

Angostura Reservoir Resource Management Plan Objectives

Land Use Management (LUM)

- Objective LUM 1.1: Develop and implement a Grazing Plan and use as a management tool.
- Objective LUM 1.2: Ensure protection of the public facilities, and public resource values on Reclamation lands and alleviate conflicts with adjacent lands.
- Objective LUM 1.3: Develop and implement a Fire Management plan to address public safety related concerns, as well as efforts that would enhance the natural resource values of the land.
- Objective LUM 1.4: Review and address boundary related issues such as but not limited to resource damage, trespass, encroachment, and erosion.
- Objective LUM 1.5: Ensure that design and location of all new facilities, structures, roads, and trails on Reclamation lands maximize compatibility and integration with the open, rural, and natural resource environment and historic landscape of area.

Natural Resources (NAT)

- Objective NAT 1.1: Provide hunting and fishing opportunities consistent with GF&P mission/management and continue to provide access for hunting and fishing as per state rules and regulations.
- Objective NAT 1.2: Protect and enhance fisheries and wildlife habitat.
- Objective NAT 1.3: Minimize the potential for pollutants to enter the Angostura Reservoir and its tributaries from Reclamation lands.
- Objective NAT 1.4: Manage habitat to protect waterfowl and other migratory birds including shoreline areas.
- Objective NAT 1.5: Protect, enhance, and/or restore wetland and riparian habitats in accordance with existing Federal policies and regulations and consistent with RMP.
- Objective NAT 1.6: Protect and enhance the quality of the fishery at Angostura Reservoir.
- Objective NAT 1.7: Enhance shoreline fishing opportunities and associated parking.
- Objective NAT 1.8: Manage State and Federally listed rare, threatened or endangered, and designated species of special concern.
- Objective NAT 1.9: Protect and enhance resource values of and for native species (plants and animals) in areas or on portions of land exhibiting mainly high quality habitat (where native vegetation is dominant).

Objective NAT 1.10: Where feasible conserve and restore areas of native vegetation on portions of land exhibiting mainly non-native vegetation.

Objective NAT 1.11: Control soil erosion in priority areas where it causes concern for water quality and damage to resources and facilities.

Objective NAT 1.12: Implement Integrated Pest Management Plan (IPM) to treat and reduce the spread of invasive species through a variety of methods.

Objective NAT 1.13: Provide opportunities for public education on area history, natural and paleontological resources including the importance of, and requirements for, protecting these resources.

Recreation and Access (REC)

Objective REC 1.1: Provide quality camping opportunities by improving and/or expanding existing sites and developing new sites.

Objective REC 1.2: Provide quality day use sites and facilities to meet increasing demands while providing a buffer from adjacent uses (e.g. campgrounds).

Objective REC 1.3: Improve boat launch ramps and reduce peak period congestion.

Objective REC 1.4: Reduce conflicts between motorized and non-motorized water crafts.

Objective REC 1.5: Achieve needed enforcement of rules and regulations, and protection of public health and safety.

Objective REC 1.6: Administer agreements, contracts, and permits according to Federal, State, and local laws, rules, and regulations.

Objective REC 1.7: Using Reclamation's sign manual develop clear, consistent signage to guide public access to and the use of Reclamation lands.

Objective REC 1.8: Provide adequate sanitation and waste management facilities in compliance with federal, state and local regulations to protect water quality.

Objective REC 1.9: Implement ADA design standards for any new structures and retrofit.

Objective REC 1.10: Provide adequate shoreline and water-based facilities to support the demand for boating and other water-based uses.

Objective REC 1.11: Provide expanded opportunities for hiking, bicycling, and trails around Angostura Reservoir.

Objective REC 1.12: Maximize current and future recreation opportunities through development and implementation of a plan to address potential recreational carrying capacity related issues while limiting impacts to natural and cultural resources.

Cultural Resources (CR)

Objective CR 1.1: In accordance with Section 106 of the National Historic Preservation Act (NHPA) seek to protect National Register-eligible sites from impacts from new undertakings.

Objective CR 1.2: In accordance with Section 110 of NHPA, implement proactive management of cultural resources focusing on protecting identified resources from damage.

Objective CR 1.3: Provide interpretive information at public access areas.

Objective CR 1.4: Protect Indian Trust Assets and Traditional Cultural Properties that may exist.
