III. Revised OP Cumulative Risk Assessment Appendices

O. Appendix for Region F Lower Midwest Regional Assessment

2. Region F Cumulative Assessment Outputs for Children

Figure III.O.2-1. Cumulative MOEs for Children 1-2 Region F 1-Day Analysis at 95th Percentile
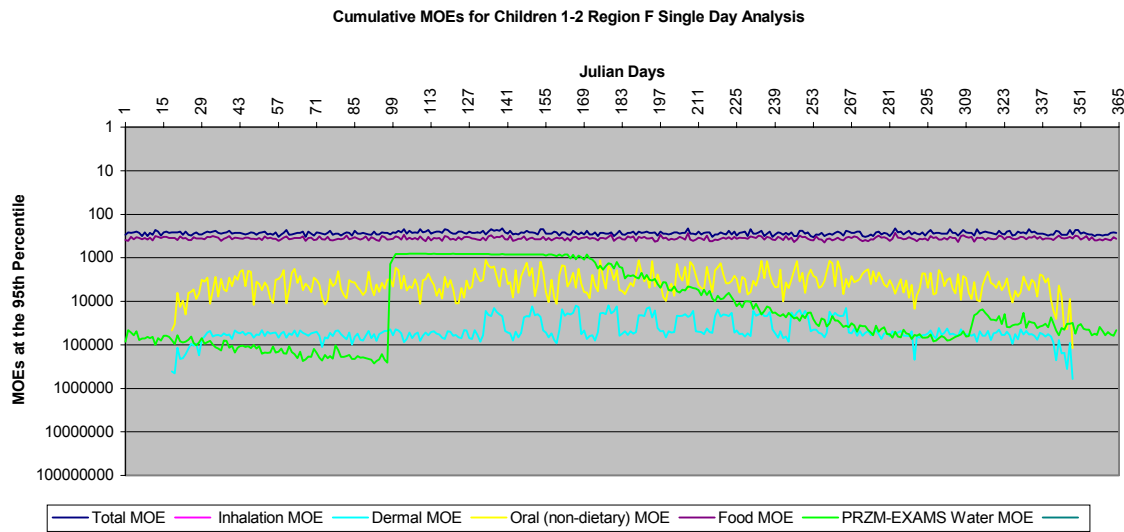

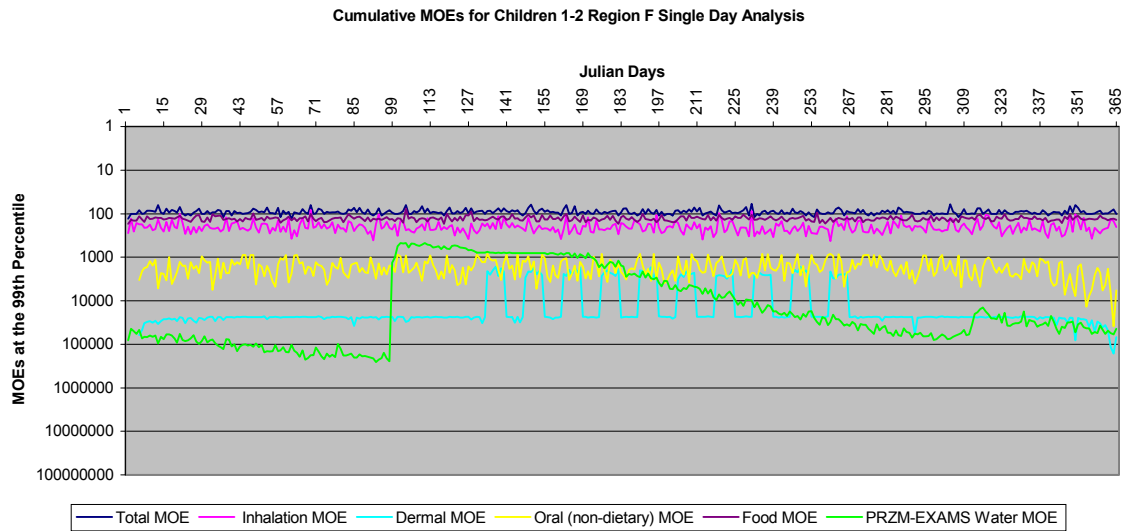

Cumulative MOEs for Children 1-2 Region F Single Day Analysis

Figure III.O.2-2. Cumulative MOEs for Children 1-2 Region F 1-Day Analysis at 99th Percentile

