

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[I.D. 031705D]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; proposal for an exempted fishing permit to conduct experimental fishing; request for comments.

SUMMARY: NMFS announces that the Assistant Regional Administrator for Sustainable Fisheries, Northeast Region, NMFS (Assistant Regional Administrator) proposes to recommend that an exempted fishing permit (EFP) be issued in response to an application submitted by the Cape Cod Commercial Hook Fishermen's Association (CCCHFA), in collaboration with the New England Aquarium and NMFS. The EFP would allow up to 20 vessels to retain undersized Atlantic cod (*Gadus morhua*) while fishing in the Georges Bank Cod Hook Sector Area from approximately May 2005 through April 2006. The Assistant Regional Administrator has made a preliminary determination that the application contains all of the required information and warrants further consideration and that the activities to be authorized under the EFP would be consistent with the goals and objectives of the Northeast Multispecies Fishery Management Plan. However, further review and consultation may be necessary before a final determination is made to issue an EFP.

DATES: Written comments on this action must be received on or before April 6, 2005.

ADDRESSES: Comments on this notice may be submitted by e-mail to: DA5-54@noaa.gov. Include in the subject line the following document identifier: "Comments on CCCHFA Sub-legal Cod Survival EFP Proposal."

Comments may also be sent to: Patricia A. Kurkul, Regional Administrator, NMFS, NE Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on CCCHFA Sub-legal Cod Survival EFP Proposal."

Or, comments may be faxed to: (978) 281-9135.

FOR FURTHER INFORMATION CONTACT: Jason Blackburn, Fishery Management

Specialist, phone: 978-281-9326, fax: 978-281-9135.

SUPPLEMENTARY INFORMATION: On February 24, 2005, CCCHFA, in collaboration with the New England Aquarium and NMFS, submitted a complete application for a continuation of their study on mortality rates and survivability of undersized Atlantic cod harvested in the bottom-set longline and jig fisheries in southern New England. The applicant has submitted a new EFP request for a continuation of the study they began in 2004. Their initial efforts were hampered by a variety of setbacks, which limited the amount of sampling carried out under the original EFP in 2004. The new EFP would allow the applicant to continue their sampling regime during all four seasons of the 2005 fishing year, allowing them to complete their study, and assess seasonal differences in the rates of survival. The CCCHFA has requested exemption from the restrictions on possession of undersized Atlantic cod at 50 CFR 648.83(a) in order to retain sub-legal cod for study. The applicant has also requested that trips used solely for the purposes of retrieving fish cages be exempt from the multispecies Days-At-Sea (DAS) requirements specified at § 648.82(a). The proposed study would occur inside the Georges Bank Cod Hook Sector Area. At no time would fishing operations be conducted inside year-round closure areas.

The experiment would occur from approximately May 2005 through April 2006, during which time longline vessels would sample at 20, 30, and 40 fathoms (36.6, 54.9, and 73.2 m, respectively), for up to a total of 54 trips. There would be an additional 18 trips used solely for the purposes of retrieving fish cages. There would be no fish landed during cage retrieval trips. There would be up to 20 vessels participating in this study. Each vessel would fish its bottom-set longline gear consisting of 1,800 ft (548.6 m) of mainline with 300 number 12 circle hooks spaced every 6 ft (1.83 m). Approximately 3,600 hooks would be set per fishing day, with a soak time of 3-4 hours. After the vessel sets the longline, it would begin the jigging portion of the study. The undersized cod would be measured, weighed, and tagged to determine survivability rates of the undersized cod. The applicant would use several different handling techniques for all longline caught fish: Alternate fish would be flipped off the hook or snubbed (allowing the hook to pass through the jaw). All fish caught during the jigging portion would be flipped off the hook. During each

season, a minimum of 150 undersized fish would be collected and retained for 72 hours in each cage at each of the sample depths. The cage would be constructed to hug tight to the sea floor and to resist rolling in the highly tidal areas. The cage gear was designed in 2004 to meet the requirements of the Atlantic Large Whale Take Reduction Plan. Other than the above protocol, the vessels would follow normal fishing practices. All fish landed would be subject to existing minimum size and trip limit requirements. All mortality associated with this research project has been fully accounted for in the Amendment 13 rebuilding plan, and is controlled by the Georges Bank Cod Hook Sector Hard Total Allowable Catch (TAC), and through the use of A DAS.

A scientific data collector would be present on board each participating vessel. Scientific data collectors would be responsible for collecting all relevant biological and environmental data. CCCHFA would be responsible for developing a full report of the results of this study, and for providing this report to NMFS.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 17, 2005.

Alan D. Risenhoover,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF EDUCATION**Notice of Proposed Information Collection Requests**

AGENCY: Department of Education.

SUMMARY: The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before May 23, 2005.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early

opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: March 16, 2005.

Angela C. Arrington,

Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer.

Institute of Education Sciences

Type of Review: Revision.

Title: Early Childhood Longitudinal Study-Birth Cohort: Kindergarten and First Grade Field Test and Full Scale.

Frequency: One time.

Affected Public: Individuals or household; Businesses or other for-profit; Not-for-profit institutions.

Reporting and Recordkeeping Hour Burden: Responses: 562. Burden Hours: 197.

Abstract: The Early Childhood Longitudinal Study, Birth Cohort (ECLS-B) is a nationally representative longitudinal study of children born in the year 2001. Children are assessed using state of the art assessment tools and parents are interviewed as well as

child care providers and school personnel. Together with the Kindergarten component of this early childhood studies program, the survey informs the research and general community about children's health, early learning, development and education experiences. The focus of this survey is on characteristics of children and their families that influence children's first experiences with the demands of formal schools as well as early health care and in- and out-of-home experiences.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 2721. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., Potomac Center, 9th Floor, Washington, DC 20202-4700. Requests may also be electronically mailed to the Internet address OCIO_RIMG@ed.gov or faxed to 202-245-6621. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Kathy Axt at her e-mail address Kathy.Axt@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.
