

is contained in this system should address written inquiries to the Commander, U.S. Army Reserve Personnel Command, 1 Reserve Way, St. Louis, MO 63132-5200.

For verification purposes, individual should provide the full name at the time of the recognized military service, date and place of birth, details concerning affiliation with group certified to have performed active duty with the Army, and signature.

#### RECORD ACCESS PROCEDURES:

Individuals seeking access to information about themselves contained in this system should address written inquiries to the Commander, U.S. Army Reserve Personnel Command, 1 Reserve Way, St. Louis, MO 63132-5200.

For verification purposes, individual should provide the full name at the time of the recognized military service, date and place of birth, details concerning affiliation with group certified to have performed active duty with the Army, and signature.

#### CONTESTING RECORD PROCEDURES:

The Army's rules for accessing records, contesting contents, and appealing initial agency determinations are published in Army Regulation 340-21; 32 CFR part 505; or may be obtained from the system manager.

#### RECORD SOURCE CATEGORIES:

From the individual.

#### EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

## DEPARTMENT OF DEFENSE

### Department of the Navy

#### Meeting of the Chief of Naval Operations (CNO) Executive Panel

**AGENCY:** Department of the Navy, DOD.

**ACTION:** Notice of closed meeting.

**SUMMARY:** The CNO Executive Panel will meet to conduct the midterm briefing of the High Impact Environmental Issues Task Force to the Chief of Naval Operations. This meeting will consist of discussions of findings regarding security implications, training impact and readiness effects, and will also include preliminary recommendations for Navy environmental strategy and evaluations of alternative training means. This meeting will be closed to the public.

**DATES:** The meeting will be held on Friday, June 22, 2001, from 1:30 p.m. to 2:00 p.m.

**ADDRESSES:** The meeting will be held at the office of the Chief of Naval Operations, 2000 Navy Pentagon, Room 4E630, Washington, DC 20350-2000.

**FOR FURTHER INFORMATION CONTACT:** Commander Christopher Agan, CNO Executive Panel, 4825 Mark Center Drive, Alexandria, VA 22311, telephone (703) 681-6205.

**SUPPLEMENTARY INFORMATION:** Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. 2), these matters constitute classified information that is specifically authorized by Executive Order to be kept secret in the interest of national defense and are, in fact, properly classified pursuant to such Executive Order. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, United States Code.

Dated: June 5, 2001.

**J.L. Roth,**

*Lieutenant Commander, U.S. Navy, Judge Advocate General's Corps, Federal Register Liaison Officer.*

## DEPARTMENT OF EDUCATION

#### Submission for OMB Review; Comment Request

**AGENCY:** Department of Education.

**SUMMARY:** The Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

**DATES:** Interested persons are invited to submit comments on or before July 16, 2001.

**ADDRESSES:** Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Lauren Wittenberg, Acting Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10235, New Executive Office Building, Washington, DC 20503 or should be electronically mailed to the internet address [Lauren\\_Wittenberg@omb.eop.gov](mailto:Lauren_Wittenberg@omb.eop.gov).

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that

the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Dated: June 8, 2001.

**Bill Burrow,**

*Acting Leader, Regulatory Information Management, Office of the Chief Information Officer.*

#### Office of the Undersecretary

*Type of Review:* New Collection.

*Title:* National Study of Title I Schools (JM).

*Frequency:* Annually.

*Affected Public:* State, Local, or Tribal Gov't, SEAs or LEAs (primary).

*Reporting and Recordkeeping Hour Burden:*

Responses: 3280; Burden Hours: 11920.

*Abstract:* This National Study of Title I Schools will be the main source of nationally-representative school-level information on the implementation of Title I provisions and standards-based reform generally, over a three-year period from the 2001-02 through 2003-04 school years. The study will examine and describe how Title I schools are using standards-based reforms to assist in improving learning, with a particular focus on implementation of provisions in the Title I program that are designed to support such improvements. The study will also examine more specifically the quality of instruction and instructional support in Title I schools, with a focus on implementation of Title I provisions designed to support more effective instruction and instructional support.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, or should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW, Room 4050, Regional Office Building 3, Washington, DC 20202-4651. Requests may also be electronically mailed to the internet address [OCIO\\_IMG\\_Issues@ed.gov](mailto:OCIO_IMG_Issues@ed.gov) or faxed to 202-708-9346. Please specify the complete title of the information collection when making your request. Comments regarding burden and/or the collection activity requirements should be directed to MONTAGUE at (202) 708-5359. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

## DEPARTMENT OF ENERGY

### Bonneville Power Administration

#### Starbuck Power Project

**AGENCY:** Bonneville Power Administration (BPA), Department of Energy (DOE).

**ACTION:** Notice of intent to prepare an Environmental Impact Statement.

**SUMMARY:** This notice announces BPA's intention to prepare a joint National Environmental Policy Act (NEPA)/State Environmental Policy Act (SEPA) EIS in cooperation with the State of Washington Energy Facility Site Evaluation Council (EFSEC) for an electrical interconnection including a new 16-mile 500-kilovolt (kV) transmission line and other facilities associated with a proposed power plant. BPA is the lead Federal agency under NEPA and EFSEC is the lead Washington State agency under SEPA. The Starbuck Power Project is a 1,200-megawatt (MW) generating station proposed by Starbuck Power Company, L.L.C. (SPC) that would be located near the town of Starbuck in Columbia County, Washington. SPC has requested an interconnection and upgrade to BPA's transmission system that would allow firm power delivery to the wholesale power market. BPA proposes to execute an agreement with SPC to provide the interconnection and firm power transmission.