Cumulative MOEs for Children 1-2 Region F Single Day Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

Figure III.O.2-3. Cumulative MOEs for Children 1-2 Region F 1-Day Analysis at 99.5th Percentile
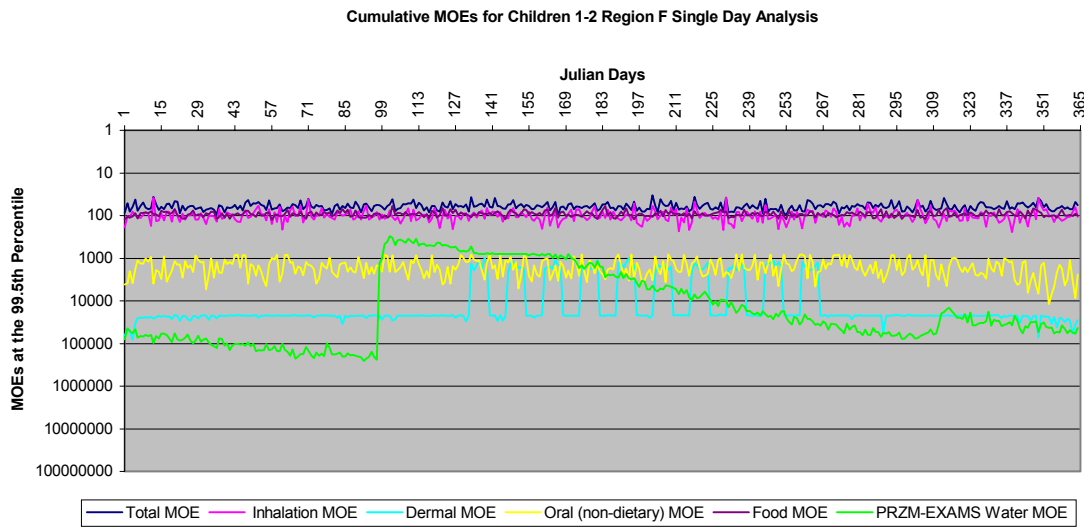

Cumulative MOEs for Children 1-2 Region F Single Day Analysis

Figure III.O.2-4. Cumulative MOEs for Children 1-2 Region F 1-Day Analysis at 99.9th Percentile

Cumulative MOEs for Children 1-2 Region F Single Day Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

Figure III.O.2-5. Cumulative MOEs for Children 1-2 Region F 7-Day Analysis at 95th Percentile
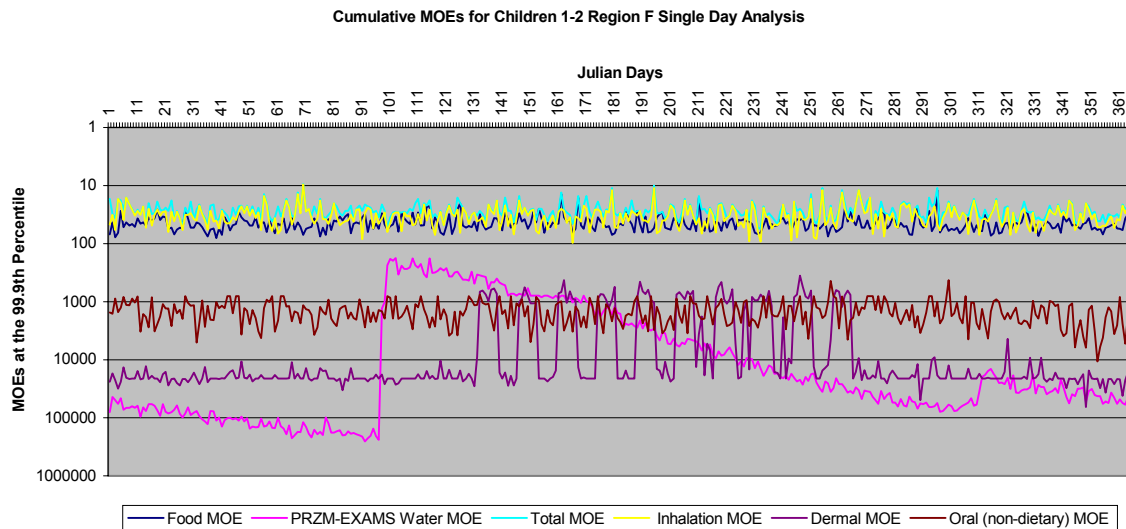

