1. PAYETTE FOREST FIRE MANAGEMENT ORGANIZATION

The Payette National Forest Fire Staff consists of a Fire Management Staff Officer, a Deputy Fire Staff Officer, a Fuels Specialist, a Fire Planner, a Smokejumper Unit Manager, and a Dispatch Center Manager.

The Payette National Forest is divided geographically into three fire zones (see Figure 1). The West Zone consists of the Weiser and Council Ranger Districts. The Central Zone includes the New Meadows Ranger District and the non-wilderness portion of the McCall Ranger District. The East Zone is formed by the Krassel Ranger District and the wilderness portion of the McCall Ranger District.

A Fire Management Officer heads each suppression zone. An Assistant Fire Management Officer and a Fire Operations Specialist are assigned to each ranger district.

Figure 1: Payette National Forest Fire Management Zones

Dispatch response areas, run cards, fire management roles and responsibilities, and dispatch procedures were reevaluated after the conclusion of the 2007 fire season. The necessary adjustments were formulated and adopted before the beginning of the 2008 fire season. Figure 2 shows the Response Zones of the Payette National Forest.

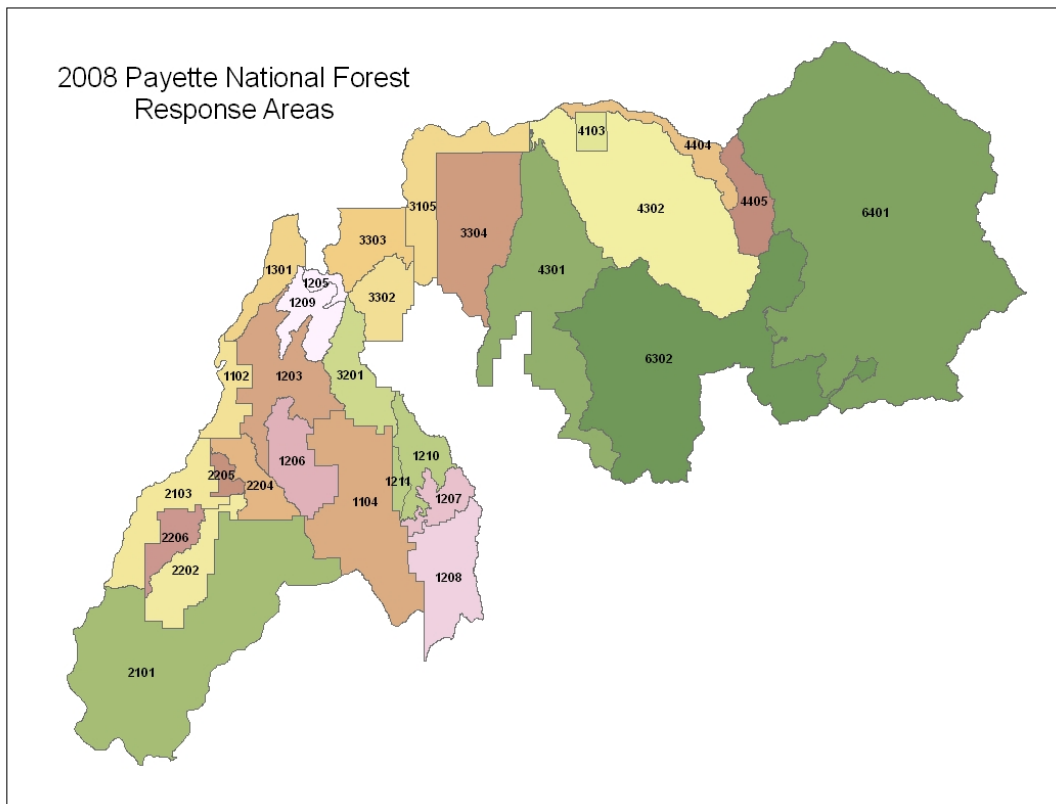

Figure 2: Payette National Forest Response Zones

2. FIRE SEASON HIGHLIGHTS

The 2008 fire season was dramatically different than the 2006 and 2007 fire seasons. It was pre-empted with a highly precipitous winter, with snow totals and ground accumulations at their highest levels since 1975 at the McCall, ID weather station. Precipitation in McCall, ID was 101% of normal during the 2007 / 2008 water year (see Figure 3), but the region is still in a protracted drought. Fire activity was well below average. Table 1 summarizes the fire activity for 2008. In 2008, a total of 11,734.36 acres burned compared to the 20-year average of 56,205 acres. The total number of fires was 75, almost half of the 20-year average of 147. Figure 4 shows the comparison of 2008 and the 20-year average by fire cause breakdown.

