**III. Revised OP Cumulative Risk Assessment Appendices**
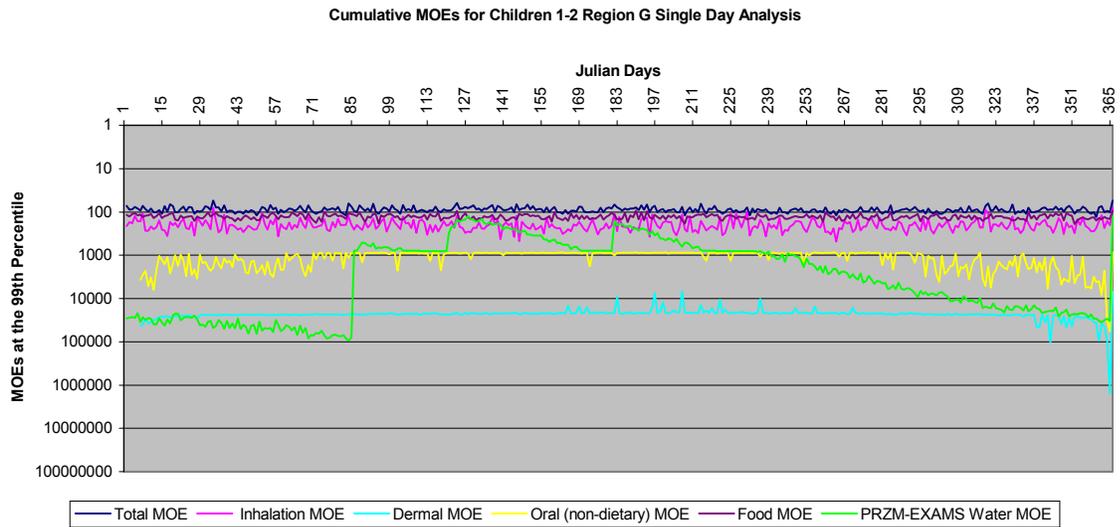

P. Appendix for Region G Lower Mid-South Regional Assessment

2.   Region G Cumulative Assessment Outputs for Children

**Figure III.P.2-1. Cumulative MOEs for Children 1-2 Region G 1-Day Analysis at 95th Percentile**

Cumulative MOEs for Children 1-2 Region G Single Day Analysis

— Total MOE   — Inhalation MOE   — Dermal MOE   — Oral (non-dietary) MOE   — Food MOE   — PRZM-EXAMS Water MOE   —

Figure III.P.2-2. Cumulative MOEs for Children 1-2 Region G 1-Day Analysis at 99th Percentile

Cumulative MOEs for Children 1-2 Region G Single Day Analysis

— Total MOE   — Inhalation MOE   — Dermal MOE   — Oral (non-dietary) MOE   — Food MOE   — PRZM-EXAMS Water MOE
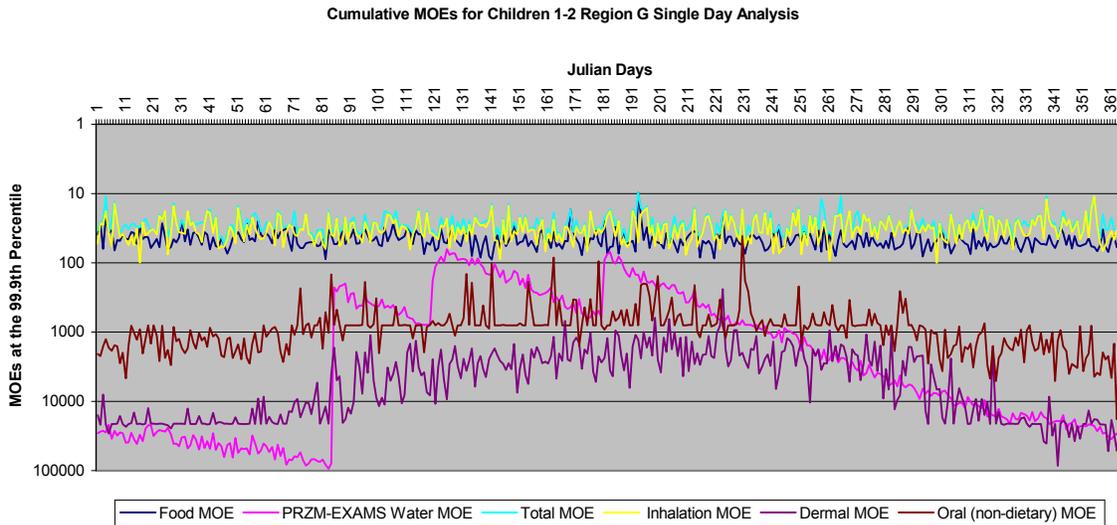