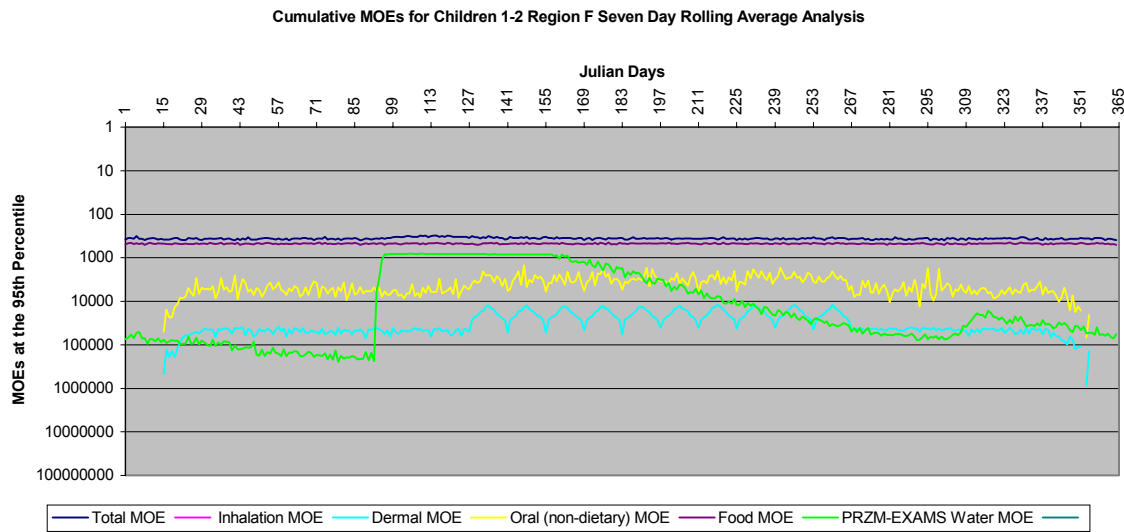

Cumulative MOEs for Children 1-2 Region F Seven Day Rolling Average Analysis

Figure III.O.2-6. Cumulative MOEs for Children 1-2 Region F 7-Day Analysis at 99th Percentile

Cumulative MOEs for Children 1-2 Region F Seven Day Rolling Average Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

Figure III.O.2-7. Cumulative MOEs for Children 1-2 Region F 7-Day Analysis at 99.5th Percentile
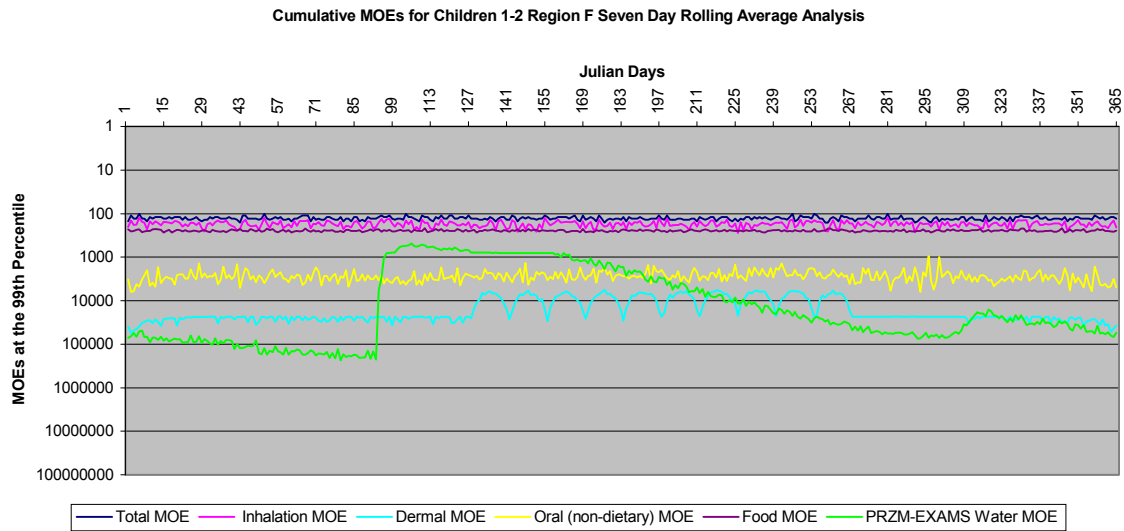

