## www.agmd.gov

The SCAQMD is required by state law, the California Environmental Quality Act (CEQA), to review discretionary permit project applications for potential air quality and other environmental impacts. This form is a screening tool to assist the SCAQMD in clarifying whether or not the project¹ has the potential to generate significant adverse environmental impacts that might require preparation of a CEQA document [CEQA Guidelines §15060(a)].² Refer to the attached instructions for guidance in completing this form.³ For each Form 400-A application, also complete and submit one Form 400-CEQA. If submitting multiple Form 400-A applications for the same project at the same time, only one 400-CEQA form is necessary for the entire project. If you need assistance completing this form, contact Lori Inga at (909) 396-3109.

FACILITY INFORMATION										
Busine	ss Name o	f Operator	to Appear on the Permit:	Facility ID (6-Digit):						
Project	Descriptio	n:		<u> </u>						
Troject Description										
REVIEW FOR EXEMPTION FROM FURTHER CEQA ACTION										
Check '	heck "Yes" or "No" as applicable									
	Yes	No	Is this application for:							
A.			A CEQA and/or NEPA document previously or currently prepared that specifically evaluates this project? If yes, a permit cannot be issued until a Final CEQA document and Notice of Determination is submitted.							
B.			A request for a change of permittee only (without equipment modifications)?							
C.			Equipment certification or equipment registration (qualifies for Rule 222)?							
D.			A functionally identical permit unit replacement with no increase in rating or emissions?							
E.			A change of daily VOC permit limit to a monthly VOC permit limit?							
F.			Equipment damaged as a result of a disaster during state of emergency?							
G.			A Title V (i.e., Regulation XXX) permit renewal (without equipment modifications)?							
H.			A Title V administrative permit revision?							
l.			The conversion of an existing permit into an initial Title V permit?							
If "Yes" is checked for any question above, your application does not require additional evaluation for CEQA applicability. Skip to page 2, "SIGNATURES" and sign and date this form.										
REVIEW OF IMPACTS WHICH MAY TRIGGER CEQA										
Complete Sections I-VI by checking "Yes" or "No" as applicable. To avoid delays in processing your application(s), explain all "Yes" responses on a separate sheet and attach it to this form.										
Yes No Section I – General										
1.			Has this project generated any known public controversy regard generated by the project?	ling potential adverse impacts that may be						
			Controversy may be construed as concerns raised by local groups at public m newspapers or other periodical publications, local news programs, environme							
2.			Is this project part of a larger project?							
,			Section II – Air Quality							
3.			Will there be any demolition, excavating, and/or grading constru 20,000 square feet?	ction activities that encompass an area exceeding						
4.			Does this project include the open outdoor storage of dry bulk s include a plot plan with the application package.	olid materials that could generate dust? If Yes,						

<sup>&</sup>lt;sup>1</sup> A "project" means the whole of an action which has a potential for resulting in physical change to the environment, including construction activities, clearing or grading of land, improvements to existing structures, and activities or equipment involving the issuance of a permit. For example, a project might include installation of a new, or modification of an existing internal combustion engine, dry-cleaning facility, boiler, gas turbine, spray coating booth, solvent cleaning tank, etc.

	Yes	No							
5.			Would this project result in noticeable off-site odors from activities that may not be subject to SCAQMD permit requirements?						
			For example, compost materials or other types of greenwaste (i.e., lawn clippings, tree trimmings, etc.) have the potential to complaints subject to Rule 402 – Nuisance.						
6.			Does this project cause an increase of emissions from marine vessels, trains and/or airplanes?						
7.			Will the proposed project increase the QUANTITY of hazardous materials stored aboveground onsite or transported by mobile vehicle to or from the site by greater than or equal to the amounts associated with each compound on the attached Table 1? <sup>4</sup>						
			Section III – Water Resources						
8.			Will the project increase demand for water a The following examples identify some, but not all, typ generate steam; 2) projects that use water as part of production process; 4) projects that require new or ex exceeds the capacity of the local water purveyor to si existing water supply facilities.	es of proje the air poll xpansion o	cts that may result ution control equip f existing sewage t	t in a "yes" answer to this questio oment; 3) projects that require wa treatment facilities; 5) projects wh	n: 1) projects that ter as part of the nere water demand		
9.			Will the project require construction of new water conveyance infrastructure?  Examples of such projects are when water demands exceed the capacity of the local water purveyor to supply sufficient water for the project, or require new or modified sewage treatment facilities such that the project requires new water lines, sewage lines, sewage hook-ups, etc.						
			Section IV – Transportation/Circulation						
10.			Will the project result in (Check all that apply):						
			a. the need for more than 350 new employees?						
			b. an increase in heavy-duty transport truck traffic to and/or from the facility by more than 350 truck round-trips per day?						
			c. increase customer traffic by more than 700 visits per day?						
			Section V – Noise						
11.			Will the project include equipment that will g	generate	noise GREATE	R THAN 90 decibels (dB) at	the property line?		
			Section VI – Public Services						
12.	12.		Will the project create a permanent need for new or additional public services in any of the following areas (Check all that apply):						
			a. Solid waste disposal? Check "No" if the projected potential amount of wastes generated by the project is less than five tons per day.						
			<b>b. Hazardous waste disposal?</b> Check "No" if the projected potential amount of hazardous wastes generated by the project is less than 42 cubic yards per day (or equivalent in pounds).						
**REMINDER: For each "Yes" checked in the sections above, attach all pertinent information including but not limited to estimated quantities, volumes, weights, etc.**