2008 Payette N.F. Fire Activity

Cause	# Of Fires	Acres
Human	36	5,659.40
Lightning	39	6,074.96
Total	75	11,734.36

Table 1: Summary of fire activity

Figure 3. McCall 2007/2008 Water Year

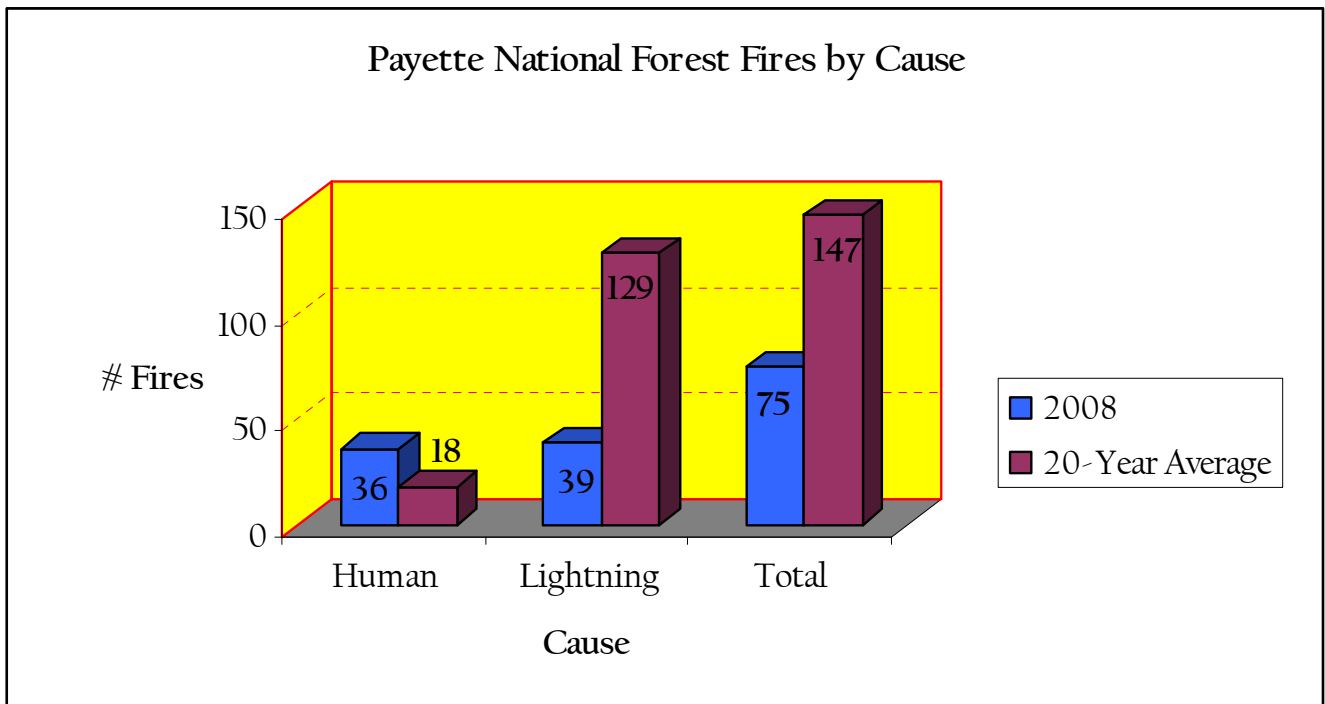

Figure 4. Fires by Cause. 20 Year Average includes years 1988-2007

The ERC's and 1000-hr fuel moisture indices were very representative of the of the fire activity of the 2008 season with values scattered around the average line. Figure 5 and Figure 6 show the trend of the ERC's and 1000-hr fuel moistures that were calculated for the season.

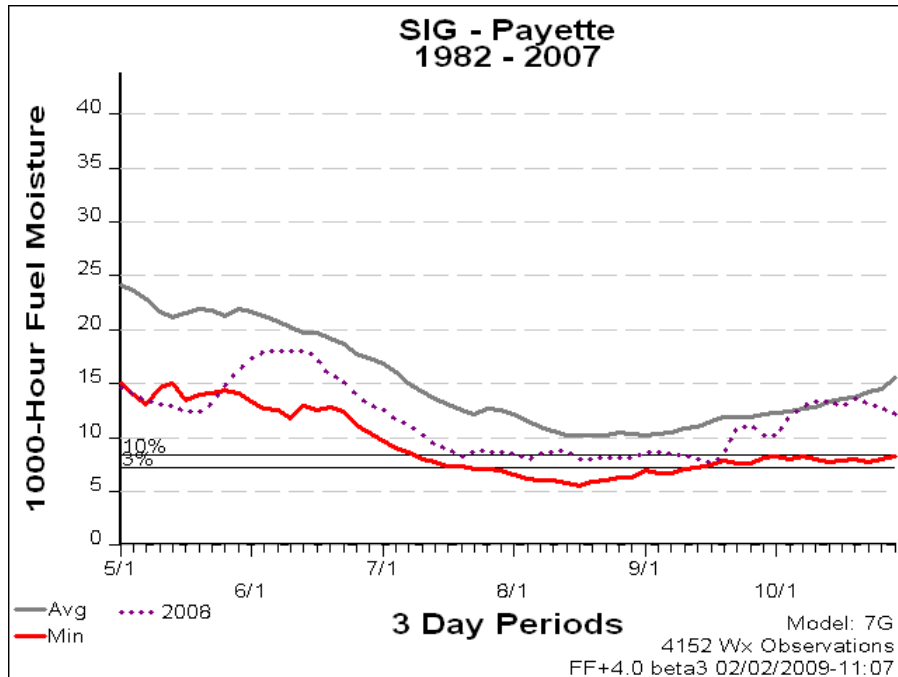

Figure 5: 1000-hr Fuel Moisture trend lines. 1982-2008 are the years that data is available for all of the Payette RAWS.

