that accommodates daily cash flows. The proposed S&P 500 index fund must use a full replication construction technique, as opposed to a stratified sampling or optimization approach.
 3. Execute trades efficiently. Minimize trading costs and, upon request, provide an explanation of transactions incurring trading costs above S&P 500 index average trading costs.
 4. Achieve, on a time-weighted basis, investment performance that closely tracks that of the S&P 500 index, as measured and published by Standard and Poor's. The Board will monitor tracking performance on a monthly basis.

5. Receive (or disburse) by wire transfer, and invest (or disinvest) TSP cash flows from (or to) the Board and any Board asset manager(s) as frequently as daily, subject to the discretion of the Board. Cash flows should be invested as soon as feasible in common stocks, substantially in the market capitalization weight each stock represents in the S&P 500 index. Between the time cash flows are received by the Contractor and invested in securities in the S&P 500 index, or otherwise to provide adequate liquidity for the proposed fund, the funds may be invested in S&P 500 index futures contracts, or in secure, high quality, short-term, fixed-income securities (the cash account). References in this Contract to the C Fund are intended to include the TSP's share of fund units, investments in futures contracts, and the cash account.

6. Provide a daily trade notification deadline that is no earlier than 2:00 p.m. eastern time, with settlement the next business day. Provide pre-notification trading so that TSP purchases and sales are priced at the closing prices of the common stocks in the S&P 500 index on the trade date.

7. Maximize earnings on the cash account subject to prudent investment practices for short-term funds.

8. Remit, as frequently as daily, by wire transfer per the Board's instructions, to the Board's account or to any Board asset manager's account, any and all amounts requested to cover TSP cash flow requirements.

9. Provide earliest crediting of all cash inflows and latest debiting of all outflows.

10. Provide through an electronic data file in the format provided by the Board, to the TSP record keeper on each business day, the TSP's share of the proposed fund's total net earnings, in dollars, for that business day. Total net earnings include capital gain or loss (net of trading costs), dividend income, securities lending income, any income from the cash account, or any other income. The daily earnings figures are to be transmitted as soon as available each business day but no later than 6:00 p.m. eastern time. Establish procedures for notification of the Board and the TSP record keeper if the earnings figures are not transmitted by 6:00 p.m. eastern time. (In advance of

receipt of the initial TSP funds, the Contractor must participate in testing of the process for transmission of the electronic data file containing the daily earnings. Such testing may include earnings for the offered fund based on hypothetical balances provided by the Board, and provision of any technical assistance required to establish the electronic data link with the Board's record keeping system.)

11. Provide, no later than the next business day after each trade date, transaction summary reports detailing each trade, including number of units purchased, unit value, and trading costs, and also showing dividends and other income credited since the last trade date. Provide timely and accurate monthly reports summarizing the status (including detail of assets held), performance and transactions (including realized loss/gain amounts on sales) of the C Fund. Reports will include an explanation of tracking error. Provide a monthly report on terms of new investments made with securities lending collateral. Provide all such reports electronically to the extent and in the format required by the Board. Provide special written or oral reports to the Contracting Officer's Technical Representative upon request at any time during the contract.

12. Provide detailed bills covering management fees, custodian fees, and any other fees.

13. Vote all proxies and address all corporate actions in a manner which will result in maximum financial benefits to TSP participants and in accordance with fiduciary responsibilities. Provide the Board with a statement of proxy voting policies and periodic reports explaining any votes that are exceptions to stated policies. Provide updates as policies are revised.

14. Provide an established securities lending program for the proposed fund. Provide the Board with securities lending policies and investment policies for collateral associated with securities lending. Provide updates as policies are revised.

15. Provide information on any insurance policies that protect the TSP against loss resulting from violations of fiduciary duty or errors and omissions. Provide information

demonstrating compliance with the bonding requirements of §8478 of Title 5 of the United States Code.

16. Accept the in-kind transfer of assets from the prior contractor into the proposed fund at a minimal cost to the TSP.

17. Transfer in-kind the assets of the C Fund to a separate or another commingled account on the books of the Contractor or to a separate or commingled account with another contractor at the request of the Board, upon 30 days' written notice.