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

**Figure III.P.2-3. Cumulative MOEs for Children 1-2 Region G 1-Day Analysis at 99.5th Percentile**

Cumulative MOEs for Children 1-2 Region G Single Day Analysis

Figure III.P.2-4. Cumulative MOEs for Children 1-2 Region G 1-Day Analysis at 99.9th Percentile

Cumulative MOEs for Children 1-2 Region G Single Day Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

Figure III.P.2-5. Cumulative MOEs for Children 1-2 Region G 7-Day Analysis at 95th Percentile
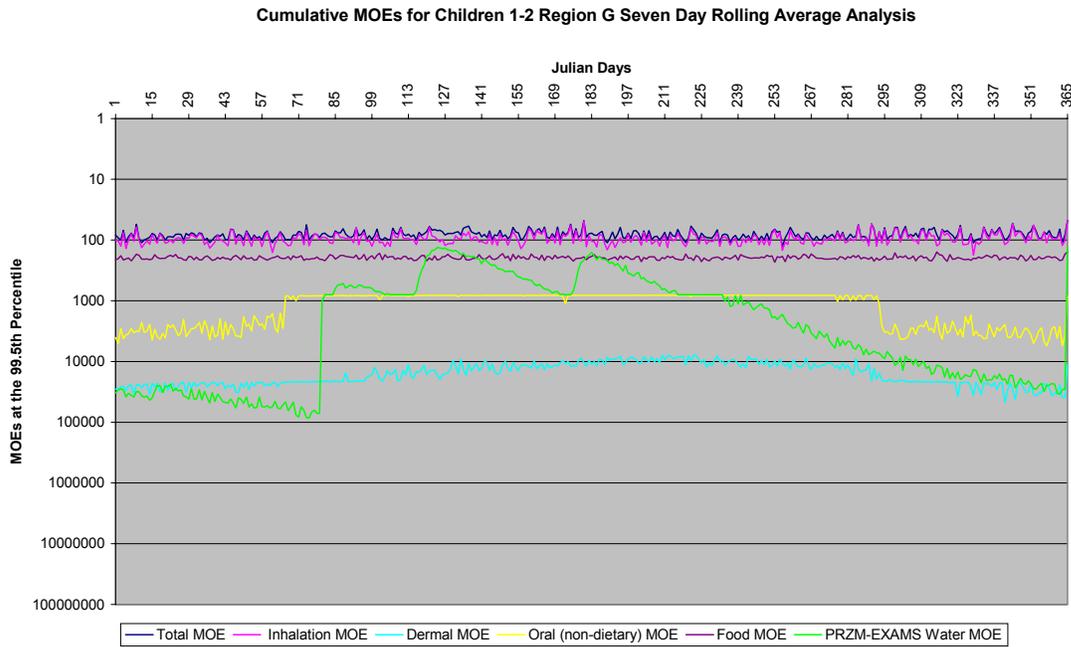

Cumulative MOEs for Children 1-2 Region G Seven Day Rolling Average Analysis

Figure III.P.2-6. Cumulative MOEs for Children 1-2 Region G 7-Day Analysis at 99th Percentile