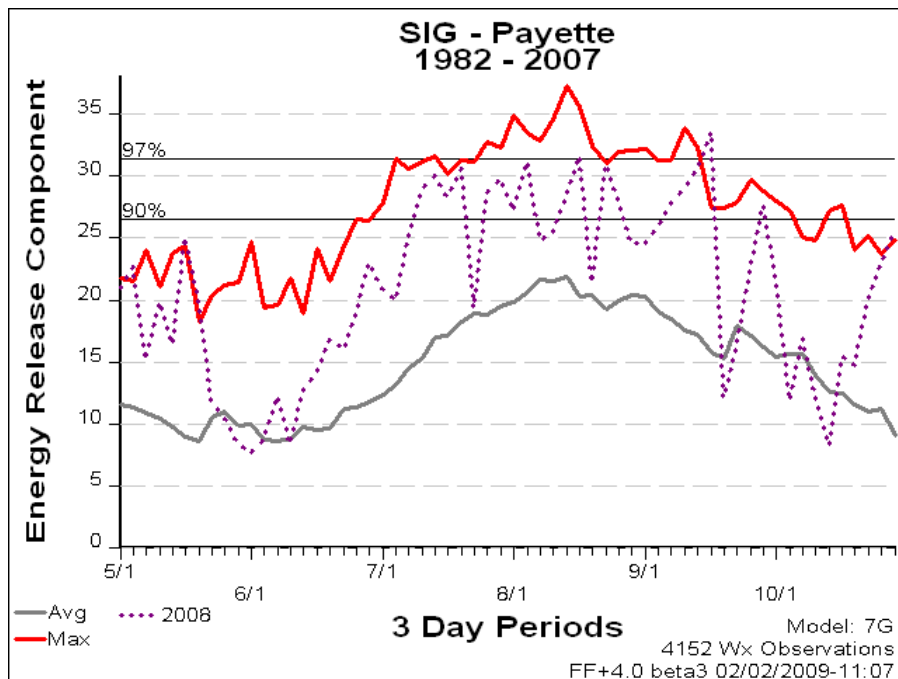

Figure 6: ERC Trend Lines. 1982-2008 are the years that data is available for all of the Payette RAWS.

Fires Exceeding Local Suppression Efforts

The human-caused Cabin Creek fire ignited on July 30, 2008. Surpassing initial attack efforts, district management decided to take a different tactic and backed off to protect infrastructure with a monitoring strategy. A skeleton Fire Use Team was set up with a handful of off-forest personnel. However, the fire was not managed as a Fire Use incident.

All other fires this season were successfully suppressed by local personnel. Figure 7 below provides a visual reference of the locations of the fires for the 2008 season. The IA success rate this year was 100% using the following definition for IA success:

When considering an IA Success Rate, fires included as a “success” meet the following criteria:

- The initial strategy of the FMP is not exceeded
- Local resources are primarily used, but limited non-local resources can be used
- Incident is normally one operational period for contain/control, though mop up may extend as necessary
- Extensive logistical support is not necessary