18. Provide Board staff access to senior investment personnel.

19. Provide the Board's auditor or its contractor(s) access to the firm's personnel, operations and records to perform the Board's annual financial audit and semiannual financial reviews. This includes providing direct confirmations requested by the independent auditor, audited financial statements, and other documents such as audit reports on internal controls.

20. Provide the Department of Labor, or its contractor(s), access to the firm's personnel, operations, and records to perform fiduciary compliance audits(s).

21. Obtain from the Department of Labor any required exemptions from prohibited transaction restrictions contained in the Federal Employees' Retirement System Act of 1986, without charge to the TSP.

SECTION F
DELIVERIES OR PERFORMANCE

F.1. BASE PERIOD OF PERFORMANCE

The base period of performance of this contract is from January 1, 2001 through December 31, 2003.

- b. In order for the Contracting Officer to exercise the option, he or she must give written notice to the Contractor of the Board's intention to exercise the option at least 30 calendar days prior to the expiration date of the contract. In the event that the Board exercises the option, all terms and conditions of this contract shall remain unchanged.

SECTION J, ATTACHMENT 1
INFORMATION REQUEST

The information requested below is required to evaluate prospective investment managers/custodians to manage a daily-valued, commingled S&P 500 index fund for the TSP. Provide specific and detailed responses to each item in the same order as requested. Provide responses, as applicable, pertaining to the primary contractor and any subcontractor. If information is not provided for an item, it will not receive points in the relevant category.

I. Experience/Organization

- C.
 - 1. Provide the number of years managing equity index funds.
 - 2. Provide the number of years performing custodian services.
 - 3. Provide the number of years managing S&P 500 index funds.
- D.
 - 1. List any person or organization with greater than a two percent share of ownership in your firm.
 - 2. List all firms or organizations affiliated with your firm.
 - 3. If any of the entities listed in I.D.2 are engaged in investment banking, securities broker-dealer operations, or custodian services, describe the relationship with your firm. - E. For the following categories of assets under management, provide the size (in dollars) and number of

accounts for each year from 1990-1999 (as of December 31), and as of April 30, 2000:

1. Proposed commingled daily-valued S&P 500 index fund. (For purposes of sections I and II of this information request, if you plan to provide a "modular" or "tiered" structure (where the TSP owns shares of a commingled fund that owns shares of other commingled fund(s)), the "proposed fund" may be defined to include not only the actual fund in which the TSP owns shares, but also the level of fund(s) at which the TSP cash flows may be accommodated by cost-free exchange of shares with clients whose cash is flowing in the opposite direction, without the need for exemptive relief from the Department of Labor (whether individual or pursuant to the Proposed Class Exemption for Cross-trades of Securities by Index and Model-Driven Funds, published in the Federal Register on December 15, 1999, assuming its finalization in substantially the same form as the proposal). In any event, the "proposed fund", its structure, and its relationship to any component fund(s) or to the actual fund in which the TSP will own shares, must be fully described in your response. Please also include in your response the size of any component funds of the "proposed fund," as well as the size of the actual fund in which the C Fund will own shares, if different from the "proposed fund".
2. (G) For purposes of paragraph (3)(C)(ii), fiduciary includes only the Members of the Board and the Board's Executive Director.

(5) Any relief awarded against a Member of the Board or the Executive Director of the Board in a civil action authorized by paragraph (3) may not include any monetary damages or any other recovery of money.

(B) 3 years after the earliest date on which the plaintiff had actual knowledge of the breach or violation, except that, in the case of fraud or concealment, such action may be commenced not later than 6 years after the date of discovery of such breach or violation.

(7) (A) The district courts of the United States shall have exclusive jurisdiction of civil actions under this subsection.

(B) An action under this subsection may be brought in the District Court of the United States for the District of Columbia or a district court of the United States in the district where the breach alleged in the complaint or petition filed in the action took place or in the district where a defendant resides or may be found. (iii) the deposits of the bank or financial institution are not insured by the Federal Deposit Insurance Corporation,

such exception shall apply to such bank or financial institution only if the bank or institution meets bonding requirements under State law which the Secretary of Labor determines are at least equivalent to those imposed on banks by Federal law.