Cumulative MOEs for Children 1-2 Region G Seven Day Rolling Average Analysis

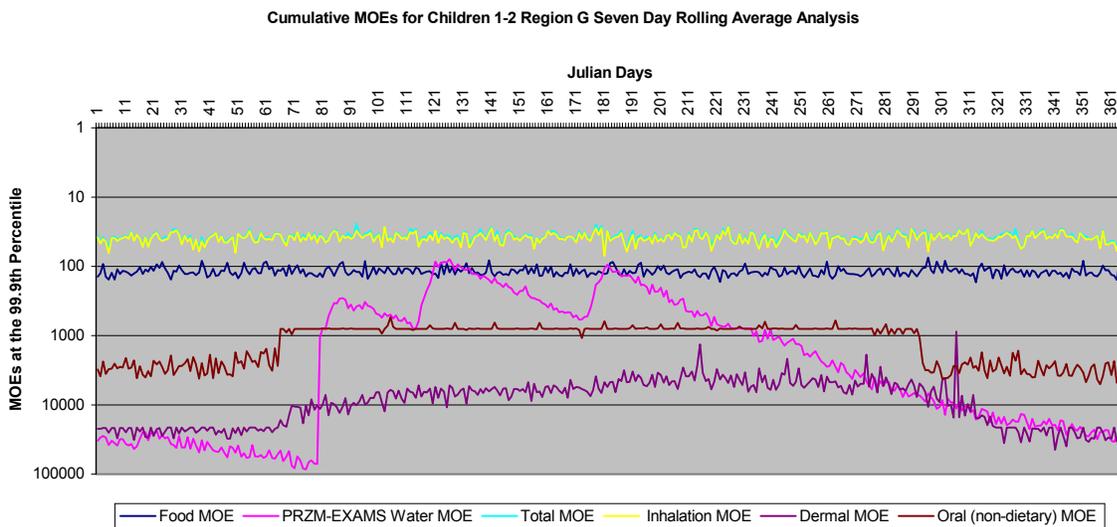

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

**Figure III.P.2-7. Cumulative MOEs for Children 1-2 Region G 7-Day Analysis at 99.5th Percentile**

Cumulative MOEs for Children 1-2 Region G Seven Day Rolling Average Analysis

Figure III.P.2-8. Cumulative MOEs for Children 1-2 Region G 7-Day Analysis at 99.9th Percentile

Cumulative MOEs for Children 1-2 Region G Seven Day Rolling Average Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

Figure III.P.2-9. Cumulative MOEs for Children 3-5 Region G 1-Day Analysis at 95th Percentile

Cumulative MOEs for Children 3-5 Region G Single Day Analysis

Figure III.P.2-10. Cumulative MOEs for Children 3-5 Region G 1-Day Analysis at 99th Percentile

Cumulative MOEs for Children 3-5 Region G Single Day Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

Figure III.P.2-11. Cumulative MOEs for Children 3-5 Region G 1-Day Analysis at 99.5th Percentile
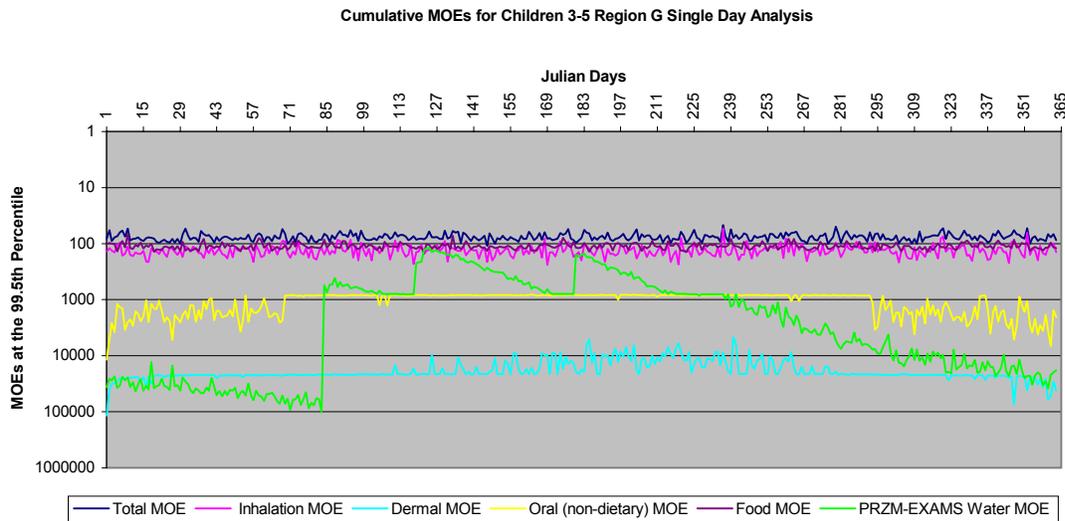