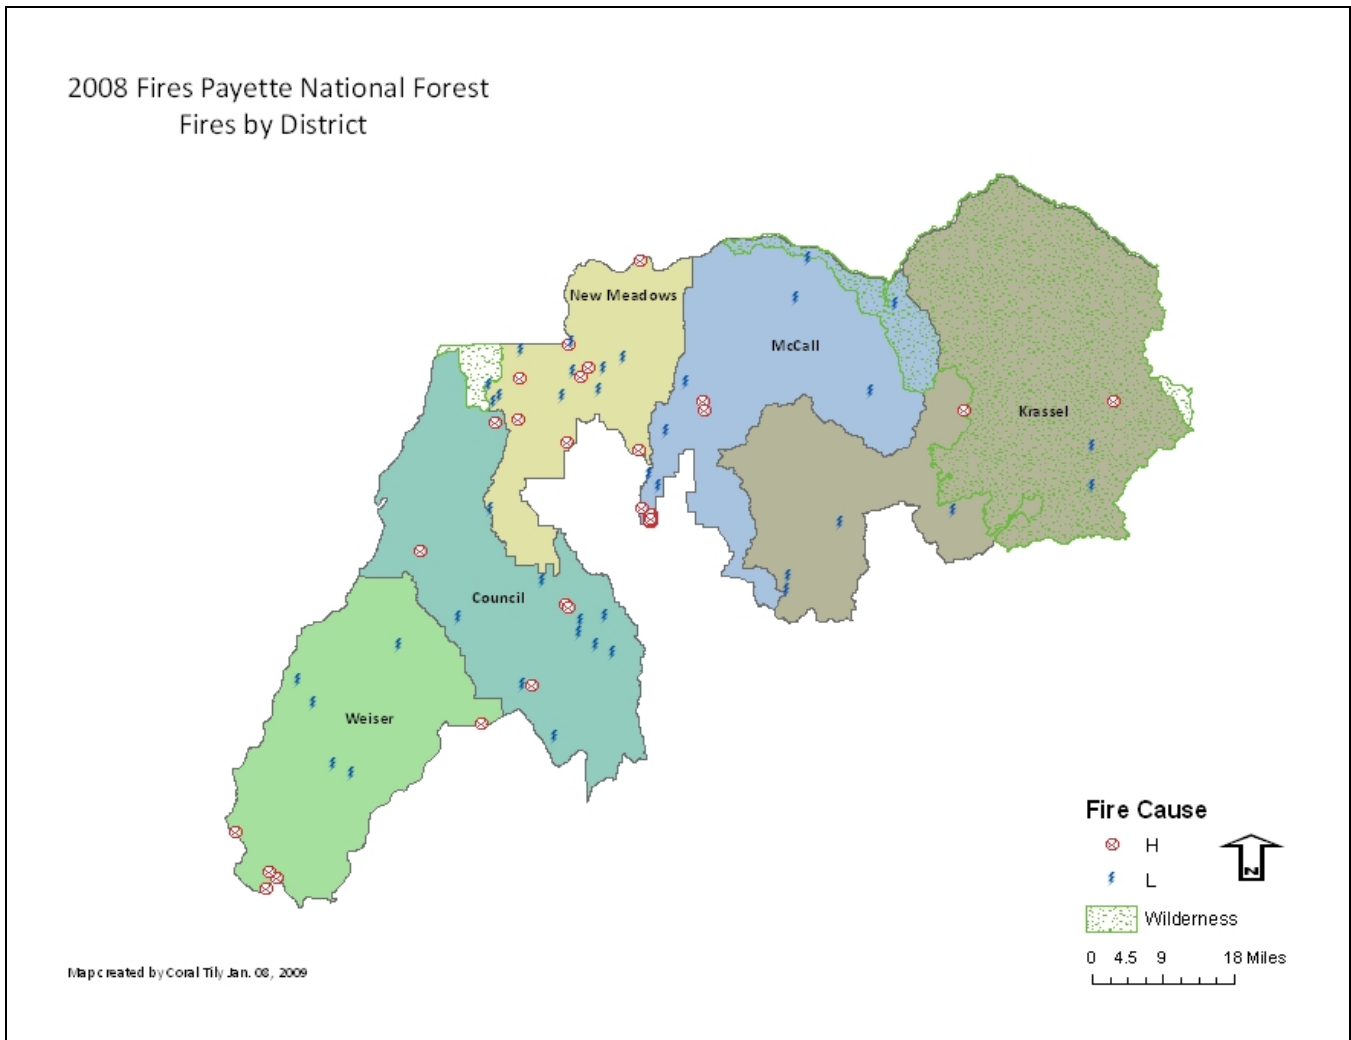

Figure 7. A map showing the location of all 75 fires of 2008 within the Payette Protection area

Off Unit Assignments

Payette Forest personnel and AD's were able to support the national effort this season and spent 9,306.5 person-days on 949 off-unit overhead assignments. These numbers include the individual positions on modules associated with crews, helicopters, and engines. Idaho Department of Lands and the Southern Idaho Timber Protection Association also assisted the national effort and spent 68.7 person-days for 10 off-unit overhead assignments. Below, Table 2 details the positions, number of assignments, and number of days for off-unit assignments. Resources went to 23 states in 2008 including Alabama, Alaska, Arizona, Arkansas, California, Colorado, Florida, Georgia, Indiana, Kentucky, Louisiana, Montana, Mississippi, Nevada, New Mexico, North Carolina, Oregon, Tennessee, Texas, Utah, Virginia, Washington, and Wyoming.

Off-Unit OH Assignments Filled By Payette N.F. Personnel

Assignment	#	Days
Air Support Group Supervisor (ASGS)	1	12.2
Air Tactical Group Supervisor (ATGS)	9	108.2
Airtanker Base Manager (ATBM)	9	170.9
Aircraft Dispatcher (ACDP)	4	49.0
Behave Specialist (BHAV)	1	6.3
Climber (CLIR)	1	1.0
Communications Unit Leader (COML)	4	48.9

Status Check-in Recorder (SCKN)	1	10.1
Strike Team Leader- Crews (STCR)	13	239.4
Support Dispatcher- Expanded Dispatch (EDSD)	5	333.0
Task Force Leader (TFLD)	34	389.9
Technical Specialist (THSP)	1	0.3
Time Unit Leader (TIME)	4	24.0
Training Specialist (TNSP)	1	16.2
Total	949	9,306.5

Table 2. The breakdown of the assignment type, number of assignment, and number of days on assignment Payette National Forest personnel spent off-unit in 2008.

3. PRESCRIBED FIRE ACCOMPLISHMENTS

Prescribed fire and fuels reduction responsibilities are organized into three geographic areas on the Payette Forest. These areas consist of the Council and Weiser Ranger Districts, the New Meadows Ranger District, and the McCall and Krassel Ranger Districts.

The forest completed 37 prescribed burns over 50 days for a total of 3,141.60 acres. Table 3 details the prescribed fire activity by unit accomplished by the Payette Forest for 2008.

2008 Payette National Forest Prescribed Fire Activity

Date Burned	Name of Unit	Type	Acres Burned	Legal		
				Twn	Rng	Sec
4/26/2008	Mann Creek Natural Fuels Unit 1	Understory	300	15N	5W	32

Table 3. Payette National Forest list of Prescribed Fire Activity.

4. RESOURCE BENEFIT FIRES

National direction from the Washington Office gave the Payette National Forest an opportunity to participate in two tests for the 2008 season. The first was to beta-test the WFDSS process. The Wildland Fire Decision Support System (WFDSS) streamlines past programs (WFSA, WFIP and LTIP) into one program designed to help managers determine the appropriate management response for wildland fires. The second test was to use new policy direction to manage lightning-caused fires for one or more objectives based on the land and resource management plan. For example, if a fire started out as a suppression fire, the forest had flexibility to change management to resource benefit. However, some fires were managed for resource benefit, using minimal suppression tactics. Table 4 shows the fires that were managed for resource benefit.