**ADDRESSES:** To be placed on the project mailing list, including notification of proposed meetings, call toll-free 1-800-622-4520, name this project, and leave your complete name and address. To

comment, call toll-free 1-800-622-4519; send an e-mail to the BPA Internet address [comment@bpa.gov](mailto:comment@bpa.gov); or send a letter to Communications, Bonneville Power Administration—KC-7, P.O. Box 12999, Portland, Oregon, 97212.

**FOR FURTHER INFORMATION CONTACT:** Lou Driessen, Project Manager, Bonneville Power Administration—TNP-3, P.O. Box 3621, Portland, Oregon, 97208-3621; toll-free telephone 1-800-282-3713; direct telephone 503-230-5525; or e-mail [lcdriessen@bpa.gov](mailto:lcdriessen@bpa.gov). You may also contact Phil Smith, Environmental Coordinator, Bonneville Power Administration—KEC-4, P.O. Box 3621, Portland, Oregon 97208-3621; toll-free telephone 1-800-282-3713; direct telephone 503-230-3294; or e-mail [pwsmith@bpa.gov](mailto:pwsmith@bpa.gov). Additional information can be found at BPA's web site: [www.efw.bpa.gov](http://www.efw.bpa.gov).

**SUPPLEMENTARY INFORMATION:** The EIS will assess the environmental consequences of the proposed project, including:

- Interconnection agreement that BPA proposes with SPC;
- Construction and operation of the power plant;
- Construction and operation of an approximately 200-foot, 20-inch-diameter gas line to tie into Pacific Gas & Electric (PG&E) Gas Transmission Northwest's (GTN) pipeline;
- Construction and operation of an on-site well, or in the alternative, an approximately 6-mile long, 4-inch diameter water supply line from the town of Starbuck to the power plant site;
- Construction and operation of a rail spur near the power plant site for use during power plant construction; and
- Construction and operation of an interconnection consisting of a substation and approximately 16 miles of 500-kV transmission line from the substation to Lower Monumental Substation.

The power plant and the gas and power interconnections would be located within Columbia County, Washington. Approximately 1 mile of the new 500-kV transmission line would be located in Columbia County with the remaining 15 miles in Walla Walla County, Washington.

Responsibility for construction and operation of the new facilities is principally with SPC who would build and operate the power plant. However, the interconnection and the new 500-kV transmission line would be constructed under BPA's management, and BPA would be responsible for the operation and maintenance of these facilities. GTN would build and operate the proposed

approximately 200-foot gas pipeline that would supply fuel to the power plant.

#### Proposed Action

The Starbuck Power Project would be a natural-gas-fired combined-cycle combustion turbine power plant with a nominal generating capacity of approximately 1,200 MW. The plant site would be located on approximately 50 acres of a 100-acre site that is zoned for industrial use and which is located approximately 6 miles northwest of Starbuck, Washington, on property under option and owned by the BAR-Z Ranch, a Washington Corporation.

Natural gas would be burned in a gas turbine engine, in which the expanding gases from combustion would turn the turbine's rotor, driving a generator to produce electrical energy. Hot exhaust from the gas turbine would be used to boil water, using a heat recovery steam generator (HRSG). Steam produced by the HRSG turns a steam turbine, which would connect to another generator, producing additional electrical energy.

The Starbuck Power Project would consist of two complete and separate combined cycle power blocks (or "islands") and associated support facilities. In summary, each block would consist of two gas combustion turbine generators, two HRSGs, one steam turbine generator, and one air-cooled condenser.

Water would be required to generate steam, as well as for sanitary uses. The proposed power plant would require an average water consumption rate of less than 500,000 gallons per day (gpd). SPC proposes to use an on-site well. As an alternative, the project has secured an option to purchase 100 gallons per minute (gpm), or up to 144,000 gpd, of water from the town of Starbuck's existing water right. With this alternative, an approximately 5-mile water pipeline would be constructed from the town of Starbuck to the project site. SPC proposes to locate this line within an abandoned railroad right-of-way that parallels SR-261 from Starbuck to just south of the project site.

SPC proposes that project wastewater and storm water be collected in retention and infiltration ponds located at the south end of the property.

The proposed Starbuck Power Project would deliver electricity to the regional power grid through an interconnection and a new 500-kV transmission line paralleling the existing Lower Monumental-Little Goose No. 1 and No. 2 transmission lines. BPA would also modify the existing Lower Monumental Substation.