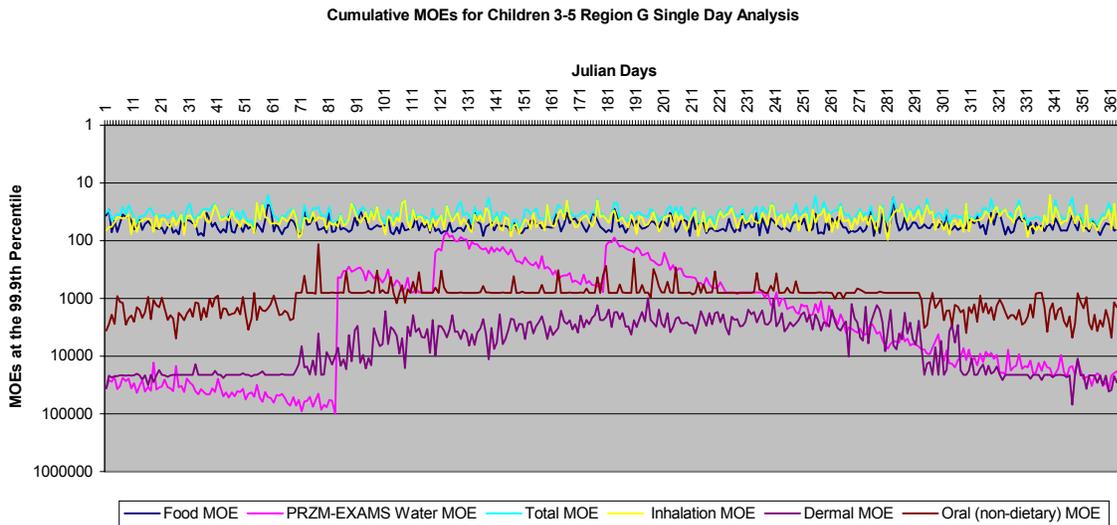

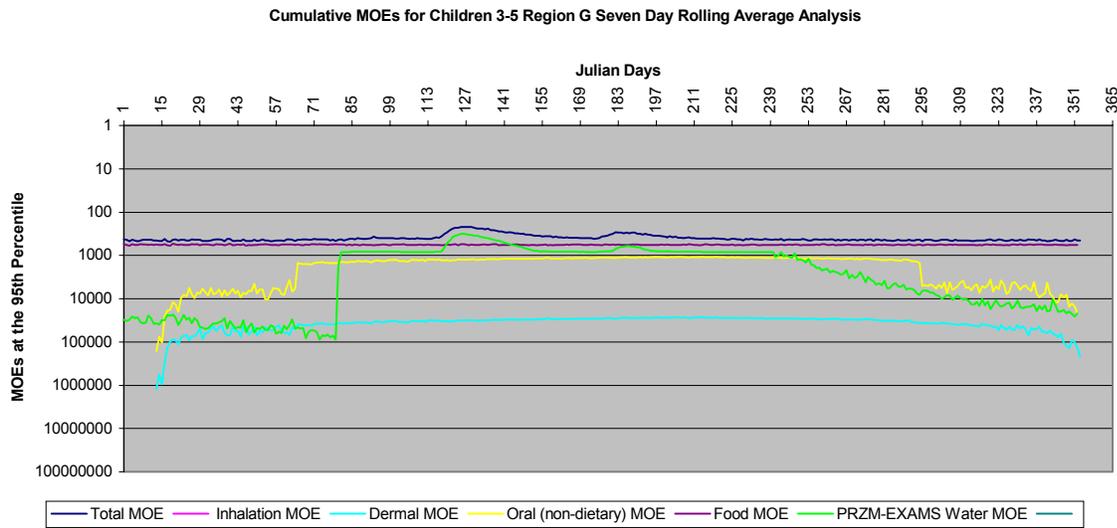

Cumulative MOEs for Children 3-5 Region G Single Day Analysis

Figure III.P.2-12. Cumulative MOEs for Children 3-5 Region G 1-Day Analysis at 99.9th Percentile

Cumulative MOEs for Children 3-5 Region G Single Day Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

Figure III.P.2-13. Cumulative MOEs for Children 3-5 Region G 7-Day Analysis at 95th Percentile

Cumulative MOEs for Children 3-5 Region G Seven Day Rolling Average Analysis

Figure III.P.2-14. Cumulative MOEs for Children 3-5 Region G 7-Day Analysis at 99th Percentile

Cumulative MOEs for Children 3-5 Region G Seven Day Rolling Average Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).

