Phone #: 6-4329
Email Address: allison.witt@mail.house.gov

 Member's Signature
 Member of Congress

Project Information

Name of Project: Beryllium Supply Industrial Base

Project Description: The project will ensure the establishment of a domestic primary production capability for beryllium metal to meet essential national security requirements. In November, 2005, a contract was let through the DPA, Title III program to perform the engineering design of a new primary beryllium facility. Phase I engineering design is now complete and the Phase 2 construction contract was let in June 2008. Construction began with groundbreaking in July, 2008. Plant start-up is scheduled for 2010 and full production in 2011. This funding will allow purchasing and installation of major equipment assuring continuation of the construction phase of the contract.