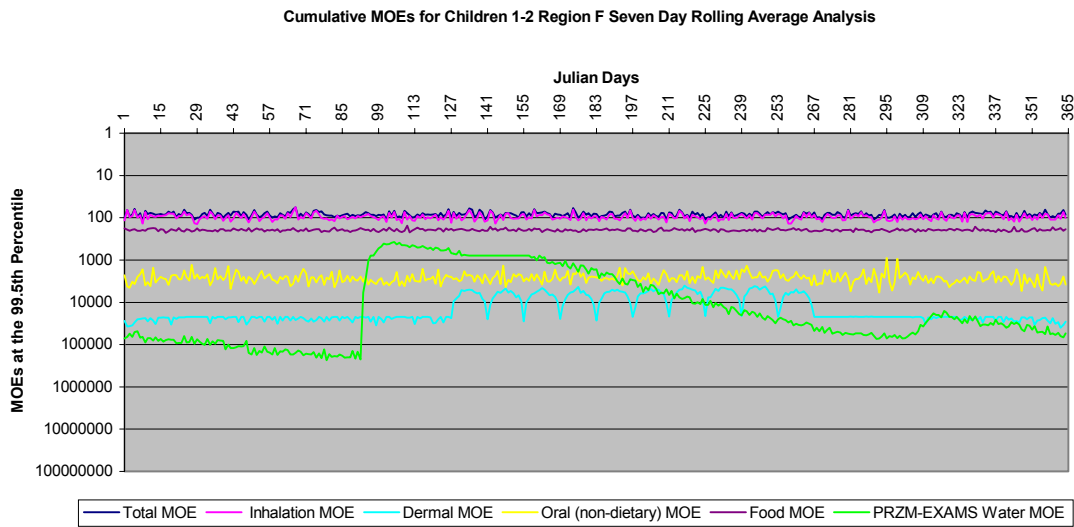

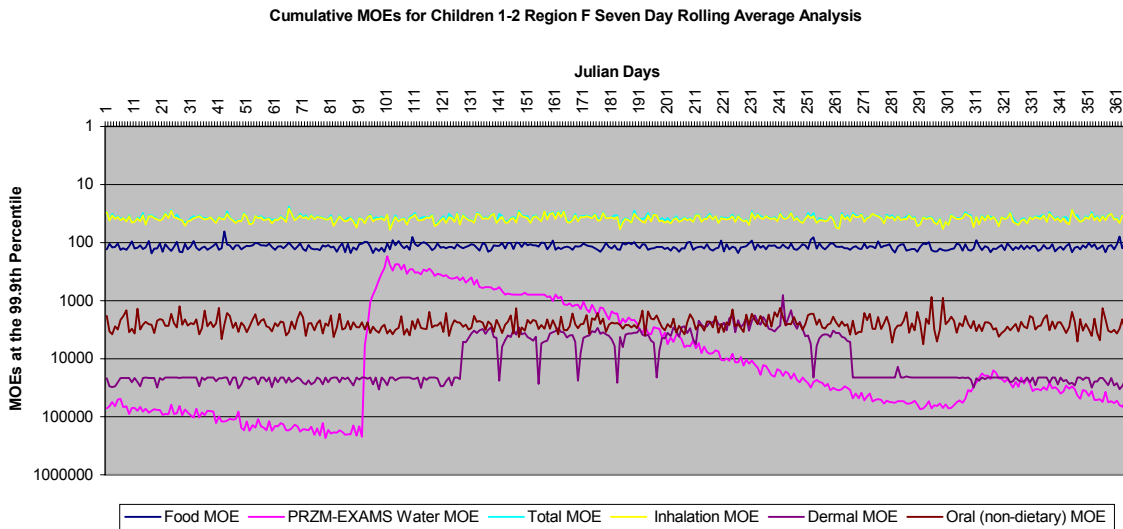

Cumulative MOEs for Children 1-2 Region F Seven Day Rolling Average Analysis

Figure III.O.2-8. Cumulative MOEs for Children 1-2 Region F 7-Day Analysis at 99.9th Percentile

Cumulative MOEs for Children 1-2 Region F Seven Day Rolling Average Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

III.O.2 Page 5

Figure III.O.2-9. Cumulative MOEs for Children 3-5 Region F 1-Day Analysis at 95th Percentile