2008 Payette National Forest Resource Benefit Fires

Date	Fire Name	Incident #	Latitude			Longitude			Subunit	Acres
			Deg	Min	Sec	Deg	Min	Sec		
07/15/2008	Rush Creek*	ID-PAF-008026	44	59	14	114	59	14	6	1,435.00

10/26/2008	Boulder Creek	ID-PAF-009006	45	07	48	116	28	59	3	0.10
Total										5,892.50
<i>* Fires occurring within the Frank Church River of No Return Wilderness</i>										

Table 4. Fire occurrence managed for resource benefit.

Payette National Forest Wilderness Monitoring/Reporting:

Fires that ignited within the Frank Church River of No Return Wilderness (FCRNR): 4

Fires that ignited within the FCRNR that were WFU fires: 0

Total Acres burned inside the FCRNR: 11,255.1

Acres from fires ignited outside of FCRNR that burned into FCRNR: 0

Fires within the FCRNR that were suppressed: Cabin Creek, initially

Reasons for suppression fires within the FCRNR: Human-caused

5. EXAMPLES OF SIGNIFICANT IMPROVEMENTS IN COST EFFECTIVENESS

Utilizing the Appropriate Management Response to fires, managers were able to decrease costs on fires by using resource benefit and not fully suppressing all fire occurrence.

The Payette National Forest hosted an Exclusive Use T1 helicopter for the second year during the 2008 fire season. The Exclusive Use contract yields substantial savings to the government over a Call-When-Needed Helicopter contract.

6. NOTEWORTHY INSTANCES OF COOPERATION

The Payette Forest continues to work with Adams, Valley, Idaho, and Washington Counties updating hazard mitigation plans that identify and reduce hazardous fuels accumulations in wildland urban interface areas. Additionally, the Dispatch Center cooperates with these counties in Search and Rescue operations.

The Payette Forest is an active member of the Snake River Valley Fire Chiefs Association, which consists of 21 rural fire departments and the Boise and Vale BLM.

The West Zone Fire Management staff is a participating member of the Washington County Wildland Urban Interface Advisory Council.

Forest fire prevention officers along with Payette National Forest, Boise National Forest, and Boise BLM personnel participated in the following activities:

Midvale Elementary, RFD	Jan. 18, 2008
McCall Winter Carnival Parade	Jan. 26, 2008
Booth at the World Masters Ski Races	Feb. 29-Mar. 2, 2008
Head Start in Weiser	Apr. 3, 2008
Earth Day at Cambridge School	Apr. 17, 2008
Earth Day at New Meadows Elementary School	Apr. 18, 2008
Earth Day at Council and Midvale School	Apr. 21, 2008
Head Start Tour of FS Campground	Apr. 24, 2008
Smokey Bear school program at Midvale and Cambridge	Apr. 28, 2008
Smokey Bear school program at Fruitland	Apr. 29, 2008
Smokey Bear school program at Payette	Apr. 30, 2008
Smokey Bear school program at Council	May 1, 2008
Smokey Bear school program at Weiser	May 7, 2008
Fire Wise at Weiser Rural Fire Dept.	May 8, 2008
Soil Conservation Days in Council	May 14-15, 2008
Apple Blossom Parade in Council	May 17, 2008
Girls Day at McCall Smokejumper Base	May 21, 2008
"SAVES for Kids" in New Meadows	Jun. 7, 2008
Kale Scope in McCall	Jun. 28, 2008
4 th of July Parade in Council	Jul. 4, 2008
Smokey Bear education at Mountain Life Preschool in McCall	Jul. 14, 2008
Adams County Fair in Council	Jul. 24-26
Washington County Fair in Weiser	Jul. 28-Aug. 2, 2008
Valley County Fair and Rodeo in Cascade	Aug. 6-11, 2008
Council Music Festival	Aug. 15-17, 2008
Pilgrim Grove Girl Scouts in McCall	Aug. 17, 2008
New Meadows Days	Aug. 30, 2008
Trinity Pines Church Camp in Cascade	Sep. 30, 2008

The forest provided instructors and subject matter experts to the Great Basin Training Center and NIFC. The forest also provided coordinators to the Florida Prescribed Fire Training Center and the Fire Use Training Academy in Region 3 and hosted several classes.

7. SUBUNIT SUMMARY

Payette Dispatch

The Payette Dispatch Center organization consists of a Center Manager, an Assistant Center Manager, an Intelligence Coordinator, a Forest Training Officer, and four Dispatchers (three permanent and one seasonal night dispatcher). The Assistant Center Manager detailed at Western Great Basin for 6 months and one of the permanent dispatchers detailed as a Lead Dispatcher. To fill in behind the permanent dispatcher, local forest personnel and AD's were brought in for experience and other non-local dispatchers were ordered as needed. Payette dispatchers scheduled and tracked 366 fixed wing and helicopter flights during 2008.

Dispatch personnel spent a total of 149.4 days on assignments assisting other incidents, dispatch centers, and geographic areas as Aircraft Dispatcher (ACDP), Firefighter Type 1 (FFT1), Initial Attack Dispatcher (IADP), Expanded Dispatch Support Dispatcher (EDSD), and Training Specialist (TNSP).

There was no need in 2008 to open expanded dispatch.

Payette Dispatch Center began seven-day staffing on Memorial Day and continued through September.