(b) (1) The Secretary of Labor shall prescribe the amount of a bond under this section at the beginning of each fiscal year. Except as otherwise provided in this paragraph, such amount shall not be less than 10 percent of the amount of funds handled. In no case shall such bond be less than \$1,000 nor more than \$500,000, except that the Secretary of Labor, after due notice and opportunity for hearing to all interested parties, and other consideration of the record, may prescribe an amount in excess of \$500,000.

(2) For the purpose of prescribing the amount of a bond under paragraph (1), the amount of funds handled shall be determined by reference to the amount of the funds handled by the person, group, or class to be covered by such bond or by their predecessor or predecessors, if any, during the preceding fiscal year, or to the amount

of funds to be handled during the current fiscal year by such person, group, or class, estimated as provided in regulations prescribed by the Secretary of Labor.

- (d) (1) It shall be unlawful for any person to whom subsection (a) applies, to receive, handle, disburse, or otherwise exercise custody or control of any of the funds or other property of the Thrift Savings Fund without being bonded as required by this section.
- (2) It shall be unlawful for any fiduciary, or any other person having authority to direct the performance of functions described in paragraph (1), to permit any such function to be performed by any person to whom subsection (a) applies unless such person has met the requirements of such subsection.
- (e) Notwithstanding any other provision of law, any person who is required to be bonded as provided in subsection (a) shall be exempt from any other provision of law which would, but for this subsection, require such person to be bonded for the handling of the funds or other property of the Thrift Savings Fund.
- (f) The Secretary of Labor shall prescribe such regulations as may be necessary to carry out the provisions of this section, including exempting a person or class of persons from the requirements of this section.

This restriction does not limit the Board's right to use the information contained in the data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets _____.

SECTION M
EVALUATION FACTORS FOR AWARD

M.1. INTRODUCTION

This section sets forth the criteria to be used for the evaluation of all offers. These criteria will be applied to each offer to determine the successful Offeror. The evaluation process is described below.

M.2. EVALUATION OF OFFERS

The Board will select an Offeror for award in accordance with the guidance in FAR Part 15, the Board's Source Evaluation and Selection Procedures, and the terms of this solicitation. The following specific events will occur in the evaluation process:

- Step 1. The Board will review all proposals for compliance with the requirements of this solicitation document. Those proposals which do not conform, other than for minor irregularities, will not be given further consideration for award of a contract.
- Step 2. The Board's Technical Evaluation Panel will evaluate all technical proposals for compliance with the requirements of Clause M.4, "Minimum Technical Qualifications." Those proposals which do not conform to the requirements of Clause M.4 will not be given further consideration for award of a contract.
- Step 3. The Board's Technical Evaluation Panel will conduct a technical evaluation of all proposals which meet the requirements of Clause M.4 and which are not otherwise disqualified from consideration for award of a contract.
- Step 4. The Board will evaluate cost/pricing proposals in accordance with Sections B, L, and M.
- Step 5. The Board will consider the technical and cost/price evaluations of all rated proposals in order to determine that Offeror which proposes the best value in terms of lowest cost, superior service, or both.

Step 6. The Board will evaluate the responsibility of the apparent successful Offeror in light of the factors set forth in FAR Part 9.

M.3. EVALUATION FACTORS FOR AWARD

- a. The Board will make award to that responsible Offeror whose offer conforms to the solicitation and is most advantageous to the Board, cost or price and other factors considered.
- b. For this solicitation, technical quality is more important than cost. An evaluation of each offer will be made in the technical area, and if technically acceptable, in the cost area. The technical evaluation carries a 60% weight towards contract award, and the cost/price evaluation carries a 40% weight. A final cost/price score will be developed by combining the final technical evaluation and cost/price scores.

M.4. MINIMUM TECHNICAL QUALIFICATIONS

- a. The Technical Proposal must demonstrate compliance with the minimum technical factors listed below in order to be considered for award. Proposals which do not conform to the requirements of this clause will be rejected by the Technical Evaluation Panel prior to technical evaluation.
- b. All Offerors must demonstrate compliance with the following:
 1. The Offeror must comply with the statutory requirements specified in §§ 8438 and 8478 of Title 5 of the United States Code and must agree to serve as a fiduciary of the Thrift Savings Fund, as defined in § 8477 of Title 5, with respect to all assets of the Fund under management or custody.
 2. The Offeror must be a "qualified professional asset manager" as defined in § 8438 of Title 5 of the United States Code.
 3. The Offeror must provide a commingled, daily-valued S&P 500 index fund suitable for a tax-qualified plan.
 4. The proposed fund must have a minimum of \$55 billion (market value as of June 30, 2000) in assets under management. (See Section J, Attachment 1, paragraph I.E.1 for a discussion of modular or tiered structure as it applies to the size of the proposed fund. That

discussion applies to the minimum size requirement as well). The proposed commingled fund must have been in operation for a minimum of 3 years.