Cumulative MOEs for Children 3-5 Region F Single Day Analysis

Figure III.O.2-10. Cumulative MOEs for Children 3-5 Region F 1-Day Analysis at 99th Percentile

Cumulative MOEs for Children 3-5 Region F Single Day Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

Figure III.O.2-11. Cumulative MOEs for Children 3-5 Region F 1-Day Analysis at 99.5[th] Percentile

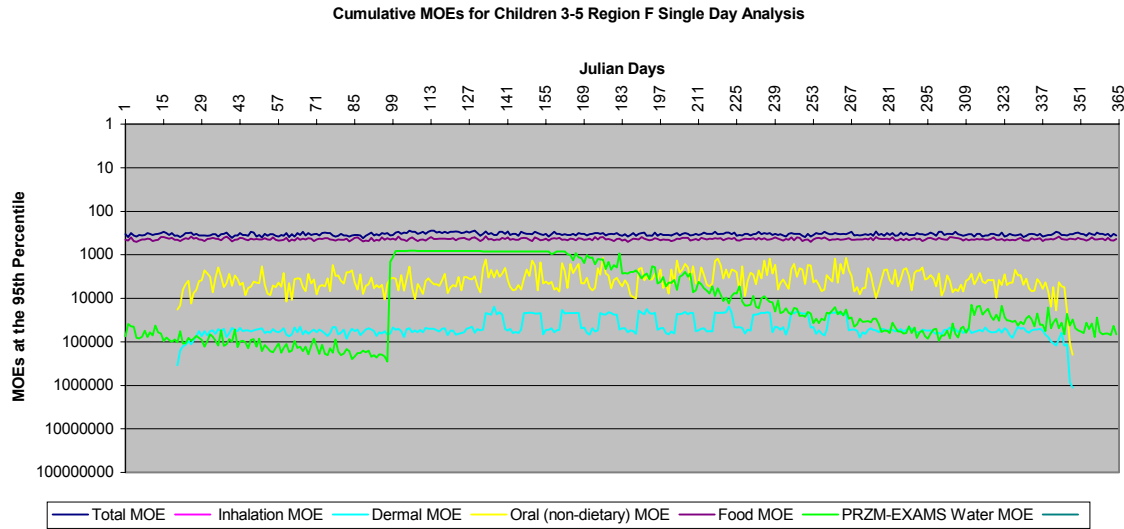

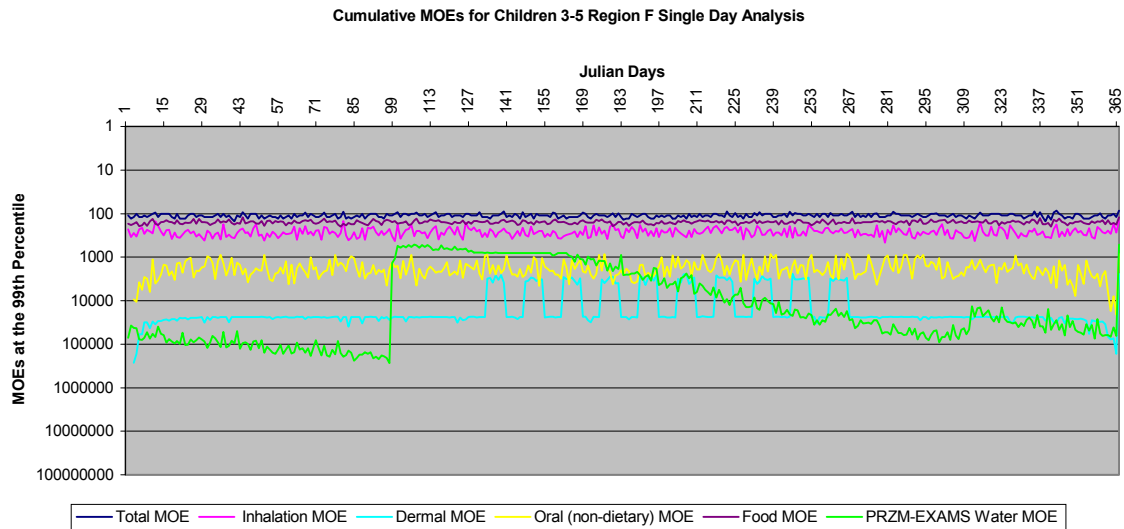