Council Ranger District

Council experienced five human-caused fires burning 125.55 acres and ten lightning-caused fires burning 101.38 acres for a total of 226.93 acres and 15 fires.

Council fire suppression resources included Engine 411 (Type 4), Engine 612 (Type 6), the 10-person Bear Handcrew, and two fire lookouts. Engine 411 spent 15.0 days on one off-unit assignment. E-612 spent 15.4 days on three off-unit assignments. Table 5 shows the details of these assignments. The hand crew combined with the Payette Regulars for off-unit assignments.

E411 Assignments				
Incident #	Incident Name	Mob Date	Demob Date	Days
CA-SRF-001123	Hell's Half Complex	07/11/08	07/26/08	15.0

CA-TNF-001011	American River Complex	07/03/08	07/07/08	4.5

Table 5. The Council RD engine assignments for 2008.

Weiser Ranger District

Weiser experienced five human-caused fires burning 21.1 acres and five lightning-caused fires burning 72.68 acres for a total of 93.78 acres and ten fires.

Weiser fire resources included Engine 421 (Type 4), Engine 622 (Type 6), and one fire lookout. Engine 421 spent 21.5 days off unit for three assignments, and Engine 622 spent 11.3 days off unit for three assignments. Table 6 shows the details of these assignments.

E421 Assignments				
Incident #	Incident Name	Mob Date	Demob Date	Days
CA-ENF-011847	Bottle	06/22/08	07/01/08	8.9

Table 6. The Weiser RD engine assignments for 2008.

New Meadows Ranger District

New Meadows experienced eight human-caused fires burning 10.9 acres and ten lightning-caused fires burning 7.4 acres for a total of 18.3 acres and 18 fires.

The AFMO for New Meadows detailed to the Boise National Forest in an FMO position. The Krassel FOS detailed into the New Meadows AFMO position.

New Meadows fire resources included helicopters H69H (Type 2), H215KA (Type 2), 24 rappellers, Engine 431 (Type 4), and four fire lookouts. The helicopter summaries are included in Section 8. Engine 431 spent 48.6 days on four off-unit assignments. Table 7 shows the details of these assignments.

E431 Assignments

Table 7. The New Meadows RD engine assignments for 2008.

McCall Ranger District

McCall experienced 16 human-caused fires burning 1.6 acres and eight lightning-caused fires burning 1.2 acres for a total of 2.8 acres and 24 fires.

The McCall AFMO and FOS positions were permanently filled.

McCall fire resources included Engine 441 (Type 4), Engine 642 (Type 6), the five-person Warren Handcrew, and three fire lookouts. Engine 642 had no off-unit assignments, and Crew 4 combined with the Payette Regulars for off-unit assignments. Engine 441 spent 32.1 days on two off-unit assignments. Table 8 shows the details of these assignments.

CA-KNF-002455	KNF Lightning 2008	07/11/08	07/27/08	16.6
CA-KNF-002455	Bear Wallow Complex	07/12/08	07/27/08	15.5

Table 8. McCall RD engine assignments for 2008.

Krassel Ranger District

Krassel experienced two human caused fires burning a total of 5,500.25 acres and six lightning-caused fires burning a total of 5,892.30 acres. Total acres burned on the Krassel district is 11,392.55 acres and eight fires.

Krassel fire resources included helicopter H2HX (T-3), 12 rappellers, and two fire lookouts.

District Summary and Payette Regulars Crew

The following graph and table summarizes the activity per district. The 2008 season was below the 20 year average for all districts. Figure 8 shows the total number of fires per district as compared to the 20-year average, while Table 9 breaks down the fires by cause.

8. PAYETTE FOREST HELICOPTER USE SUMMARY

Four exclusive use helicopters were contracted on the Payette Forest during the 2008 fire season. Price Valley Helibase hosted two helicopters (Bell 205 A1++ and a Bell 212HP) and 24 rappellers. A Bell 407 helicopter and a crew of 13 rappellers were located at the Krassel Helibase. The McCall Helibase hosted one helicopter, an S-64E that was managed by Price Valley Helitack. The four ships combined for 1,061.3 hours of total flight time. All helibases filled numerous operational and helitack ICS positions during the 2008 fire season. Table 11 shows the details of the helicopter seasons. Table 12 shows the details of the helicopter off-unit assignments.

Helicopter Use Summary 2008

9. SMOKEJUMPER OPERATIONS

Season Summary

McCall Smokejumpers made a total of 106 fire jumps in 2008. McCall Smokejumpers filled 73 single resource assignments. They supported smokejumper operations in New Mexico, Oregon, Nevada and Washington. Table 13 shows the fires jumped from McCall. Table 14 shows the fires jumped from other bases.

2008 Smokejumper Activity From McCall, ID

Location	# of Fires Jumped	# of McCall SMKJ's	# of Other SMKJ's
Boise NF	2	12	0

2008 McCall Smokejumper Activity at Other Bases

Base	# of Fires Jumped	# of McCall SMKJ's
Ely, NV	1	2
North Cascades, WA	4	23
Redmond, OR	9	16
Reno, NV	1	3
Silver City, NM	6	14
Stead, NV	6	18
Winnemucca, NV	1	3

Table 14. The smokejumper activity from other bases with McCall jumpers.

The McCall Smokejumpers also spent a total of 452 person-days engaged in prescribed fire and fire use activity. Table 15 shows the location and the associated person-days of prescribed fire and fire use activity.