5. The offered fund must be designed to replicate the S&P 500 index.
6. The offered fund must provide a securities lending program.
7. The offered fund must accept trades each business day, on a pre-notification trade basis (i.e., trade executed at closing stock prices on the trade date), with an investment notification deadline no earlier than 2:00 p.m., eastern time. The offered fund must accept funds to cover purchases one business day after the trade date and must wire redemption proceeds one business day after the trade date.
8. The Offeror must provide, through an electronic data file in the format provided by the Board, to the TSP record keeper on each business day the TSP's share of total earnings, in dollars, for that business day. Total earnings include capital gain or loss (net of trading costs), dividend income, securities lending income, and any income from the cash account. The daily earnings are to be transmitted as soon as available each business day, but no later than 6:00 p.m. eastern time. The offeror must also provide other required information, transaction summary reports, monthly transaction reports, and monthly performance reports in a timely manner.
9. The Offeror must provide the Board with its established proxy voting policies and agree to submit reports to the Board explaining any exceptions to those policies during the term of the contract.

M.5. TECHNICAL EVALUATION

Upon determining Offeror compliance with the minimal technical criteria identified in paragraph M.4 above, the technical evaluation panel will evaluate those proposals for technical compliance with the requirements of this solicitation document. The evaluation will be consistent with the evaluation criteria identified below:

1. Organizational Experience - 10 points

- a. Qualifications of portfolio managers, administrative account servicing, and other investment personnel.
- b. Size, growth, and longevity of proposed fund.
- 2. Trading - 30 points
 - d. Demonstrated ability and opportunity to minimize trading costs.
- 3. Tracking of the S&P 500 Index - 10 points
- 4. Fiduciary and Administrative Competence - 10 points
 - a. Ability to carry out fiduciary responsibilities.
 - b. Quality of securities lending program.
 - c. Comprehensiveness of proxy voting policies.
 - d. Ability to provide timely and accurate reports containing the required information.

M.6. COST/PRICE EVALUATION

- a. The Board will analyze all technically acceptable proposals to determine the price of each proposal. The Board anticipates assigning 40 points to the price proposal evaluation.
- b. The Board will use the information submitted in Section B.3 to determine the proposal with the lowest net fees (defined as management fees plus custodian fees less securities lending income) at each asset level and will assign lower point scores to those proposals with higher net fees at each level, in accordance with the following schedule:

<u>Net Fees On</u>	<u>Point Allocation</u>
First \$60 billion	25 points
Above \$60 billion	15 points

- c. Cost evaluation points are attributed to each Offerors' net fees as follows: The lowest Offeror receives maximum points for each category. For every basis point above the lowest net fee at each asset level, the corresponding score is reduced 3 points (incremental increases of less than one basis point reduce the score proportionately, e.g., a .5

basis point increase in fees results in a 1.5 point reduction in score).

- d. The technical points earned as a result of the evaluation in M.5 will be added to the results of the M.6 evaluation, rendering a total score for each proposal.

M.7. AWARD

- a. While the total score will be an important factor in contract award selection, the Board will award any contract resulting from this solicitation to that Offeror presenting the most advantageous offer to the Board, all factors considered.
- b. The Board may reject any or all offers, accept other than the offer proposing the lowest management fees, and waive informalities and minor irregularities in offers received.
- c. The Board may award a contract on the basis of initial offers received, without discussions. Therefore, each initial offer should contain the Offeror's best terms from a price and technical standpoint.

M.8. TIME OF AWARD

The Board expects to make an award by October 2000 to allow the selected Offeror to conduct system tests associated with the new Thrift Savings Plan (TSP) record keeping system prior to initiating fund management on January 1, 2001.
