

## **Shasta Dam Access Permit**

To All Shasta-Chappie OHV Area Users:

The Shasta-Chappie OHV area has been reopened; you will be allowed to drive across Shasta Dam for access to the area by first producing a valid driver's license and subjecting your vehicle, any trailer(s), their contents, and all vehicle occupants, to a security inspection.

The Bureau of Reclamation will resume issuing crossing permits later in 2009, after which a valid permit will be required to cross Shasta Dam. You must apply for a new crossing permit if your existing permit has expired. The permit process takes approximately one week, and will be valid for a period of one year following the issue date.

Please regularly monitor this website for updated information. Reclamation reserves the right to revoke access across Shasta Dam in the event that security requirements are modified, or if persons requesting access fail to comply with security provisions.

For more information contact Ron Kingsley, Security Manager, at 530-276-2026.

Thank you for your cooperation.
