

IMPROVEMENTS TO ATTORNEY AND AGENT ROSTER INFORMATION

Several improvements will occur with regard to the information available on the Attorney and Agent Roster. The improvements will affect both the content and the searches. These changes will take place on or about July 31, 2006.

Several functions are now available from the OED web page. These include a comprehensive search, where specific fields may be searched; a geographic region search, where information has been separated and collected into specific geographic regions such as states; and a zip file (attorney.zip), a delimited file of the entire roster, is also available for download. The zip file of the entire roster contains results derived from data that is extracted nightly from the roster database. In addition, a count of active registered patent agents and active registered patent attorneys is posted. See Figure 1.

To Search for Patent Attorneys and Agents by Last Name:

The comprehensive search is conducted against live data, and allows searches by specific data fields such as Last Name, First Name, Middle, Name, Business/Firm Name, City, State/Province, Postal Code, Country and Registration Number. The user is able to designate how specific or broad the search results will be by use of the “Exact match” and “Starts with” radio buttons. See Figure 1.