Figure III.P.2-15. Cumulative MOEs for Children 3-5 Region G 7-Day Analysis at 99.5[th] Percentile
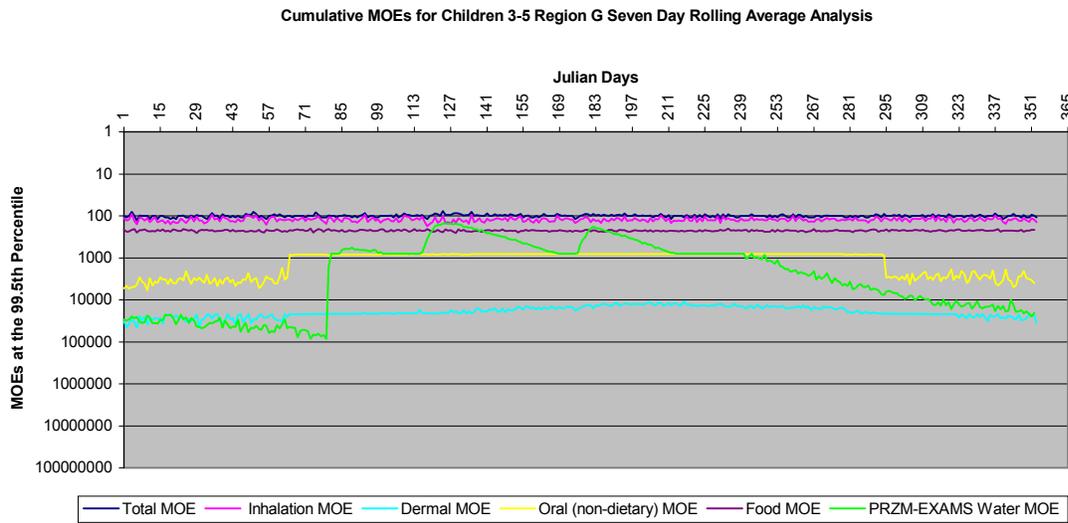

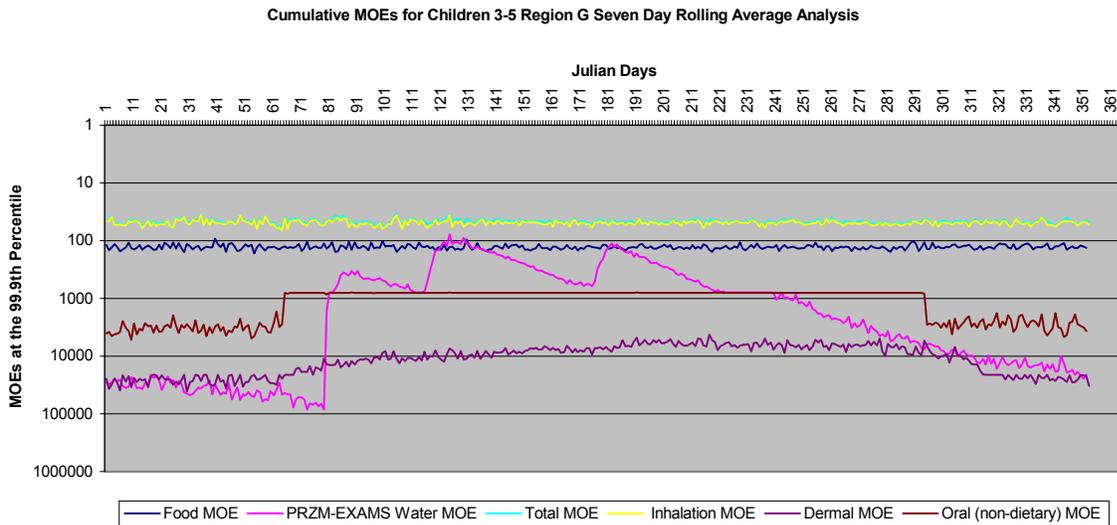

Cumulative MOEs for Children 3-5 Region G Seven Day Rolling Average Analysis

Figure III.P.2-16. Cumulative MOEs for Children 3-5 Region G 7-Day Analysis at 99.9[th] Percentile

Cumulative MOEs for Children 3-5 Region G Seven Day Rolling Average Analysis

No single value in the graphs above should be used to independently arrive at the interpretation of the results. A more detailed description of the graphs are presented in the Risk Characterization section (Section I.H).
