Subject: Legacy Loans Program

Input/Answers to some questions posed on the Legacy Loan Program :

- I believe that all types of bad debt should be available for this program, not just real estate, as this will also open up the availability to investors who specialize in buying different types of debt such as consumer loans, credit card charge offs, etc.
- Yes, I do believe that investors should be able to sell their interests in the PPIF but only to other qualified investors.
- No reason the investors' identities should not be made public.
- To encourage the broad and diverse range of investment participation, smaller pools as low as \$1-2 million face value, should be made available, and a variety of types of debt should also be made available through this program.
- The online, sealed bid process, I believe, would be the best for attracting the broadest investor participation. I believe the pools should be divided up to location and/or types of loans so that smaller investors can participate.

Thank you for your consideration,