2008 McCall Smokejumper Prescribed Fire/ Fire Use Activity

Geographic Area	Person-Days
Eastern Great Basin	17
Northwest	9
Rocky Mountain	209
Southern Area	213
Western Great Basin	12
Total	452

Table 15. The locations and person-days of McCall smokejumper prescribed fire and fire use activity.

Aircraft

The McCall jump aircraft fleet consisted of a turbine DC-3 (J-42), crewed with two pilots and two spotters, and two Twin Otter aircraft (J-41 & J-43), each with a single pilot and two spotters. J-41 flew a total of 153.7 hours, J-42 flew a total of 179.3 hours, and J-43 flew a total of 173.8 hours. The total flight time of all three jump ships for 2008 is 506.8 hours.

Personnel

Sixty-four smokejumpers, including six rookies, completed training this season. Several members of the crew detailed into fire-related positions on subunits outside and inside the smokejumper organization. Three members of the crew were on Incident Management Teams, with one being a trainee.

Facilities and Tours / Public Relations

Nearly 2,000 visitors toured the McCall Smokejumper facilities this year. McCall hosted the 65th anniversary of the Region 4 smokejumpers in June, hosting over 500 current and former jumpers with their families. The local news did a story on the jumpers at the Stead spike base, bringing positive light to the jumper program.

Loft

Sewing projects dominated the winter months, maintaining and manufacturing smokejumper gear and equipment as well as manufacturing gear for other agency wildland resource units. Parachute rigging and rigger training occupied the summer months in the loft. Loft personnel rigged approximately 1,488 main and reserve parachutes. Three jumpers receive Master Rigger Certification.

Para-cargo

McCall Smokejumpers delivered 255 bundles of standard smokejumper cargo weighing a total of 13,694 pounds and 806 pounds of nonstandard cargo. The grand total of cargo moved equaled 24 tons.

R4 Workforce Diversity Recruiter Program

Renee Jack, a smokejumper, was confirmed to be the "Regional Fire Recruiter/Outreach Coordinator" with the purpose of targeting under-represented groups in Region 4 Fire and Aviation Management. She compiled a list of over 200 contacts with whom she provided information and assistance; not all of which were under-represented R4 F&AM candidates, but many were. A total of ten diversity candidates were placed as a direct result of this project with three additional placements pending as of the date of this report. Renee accomplished the following:

Payette National Forest: 7 candidates placed, 6 from under-represented groups
Boise National Forest: 2 candidates placed from under-represented groups
Sawtooth National Forest: 1 candidate placed from under-represented group

This project also added diversity numbers to applicant pools and worked with supervisors on the Salmon-Challis, the Uinta/Wasatch-Cache, and the Humboldt-Toiyabe National Forests. It also contributed to hiring of under-represented groups in R1 through cooperation with R1 program (1 hispanic male, and 1 asian-hispanic male placed). Additionally, Renee completed a data call to WO on accomplishments. It is anticipated that the program performance was satisfactory and will be funded again in 2009.

10. AIRTANKER USE SUMMARY

The McCall Tanker Base administered two Air Tractor 802 Single Engine air tankers (S.E.A.T.) and one P3 Orion Type 1 air tanker. The two S.E.A.T.'s were contracted through the Idaho Department of Lands (IDL) from Evergreen Flying Services, Inc. Daily contract availability was paid by IDL and the hourly flight rate was paid by the ordering agency. The McCall Tanker Base provided the retardant, facility, and on-site management.

Nineteen air tankers made a total of 91 flights and delivered 114,330 gallons of retardant to 23 different incidents. Table 16 shows the details of the airtanker activity out of the McCall base. Table 17 displays the airtanker use by administrative unit.

2008 McCall Tanker Base - Summary by Air Tanker

II. RESOURCE REQUESTS PROCESSED

Forest personnel and the Payette Dispatch Center were busy supporting other units in land management activities. The data below was extracted from the Resource Ordering and Status System (ROSS). Supply orders are not always processed using ROSS and are not included in the data. The center filled a total of 1,034 requests including 713 off-unit requests. Figure 9 and Figure 10 show the breakdown of these requests. Table 18 shows the breakdown of the off-unit requests by Geographic Area Coordination Center (GACC). Figure 11 and Table 19 show the breakdown of the requests generated by Payette dispatch and the respective on-unit and off-unit fills.

The Root requests describe the main request, such as the “crew” request. The Subordinate requests describe the requests under the main request, such as the individuals on the crew.