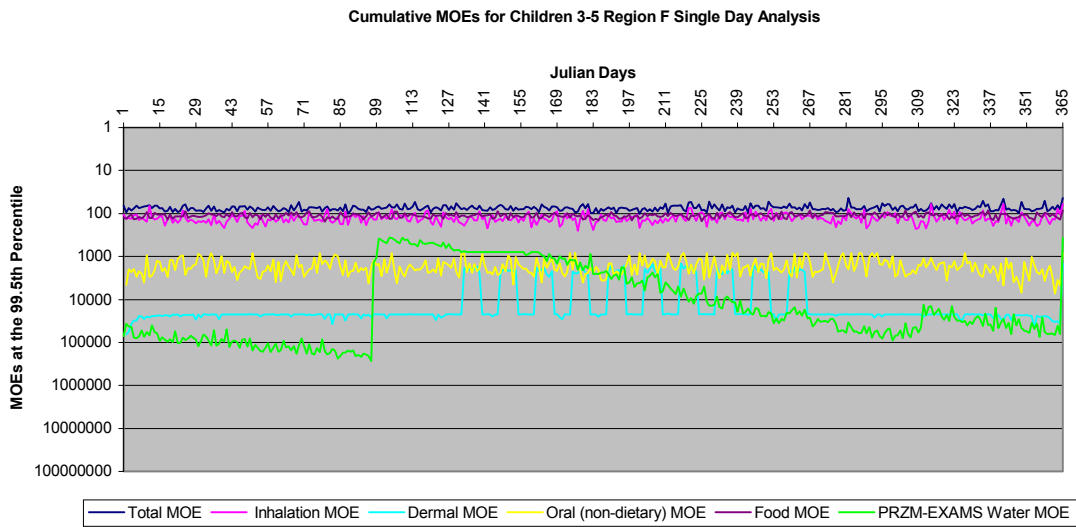

Cumulative MOEs for Children 3-5 Region F Single Day Analysis

Figure III.O.2-12. Cumulative MOEs for Children 3-5 Region F 1-Day Analysis at 99.9[th] Percentile

Cumulative MOEs for Children 3-5 Region F Single Day Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

Figure III.O.2-13. Cumulative MOEs for Children 3-5 Region F 7-Day Analysis at 95th Percentile
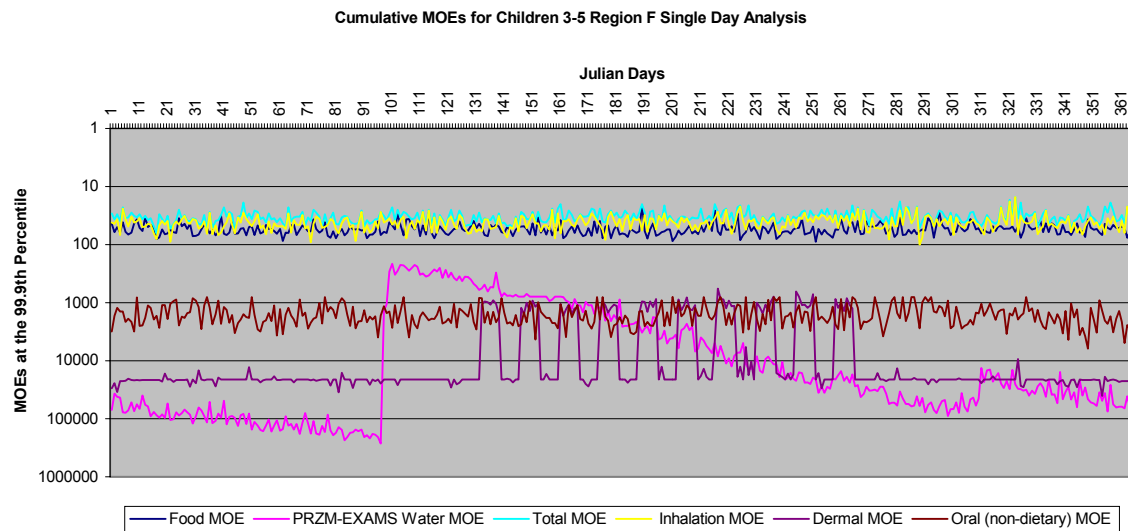

