

**TABLE OF CONTENTS**

	<b>Page</b>
<b>1. INTRODUCTION .....</b>	<b>1-1</b>
Overview of the National Nonroad Emissions Model .....	1-2
Equipment Types .....	1-2
Pollutants Reported .....	1-2
Geographic and Temporal Coverage .....	1-2
Model Components .....	1-3
Model Inputs .....	1-5
Output Options .....	1-6
Technical Documentation .....	1-7
Future Model Updates .....	1-8
To Stay Informed .....	1-8
Organization of the User's Guide .....	1-9
<b>2. GETTING STARTED .....</b>	<b>2-1</b>
Quick Start .....	2-1
Conventions Used in the User's Guide .....	2-2
System Requirements for Running the NONROAD Model .....	2-2
Installing the NONROAD Model .....	2-3
Attaching the Reporting Utility Databases .....	2-4
Reinstalling the NONROAD Model .....	2-4
<b>3. GRAPHICAL USER INTERFACE .....</b>	<b>3-1</b>
Quick Start .....	3-1
General Description .....	3-2
Moving Around in the Graphical User Interface .....	3-3
Choosing Menu Options .....	3-4
Creating an Option File .....	3-5
Opening and Naming an Option File, and Naming the Output File .....	3-6
Defining a Report Title .....	3-7
Defining Fuel Specifications, and Ambient Temperatures .....	3-7
Defining the Modeling Period .....	3-9

Defining the Modeling Region .....	3-10
Defining Source Categories .....	3-13
Saving an Option File .....	3-15
Running and Viewing a Modeling Scenario .....	3-15
Advanced Options .....	3-17
Examples of Changing Geographic Allocation .....	3-17
Exiting the Graphical User Interface .....	3-19
<b>4. CORE MODEL .....</b>	<b>4-1</b>
Quick Start .....	4-1
General Description .....	4-2
Creating an Option File Using a Text Editor .....	4-2
Modifying /RUNFILES/ .....	4-5
Modifying /OPTIONS/ .....	4-6
Modifying /PERIOD/ .....	4-7
Modifying /REGION/ .....	4-9
Modifying /SOURCE CATEGORY/ .....	4-14
Saving an Option File .....	4-16
Creating an Option File Through DOS .....	4-16
Running the Core Model .....	4-18
Error Stop Feature .....	4-19
<b>5. REPORTING UTILITY .....</b>	<b>5-1</b>
Quick Start .....	5-1
General Description .....	5-2
Moving Around in the Reporting Utility .....	5-2
Choosing Menu Options .....	5-3
Set up, Import, and Delete .....	5-5
Attaching the Reporting Utility Databases .....	5-5
Importing Core Model Output .....	5-6
Removing a Simulation .....	5-8
Report Types .....	5-8
User Specifications .....	5-10
Generating Reports .....	5-12
Running a Report .....	5-13
Viewing a Report in Print Preview .....	5-13
Exporting to Excel .....	5-15

Comparing Model Runs .....	5-16
Generating Model Comparisons .....	5-16
Compacting and Repairing Databases .....	5-18
<b>6. ADVANCED TOPICS .....</b>	<b>6-1</b>
Introduction .....	6-1
How Data Is Grouped in the National Nonroad Emissions Model .....	6-2
Input Data Packets and Data Files .....	6-3
Options Packet .....	6-3
Period Packet .....	6-5
Region Packet .....	6-5
Source Category Packet .....	6-6
Runfiles Packet .....	6-7
Population Files Packet .....	6-14
Growth Files Packet .....	6-16
Allocation Packet .....	6-19
Emissions Factors Packet .....	6-26
Deterioration Factors Packet .....	6-29
Editing Input Data Packets and Files .....	6-30
Making Multiple Model Runs .....	6-31
<b>7. TROUBLE SHOOTING .....</b>	<b>7-1</b>
Message File .....	7-1
Data File Relationships .....	7-5
Allocations Files .....	7-5
Population Data .....	7-5

## APPENDICES

- Appendix A: FIPS Codes
- Appendix B: Source Classification Codes
- Appendix C: Examples of Standard Reports
- Appendix D: Examples of Model Comparison Reports