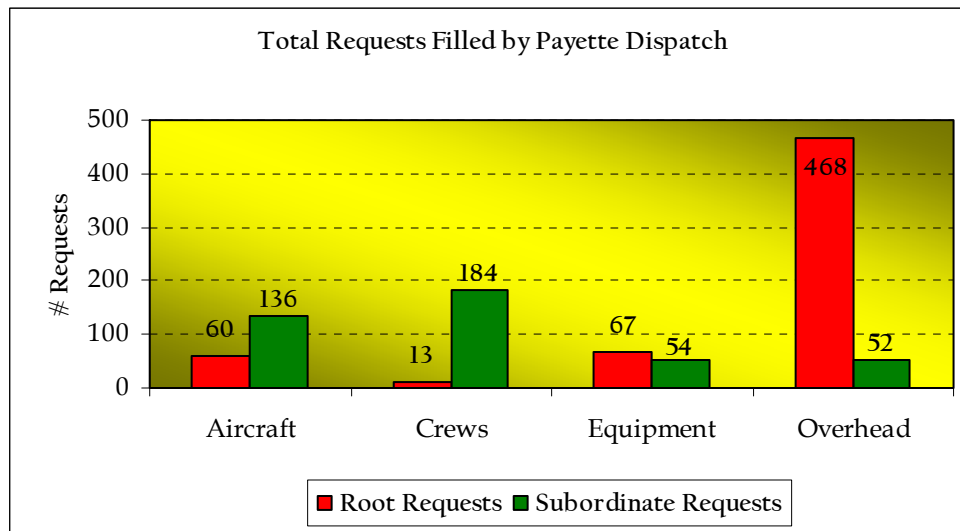

Figure 9. Total Resource Order requests filled by Payette Dispatch in 2008

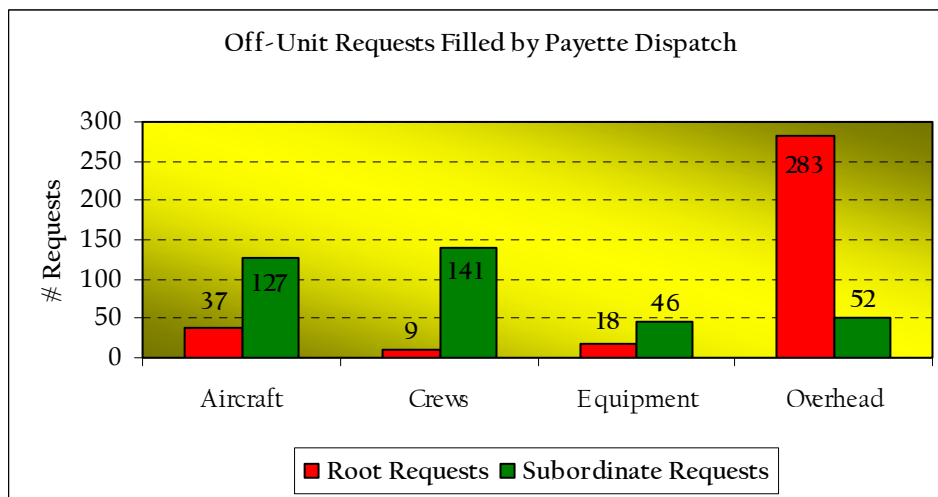

Figure 10. Total Resource orders filled by Payette Dispatch that were generated off-unit.

2008 Off-Unit Root and Subordinate Requests By GACC Filled by Payette Dispatch Center

Incident Host GACC	Aircraft	Crew	Equipment	Overhead	Total

12. SUMMARY OF PAYETTE NATIONAL FOREST STATISTICS

The following tables and graphs show an overview of the Payette National Forest statistics in relation to fire. Table 20 summarizes the fire activity for the last 20 years. Figure 12 charts the Preparedness Levels throughout the 2008 fire season. The Preparedness Level never reached a 5 for the 2008 season. Table 21 breaks down the fires by ownership, and Table 22 shows the details of every fire that occurred within Payette National Forest protection for the 2008 fire season.

Payette N.F. Fire Activity (Including WFU fires) 1989 – 2008

Year	Lightning Fires	Lightning Acres	Human Fires	Human Acres	Total Fires	Total Acres
2008	39	6,074.96	36	5,657.40	75	11,732.36
2007	74	470,217.69	21	709.35	85	470,924.04
2006	149	70,535.4	21	9.2	170	70,544.6

13. FORM FS-5100-8, PERSONNEL EMPLOYED ON FIRE CONTROL ACTIVITIES

USDA-Forest Service PERSONNEL EMPLOYED ON WILDFIRE PRESUPPRESSION AND SUPPRESSION ACTIVITIES		UNIT Payette National Forest	
		CALENDAR YEAR 2008	
INSTRUCTIONS: 1. Data for items 1a, 1b, and 2b should be taken from planning and budget records in the Supervisor's Office. 2. Items 1c, 1d, 2b, and 2c may be obtained from actual records in the S.O. or from the Ranger District. If obtained from the Ranger having intimate knowledge on use of his personnel, these items may be estimated. Complete accuracy is not required. 3. Item 3 may be estimated where large numbers of casuals are employed. Since each reemployment counts as a new employment, sufficient accuracy can be obtained by sample counts and measurement of time slips.			
ITEM NO.	ITEM	NUMBER	
		SUB-TOTAL	TOTAL
1.	Regular appointed personnel		
	a. Full-time fire management (20 pay periods or more)	33	
	b. Part-time fire management	82	
	c. Others used on presuppression sometime during year	7	
	d. Others used on suppression (exclude those reported under a, b, or c)	8	
	e. Total (a + b + c + d)		130
2.	Seasonal or short-term personnel		
	a. Regular fire control (crews, firefighters, patrol, lookouts, etc.)	75	
	b. Others (BD, KV, BR, R&T, etc.) who spent time on fire control work	5	
	c. Emergency firefighters (exclude those reported under a or b)	2	
	d. Total (a + b + c)		82
3.	Total number of casuals employed on fire suppression (Each reemployment counts as an employment)		10
4.	Number of casuals (included in Item 3) employed for first time (Ranger's estimate is adequate)	1	
5.	GRAND TOTAL (1e + 2d + 3)		222