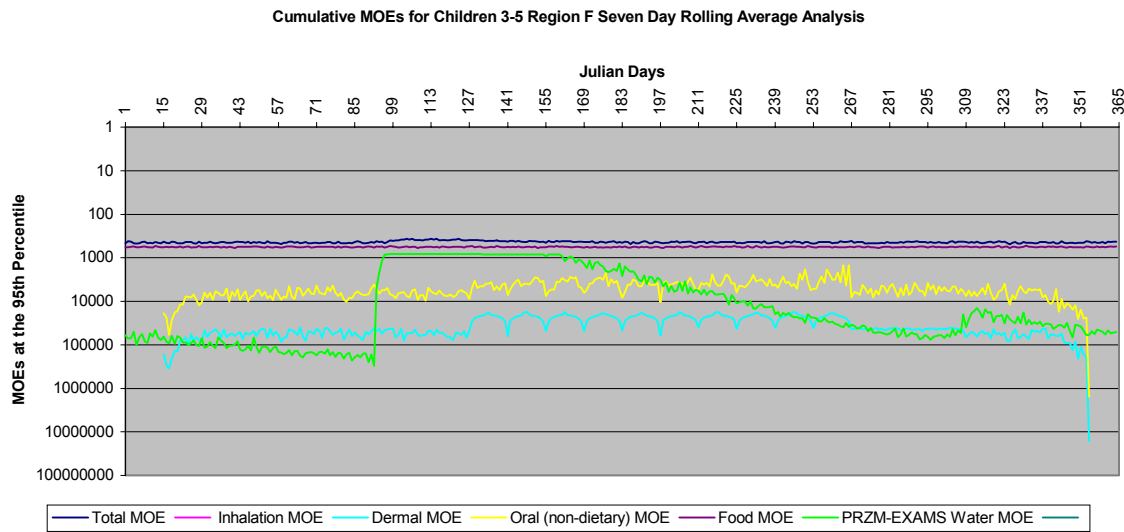

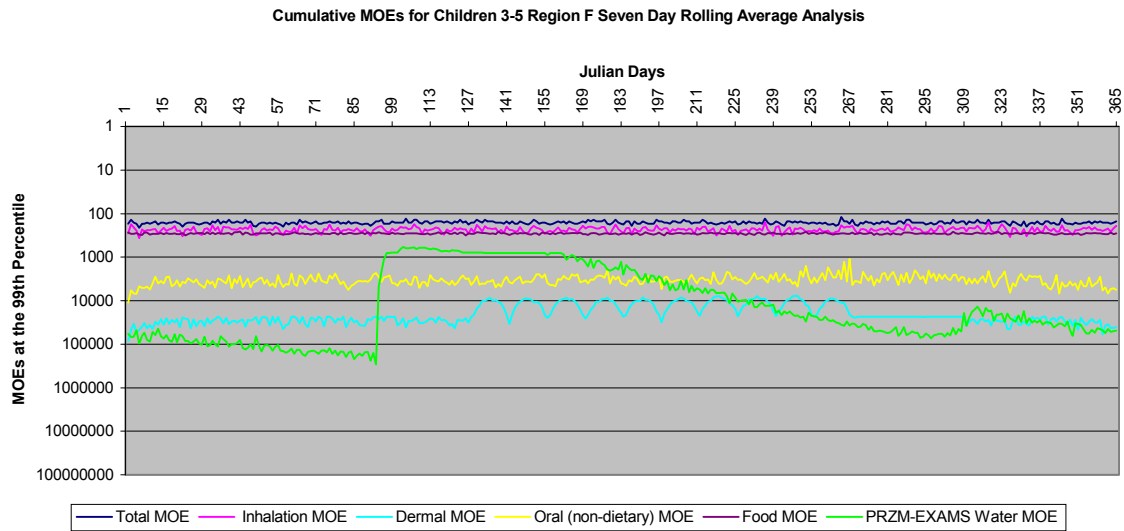

Cumulative MOEs for Children 3-5 Region F Seven Day Rolling Average Analysis

Figure III.O.2-14. Cumulative MOEs for Children 3-5 Region F 7-Day Analysis at 99th Percentile

Cumulative MOEs for Children 3-5 Region F Seven Day Rolling Average Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

III.O.2 Page 8

**Figure III.O.2-15. Cumulative MOEs for Children 3-5 Region F 7-Day Analysis at 99.5[th] Percentile**

Cumulative MOEs for Children 3-5 Region F Seven Day Rolling Average Analysis

Figure III.O.2-16. Cumulative MOEs for Children 3-5 Region F 7-Day Analysis at 99.9[th] Percentile

Cumulative MOEs for Children 3-5 Region F Seven Day Rolling Average Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).
